SUPPLEMENTARY INFORMATION:

I. Abstract

The U.S. Census Bureau plans to request a revision of the current Office of Management and Budget (OMB) clearance of the Questionnaire for Building Permit Official (SOC–QBPO). The Census Bureau uses the Computer-Assisted Personal Interviewing (CAPI) electronic questionnaire SOC–QBPO to collect information from state and local building permit officials on: (1) The types of permits they issue, (2) the length of time a permit is valid, (3) how they store permits, and (4) the geographic coverage of the permit system. This information is needed to carry out the sampling for the Survey of Housing Starts, Sales, and Completions (OMB number 0607–0110), also known as Survey of Construction (SOC). The SOC provides widely used measures of construction activity, including the economic indicators Housing Starts, Housing Completions, and New Housing Sales.

The current clearance for this survey is scheduled to expire on March 31, 2009. Census is rewriting the CAPI questionnaire software and requesting approval to begin using the revised questionnaire in the field in the summer of 2008. The revised questionnaire will include some additional information about how permits are issued that will improve the sampling for the Survey of

Construction. Other information which is no longer needed will be eliminated from the questionnaire. The overall length of the interview will not change. The sample size also will not change.

II. Method of Collection

The Census Bureau uses its field representatives to obtain information on the operating procedures of a permit office. The field representative visits the permit office, conducts the interview, and completes the electronic form.
