

We reference the regulations outlining the terms and conditions of an award in the *Applicable Regulations* section of this notice and include these and other specific conditions in the GAN. The GAN also incorporates your approved application as part of your binding commitments under the grant.

3. Open Licensing Requirements:

Unless an exception applies, if you are awarded a grant under this competition, you will be required to openly license to the public grant deliverables created in whole, or in part, with Department grant funds. When the deliverable consists of modifications to pre-existing works, the license extends only to those modifications that can be separately identified and only to the extent that open licensing is permitted under the terms of any licenses or other legal restrictions on the use of pre-existing works. Additionally, a grantee or subgrantee that is awarded competitive grant funds must have a plan to disseminate these public grant deliverables. This dissemination plan can be developed and submitted after your application has been reviewed and selected for funding. For additional information on the open licensing requirements please refer to 2 CFR 3474.20.

4. *Reporting:* (a) If you apply for a grant under this competition, you must ensure that you have in place the necessary processes and systems to comply with the reporting requirements in 2 CFR part 170 should you receive funding under the competition. This does not apply if you have an exception under 2 CFR 170.110(b).

(b) At the end of your project period, you must submit a final performance report, including financial information, as directed by the Secretary. If you receive a multiyear award, you must submit an annual performance report that provides the most current performance and financial expenditure information as directed by the Secretary under 34 CFR 75.118. The Secretary may also require more frequent performance reports under 34 CFR 75.720(c). For specific requirements on reporting, please go to www.ed.gov/fund/grant/apply/appforms/appforms.html.

5. *Performance Measures:* Under the Government Performance and Results Act of 1993 (GPRA), the Secretary has established the following performance measures for assessing the effectiveness of TCPCTIP:

(a) Number of associate degrees and certificates awarded in Career and Technical Education fields during the preceding school year;

(b) Percent of full-time, first-time degree or certificate-seeking American Indian or Alaska Native undergraduates who graduated within 150 percent of the normal time to program completion;

(c) Percent of full-time, first-time degree or certificate-seeking undergraduates who, within eight years of first enrolling, received a postsecondary award from the institution, or who subsequently enrolled at another institution;

(d) Percent of part-time, first-time degree or certificate-seeking undergraduates who, within eight years of first enrolling, received a degree or certificate from the institution, or who subsequently enrolled at another institution;

(e) Percent of full-time, non-first-time degree or certificate-seeking undergraduates who, within eight years of first enrolling, received a degree or certificate from the institution, or who subsequently enrolled at another institution; and

(f) Percent of part-time, non-first-time degree or certificate-seeking undergraduates who, within eight years of first enrolling, received a degree or certificate from the institution, or who subsequently enrolled at another institution.

The use of these indicators for GPRA will relieve reporting burden on TCPCTIP grantees because these indicators are among those that Tribally Controlled Postsecondary Career and Technical Institutions and other institutions of higher education that participate in Federal student aid programs authorized by title IV of HEA now report on annually to the National Center for Education Statistics through the Integrated Postsecondary Education Data System. The Secretary will set GPRA targets and report results separately for each TCPCTIP grantee.

6. *Continuation Awards:* In making a continuation award under 34 CFR 75.253, the Secretary considers, among other things: Whether a grantee has made substantial progress in achieving the goals and objectives of the project; whether the grantee has expended funds in a manner that is consistent with its approved application and budget; and, if the Secretary has established performance measurement requirements, the performance targets in the grantee's approved application.

In making a continuation award, the Secretary also considers whether the grantee is operating in compliance with the assurances in its approved

application, including those applicable to Federal civil rights laws that prohibit discrimination in programs or activities receiving Federal financial assistance from the Department (34 CFR 100.4, 104.5, 106.4, 108.8, and 110.23).

DEPARTMENT OF ENERGY**Update on Reimbursement for Costs of Remedial Action at Uranium and Thorium Processing Sites**

AGENCY: Office of Environmental Management, Department of Energy.

ACTION: Notice of the Title X claims during fiscal year (FY) 2019.

SUMMARY: This Notice announces the Department of Energy's (DOE) acceptance of claims in FY 2019 from eligible uranium and thorium processing site licensees for reimbursement under Title X of the Energy Policy Act of 1992. The FY 2020 Department of Energy Office of Environmental Management's Congressional Budget Request included \$21.035 million for the Title X Program.

DATES: The closing date for the submission of FY 2019 Title X claims is September 13, 2019. The claims will be processed for payment together with any eligible unpaid approved claim balances from prior years, based on the availability of funds from congressional appropriations. If the total approved claim amounts exceed the available funding, the approved claim amounts will be reimbursed on a prorated basis. All reimbursements are subject to the availability of funds from congressional appropriations.

ADDRESSES: Claims should be forwarded by certified or registered mail, return receipt requested, to U.S. Department of Energy, Office of Legacy Management, Attn: Jalena Dayvault, Lead for Review of Title X Reimbursement of Claims, U.S. Department of Energy, Office of Legacy Management, 2597 Legacy Way, Grand Junction, Colorado 81503. Two copies of the claim should be included with each submission.

FOR FURTHER INFORMATION CONTACT:

Jaffet Ferrer-Torres, Title X Program Lead and Coordinator, at (202) 586–0730 or Email: jaffet.ferrer-torres@hq.doe.gov, of the U.S. Department of Energy, Office of Environmental Management, Office of Waste Disposal.

SUPPLEMENTARY INFORMATION: DOE published a final rule under 10 CFR part 765 in the **Federal Register** on May 23, 1994, (59 FR 26714) to carry out the requirements of Title X of the Energy Policy Act of 1992 (sections 1001–1004 of Pub. L. 102–486, 42 U.S.C. 2296a *et seq.*) and to establish the procedures for eligible licensees to submit claims for reimbursement. DOE amended the final rule on June 3, 2003, (68 FR 32955) to adopt several technical and administrative amendments (*e.g.*, statutory increases in the

reimbursement ceilings). Title X requires DOE to reimburse eligible uranium and thorium licensees for certain costs of decontamination, decommissioning, reclamation, and other remedial action incurred by licensees at active uranium and thorium processing sites. The eligible licensees incurred these costs to remediate byproduct material, generated as an incident of sales to the United States Government of uranium or thorium that was extracted or concentrated from ores processed primarily for their source material contents. To be reimbursable, costs of remedial action must be for work that is necessary to comply with applicable requirements of the Uranium Mill Tailings Radiation Control Act of 1978 (42 U.S.C. 7901 *et seq.*) or, where appropriate, with requirements established by a State pursuant to a discontinuance agreement under section 274 of the Atomic Energy Act of 1954 (42 U.S.C. 2021). Claims for reimbursement must be supported by reasonable documentation as determined by DOE in accordance with 10 CFR part 765. Funds for reimbursement will be provided from the Uranium Enrichment Decontamination and Decommissioning Fund established at the Department of Treasury pursuant to section 1801 of the Atomic Energy Act of 1954 (42 U.S.C. 2297g). Payment or obligation of funds shall be subject to the requirements of the Anti-Deficiency Act (31 U.S.C. 1341).

Authority: Section 1001–1004 of Public Law 102–486, 106 Stat. 2776 (42 U.S.C. 2296a *et seq.*).

Signed in Washington, DC, on June 18, 2019.

Jaffet Ferrer-Torres,

Title X Program Lead and Coordinator, Office of Waste Disposal, Office of Environmental Management.
