

respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The ICR provides a detailed explanation of the Agency's estimate, which is only briefly summarized here:

Estimated total number of potential respondents: 568.

Frequency of response: On occasion.

Estimated total average number of responses for each respondent: 1.7.

Estimated total annual burden hours: 4,952.64.

Estimated total annual costs: \$128,466.67 (This includes only the estimated burden cost of \$128,466.67 and no costs for capital investment or maintenance and operational costs.)

Are There Changes in the Estimates From the Last Approval?

There is a decrease of 883 hours in the total estimated respondent burden compared with that identified in the ICR currently approved by OMB. This decrease reflects a decrease in the estimated number of respondents from the previous ICR.

What Is the Next Step in the Process for This ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. At that time, EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

What Information Collection Activity or ICR Does This Apply to?

Affected entities: Entities potentially affected by this action are municipal water utility managers and members of the public participating in focus groups.

Title: Critical Public Information Needs during Drinking Water Emergencies (New)

ICR numbers: EPA ICR No. 2322.01, OMB Control No. 2080-NEW.

ICR status: This ICR is for a new information collection activity. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR,

after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: EPA is collecting this information as part of a formative research study to identify critical information the public will need from water utilities and other decision-makers during a crisis event impacting drinking water. The research will probe consumers' and water sector professionals' beliefs, opinions, and knowledge about water security risks to assist public officials in planning effective crisis communication strategies for such emergencies. Good communication can rally support, calm fears, provide needed instructions, and encourage cooperative behaviors.

Study participants will also provide feedback on the effectiveness of draft sample messages previously developed by EPA in consultation with subject matter experts from water utilities, public health, emergency response, law enforcement, and water trade/professional organizations. Voluntary participants for this one-time study will include water utility managers, public information officers, and members of the public who consume drinking water supplied by water utilities. Confidentiality of responses from respondents will be assured by using an independent contractor to collect the information, enacting procedures to prevent unauthorized access to respondent data, and preventing public disclosure of the responses of individual participants.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 1.7 hours per response. Burden is defined as the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to: Review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information;

search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The ICR provides a detailed explanation of the Agency's estimate, which is only briefly summarized here:

Estimated total number of potential respondents: 52 water utility professional staff and 128 members of the public participating in focus group discussions.

Frequency of response: Once.

Estimated total average number of burden hours for each respondent: 1 hour for water utility professional staff and 2 hours for members of the public participating in focus group discussions.

Estimated total annual respondent burden hours: 308 hours.

Estimated total annual costs: \$1,380.46. This includes an estimated burden cost of \$1,380.46 for participating water utility professional staff and \$0 for members of the public participating in focus group discussions and an estimated cost of \$0 for capital investment or maintenance and operational costs.

What Is the Next Step in the Process for This ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. At that time, EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.
