DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. AD12-10-000]

Reactive Power Resources; Notice of Technical Conference

The Federal Energy Regulatory Commission (Commission) in a recent order on a California Independent System Operator Corporation (CAISO) tariff filing pertaining to interconnection requirements stated that the CAISO's filing in this docket highlights potential issues regarding the need for reactive power capability among newly interconnecting asynchronous generators and raises questions concerning the need and efficacy of continuing the process established for wind resources under Order No. 661-A.¹ The order directed that Staff commence a technical conference to examine whether the Commission should reconsider or modify the reactive power provisions of Order No. 661-A. The order stated that, as part of that technical conference, Staff should examine what evidence could be developed under Order No. 661 to support a request to apply reactive power requirements more broadly than to individual wind generators during the interconnection study process.²

¹ *Interconnection for Wind Energy*, Order No. 661, FERC Stats. & Regs. ¶ 31,186, order on reh'g, Order No. 661-A, FERC Stats. & Regs. ¶ 31,198 (2005).

² *California Independent System Operator Corporation*, 137 FERC ¶ 61,143 (2011).

Take notice that such conference will be held on April 17, 2012 at the Commission's headquarters at 888 First Street NE., Washington, DC 20426, beginning at 9 a.m. (Eastern Time) in the Commission Meeting Room. The technical conference will be led by Commission staff.

At the conference, discussion items will include: the technical and economic characteristics of different types of reactive power resources, including synchronous and asynchronous generation resources, transmission resources and energy storage resources; the design options for and cost of installing reactive power equipment at the time of interconnection as well as retrofitting a resource with reactive power equipment; other means by which reactive power is currently secured such as through self-supply; and how a technology that is capable of providing reactive power but may not be subject to the generation interconnection process (e.g., FACTS) would be analyzed. The staff is further interested in gathering information on methods used to determine the reactive power requirements for a transmission system and how system impact and system planning studies take into account changes in technologies connected to the system.

Those interested in speaking at the conference should notify the Commission by close of business March 9, 2012 by completing an online form identifying from the above listed topics those that they wish to address: <https://www.ferc.gov/whats-new/registration/reactive-power-4-17-12-speaker-form.asp>. Due to time constraints, we may not be able to accommodate all those interested in speaking. The Commission will issue a subsequent notice that will provide the detailed agenda, including panel speakers.

Advance registration is not required, but is encouraged. You may register at the following Web page: <https://www.ferc.gov/whats-new/registration/reactive-power-4-17-12-form.asp>.

The conference will be transcribed and available by webcast. Transcripts will be available immediately for a fee from Ace Reporting Company (202-347-3700 or 1-800-336-6646). A free webcast of the technical conference in this proceeding is also available. Anyone with Internet access interested in viewing this conference can do so by navigating to the FERC Calendar of Events at www.ferc.gov and locating this event in the Calendar. The event will contain a link to its webcast. The Capitol Connection provides technical

support for the webcasts and offers the option of listening to the conferences via phone-bridge for a fee. If you have any questions, visit www.CapitolConnection.org or call (703) 993-3100.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

You may be potentially affected by this action if you are interested in pesticide regulation issues affecting States and any discussion between EPA and SFIREG on FIFRA field

implementation issues related to human health, environmental exposure to pesticides, and insight into EPA's decision-making process. You are invited and encouraged to attend the meetings and participate as appropriate. Potentially affected entities may include, but are not limited to:

Those persons who are or may be required to conduct testing of chemical substances under the Federal Food, Drug and Cosmetics Act (FFDCA), or the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and those who sell, distribute or use pesticides, as well as any Non Government Organization.

This listing is not intended to be exhaustive, but rather provides a guide for readers regarding entities likely to be affected by this action. Other types of entities not listed in this unit could also be affected. The North American Industrial Classification System (NAICS) codes have been provided to assist you and others in determining whether this action might apply to certain entities. If you have any questions regarding the applicability of this action to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

B. How can I get copies of this document and other related information?

EPA has established a docket for this action under docket ID number EPA-HQ-OPP-2012-0003. Publicly available docket materials are available either in the electronic docket at <http://www.regulations.gov>, or, if only available in hard copy, at the Office of Pesticide Programs (OPP) Regulatory Public Docket in Rm. S-4400, One Potomac Yard (South Bldg.), 2777 S. Crystal Dr., Arlington, VA. The hours of operation of this Docket Facility are from 8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. The Docket Facility telephone number is (703) 305-5805.

II. Tentative Agenda Topics

1. Bed bugs update, EPA response to letter to Steve Bradbury and discussion.
2. Endangered Species Act—Rozol ESA, EPA response to letter to Steve Bradbury
3. Impreliis update.
4. United States Geological Survey (USGS) Toxics Pesticide Program—case example.
5. Discussion of process for EPA revising product labels and how states can have input based on water quality and other environmental issues.
6. FIFRA Science Advisory Panel (SAP) and white paper “Characterizing Effects of Pesticides and Other Chemical Stressors to Aquatic Organisms”.
