

statement of the issue of law or fact to be raised or controverted. In addition, the petitioner shall provide a brief explanation of the bases of each contention and a concise statement of the alleged facts or the expert opinion that supports the contention and on which the petitioner intends to rely in proving the contention at the hearing. The petitioner must also provide references to those specific sources and documents of which the petitioner is aware and on which the petitioner intends to rely to establish those facts or expert opinion. The petitioner must provide sufficient information to show that a genuine dispute exists with the applicant on a material issue of law or fact. Contentions shall be limited to matters within the scope of the action under consideration. The contention must be one that, if proven, would entitle the petitioner to relief. A petitioner who fails to file such a supplement that satisfies these requirements with respect to at least one contention will not be permitted to participate as a party.

Those permitted to intervene become parties to the proceeding, subject to any limitations in the order granting leave to intervene, and have the opportunity to participate fully in the conduct of the hearing, including the opportunity to present evidence and cross-examine witnesses.

Requests for a hearing and petitions for leave to intervene must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington DC 20555-0001, Attention: Rulemakings and Adjudications Staff, or may be delivered to the Commission's Public Document Room, 11555 Rockville Pike (first floor), Rockville, Maryland, 20855-2738, by the above date. A copy of the request for a hearing and the petition to intervene should also be sent to the Office of the General Counsel, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, and to Mr. David A. Christian, Sr. Vice President and Chief Nuclear Officer, Virginia Electric Power Company, Innsbrook Technical Center, 5000 Dominion Boulevard, Glen Allen, VA 23060-6711.

Nontimely filings of petitions for leave to intervene, amended petitions, supplemental petitions, and/or requests for a hearing will not be entertained absent a determination by the Commission, the presiding officer, or the Atomic Safety and Licensing Board that the petition and/or request should be granted based upon a balancing of the factors specified in 10 CFR 2.714(a)(1)(i)-(v) and 2.714(d).

Detailed information about the license renewal process can be found under the nuclear reactors' icon of the NRC's Web page at <http://www.nrc.gov>.

A copy of the applications to renew the operating licenses for North Anna Nuclear Station, Units 1 and 2, and Surry Nuclear Station, Units 1 and 2, is available for public inspection at the Commission's Public Document Room, 11555 Rockville Pike (first floor), Rockville, Maryland, 20855-2738, and on the NRC's Web page at <http://www.nrc.gov>. The staff has also verified that a copy of the license renewal application for the North Anna nuclear station has been provided to the Alderman Library at the University of Virginia, and that a copy of the license renewal application for the Surry nuclear station has been provided to the Swem Library at the College of William and Mary.

Dated at Rockville, Maryland, this the 23rd day of July 2001.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-305]

Nuclear Management Company, LLC, Kewaunee Nuclear Power Plant, Notice of Consideration of Approval of Transfer of Facility Operating License and Conforming Amendment, and Opportunity for a Hearing

The U.S. Nuclear Regulatory Commission (the Commission) is considering the issuance of an order under 10 CFR 50.80 approving the transfer of Facility Operating License No. DPR-43 for the Kewaunee Nuclear Power Plant (KNPP), to the extent held by Madison Gas and Electric Company (MG&E) in connection with MG&E's 17.8 percent ownership interest in KNPP. The transfer would be to Wisconsin Public Service Corporation (WPSC), currently a 41.2 percent owner of KNPP. Wisconsin Power and Light Company (WP&L), the only other co-owner of KNPP, is not involved in the transfer. Nuclear Management Company, LLC (NMC), the licensed operator of KNPP, would remain as such. The Commission is also considering amending the license for administrative purposes to reflect the proposed transfer.

According to an application for approval filed by NMC, WPSC would acquire MG&E's ownership interest in the facility following approval of the proposed license transfer, and would become responsible for the decommissioning costs for KNPP that are currently the responsibility of MG&E, in addition to remaining responsible for such costs associated with WPSC's current ownership interest. MG&E will transfer a certain amount of the decommissioning trust funds accumulated by it, and make certain additional payments, to WPSC such that the total amount of decommissioning funds held by WPSC following the transfer of MG&E's ownership interest in KNPP to WPSC would exceed the Commission's required minimum amount on a pro rata basis. No physical changes to the facility or operational changes are being proposed in the application.

The proposed amendment would delete references to MG&E in the license to reflect the proposed transfer.

Pursuant to 10 CFR 50.80, no license, or any right thereunder, shall be transferred, directly or indirectly, through transfer of control of the license, unless the Commission shall give its consent in writing. The Commission will approve an application for the transfer of a license, if the Commission determines that the proposed transferee is qualified to hold the license, and that the transfer is otherwise consistent with applicable provisions of law, regulations, and orders issued by the Commission pursuant thereto.

Before issuance of the proposed conforming license amendment, the Commission will have made findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's regulations.

As provided in 10 CFR 2.1315, unless otherwise determined by the Commission with regard to a specific application, the Commission has determined that any amendment to the license of a utilization facility which does no more than conform the license to reflect the transfer action involves no significant hazards consideration. No contrary determination has been made with respect to this specific license amendment application. In light of the generic determination reflected in 10 CFR 2.1315, no public comments with respect to significant hazards considerations are being solicited, notwithstanding the general comment procedures contained in 10 CFR 50.91.

The filing of requests for hearing and petitions for leave to intervene, and written comments with regard to the

license transfer application, are discussed below.

By August 16, 2001, any person whose interest may be affected by the Commission's action on the application may request a hearing and, if not the applicant, may petition for leave to intervene in a hearing proceeding on the Commission's action. Requests for a hearing and petitions for leave to intervene should be filed in accordance with the Commission's rules of practice set forth in Subpart M, "Public Notification, Availability of Documents and Records, Hearing Requests and Procedures for Hearings on License Transfer Applications," of 10 CFR part 2. In particular, such requests and petitions must comply with the requirements set forth in 10 CFR 2.1306, and should address the considerations contained in 10 CFR 2.1308(a). Untimely requests and petitions may be denied, as provided in 10 CFR 2.1308(b), unless good cause for failure to file on time is established. In addition, an untimely request or petition should address the factors that the Commission will also consider, in reviewing untimely requests or petitions, set forth in 10 CFR 2.1308(b)(1)–(2).

Requests for a hearing and petitions for leave to intervene should be served upon Bradley D. Jackson, Esq., Foley & Lardner, One South Pinckney Street, P.O. Box 1497 Madison, WI 53701–1497, telephone number 608–258–4262, fax number 608–258–4258, and e-mail BJackson@foleylaw.com; the General Counsel, U.S. Nuclear Regulatory Commission, Washington, DC 20555 (e-mail address for filings regarding license transfer cases only OGCLT@nrc.gov); and the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001, Attention: Rulemakings and Adjudications Staff, in accordance with 10 CFR 2.1313.

The Commission will issue a notice or order granting or denying a hearing request or intervention petition, designating the issues for any hearing that will be held and designating the Presiding Officer. A notice granting a hearing will be published in the **Federal Register** and served on the parties to the hearing.

As an alternative to requests for hearing and petitions to intervene, by August 27, 2001, persons may submit written comments regarding the license transfer application, as provided for in 10 CFR 2.1305. The Commission will consider and, if appropriate, respond to these comments, but such comments will not otherwise constitute part of the decisional record. Comments should be submitted to the Secretary, U.S. Nuclear

Regulatory Commission, Washington, DC 20555–0001, Attention: Rulemakings and Adjudications Staff, and should cite the publication date and page number of this **Federal Register** notice.

For further details with respect to this action, see the application dated April 30, 2001, supplemental submittal dated June 27, 2001, available for public inspection at the Commission's Public Document Room, located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland, and accessible electronically through the ADAMS Public Electronic Reading Room link at the NRC Web site (<http://www.nrc.gov>).

Dated at Rockville, Maryland this 20th day of July 2001.

For the Nuclear Regulatory Commission.

John G. Lamb,

Project Manager Section 1, Project Directorate III, Division of Licensing Project Management, Office of Nuclear Reactor Regulation.
