June 16, 2004.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's regulations contained in the 18 CFR Part 380 (FERC Order No. 486, 52 FR 47897), the Office of Energy Projects staff (staff) reviewed the Order Proposing Revocation of License for the Harvell Dam Project, located on the Appomattox River in Petersburg, Virginia, and prepared an environmental assessment (EA) for the proposed action at the project. In this EA, staff analyzed the potential environmental effects of the revocation of license and conclude that the revocation, or any other alternative considered, would not constitute a major Federal action significantly affecting the quality of the human environment.
