

within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

Comments are invited on: (1) whether the collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; (2) if the information will be processed and used in a timely manner; (3) the accuracy of the agency’s estimates of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (4) ways to enhance the quality, utility and clarity of the information collection; and (5) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

FOR FURTHER INFORMATION CONTACT:

Nora Hernandez by telephone at 202–693–8633, or by email at DOL_PRA_PUBLIC@dol.gov.

SUPPLEMENTARY INFORMATION: Section 77.1713, Title 30 of the Code of Federal Regulations requires coal mine operators to conduct examinations of each active working area of surface mines, active surface installations at these mines, facilities and preparation plants not associated with underground coal mines for hazardous conditions during each shift. A report of hazardous conditions detected must be entered into a record book along with a description of any corrective actions taken. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on March 22, 2022 (87 FR 16240).

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless the OMB approves it and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid OMB Control Number. See 5 CFR 1320.5(a) and 1320.6.

DOL seeks PRA authorization for this information collection for three (3) years. OMB authorization for an ICR cannot be for more than three (3) years without renewal. The DOL notes that information collection requirements

submitted to the OMB for existing ICRs receive a month-to-month extension while they undergo review.

Agency: DOL–MSHA.

Title of Collection: Surface Coal Mines Daily Inspection; Certified Person; Reports of Inspection.

OMB Control Number: 1219–0083.

Affected Public: Businesses or other for-profits institutions.

Total Estimated Number of Respondents: 796.

Total Estimated Number of Responses: 248,880.

Total Estimated Annual Time Burden: 373,320 hours.

Total Estimated Annual Other Costs Burden: \$0.

(Authority: 44 U.S.C. 3507(a)(1)(D))

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

Institute of Museum and Library Services

Submission for OMB Review, Comment Request, Proposed Collection: IMLS Grants to States Program State Reporting System, Including Site Visit Checklist

AGENCY: Institute of Museum and Library Services, National Foundation on the Arts and the Humanities.

ACTION: Submission for OMB Review, request for comments, collection of information.

SUMMARY: The Institute of Museum and Library Services announces the following information collection has been submitted to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. This Notice proposes the clearance of the IMLS Grants to States Program State Reporting System, Including Site Visit Checklist. A copy of the proposed information collection request can be obtained by contacting the individual listed below in the **FOR FURTHER INFORMATION CONTACT** section of this Notice.

DATES: Written comments must be submitted to the office listed in the

ADDRESSES section below on or before September 02, 2022.

ADDRESSES: Written comments and recommendations for proposed information collection requests should be sent within 30 days of publication of this Notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection request by selecting “Institute of Museum and Library Services” under “Currently Under Review;” then check “Only Show ICR for Public Comment” checkbox. Once you have found this information collection request, select “Comment,” and enter or upload your comment and information. Alternatively, please mail your written comments to Office of Information and Regulatory Affairs, Attn.: OMB Desk Officer for Education, Office of Management and Budget, Room 10235, Washington, DC 20503, or call (202) 395–7316.

OMB is particularly interested in comments that help the agency to:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology (e.g., permitting electronic submission of responses).

FOR FURTHER INFORMATION CONTACT:

Teresa DeVoe, Associate Deputy Director of State Programs, Office of Library Services, Institute of Museum and Library Services, 955 L’Enfant Plaza North SW, Suite 4000, Washington, DC 20024–2135. Ms. DeVoe can be reached by telephone at 202–653–4778, or by email at tdevoe@imls.gov. Persons who are deaf or hard of hearing (TTY users) may contact IMLS at 202–207–7858 via 711 for TTY-Based Telecommunications Relay Service.

SUPPLEMENTARY INFORMATION: The Institute of Museum and Library Services is the primary source of federal support for the nation’s libraries and museums. We advance, support, and empower America’s museums, libraries, and related organizations through grant

making, research, and policy development. To learn more, visit www.imls.gov.

Current Actions: This notice proposes the clearance of the IMLS Grants to States Program State Reporting System, Including Site Visit Checklist. The Grants to States program is the largest source of Federal funding support for library services in the U.S. Using a population-based formula, more than \$160 million is distributed among the State Library Administrative Agencies (SLAAs) every year. SLAAs are official agencies charged by the Library Services and Technology Act (20 U.S.C. 9121 and 20 U.S.C. 9141) with the extension and development of library services, and they are located in each of the 50 States of the United States, the District of Columbia, the five Territories of Guam, American Samoa, the Commonwealth of Puerto Rico, the Commonwealth of the Northern Mariana Islands, and the U.S. Virgin Islands, and the three Freely Associated States of Federated States of Micronesia, Republic of Palau, and the Republic of the Marshall Islands.

Each State Library Administrative Agency (SLAA) is required, under 20 U.S.C. 9101 *et seq.* (in particular 20 U.S.C. 9134), to submit a plan that details library services goals for a five-year period, along with associated certifications. Pursuant to 20 U.S.C. 9134 (c), each SLAA that receives an IMLS grant under the Grants to States program is required to evaluate and report on all funded project activities to IMLS, prior to the end of the execution of its five-year plan. Each SLAA receives IMLS funding to support activities for the five-year period through a series of overlapping two-year grant awards. Each SLAA must file interim and final financial reports, and final performance reports for each of these two-year grants through IMLS's State Program Report (SPR) system. This action is to incorporate a Site Visit Checklist as a stand-alone form in the SPR system, which has an OMB Control Number of 3137-0071, expiring 8/31/2024. The 60-day Notice was published in the **Federal Register** on May 3, 2022 (87 FR 26231). The agency has taken into consideration the one comment that was received under this notice.

Agency: Institute of Museum and Library Services.

Title: IMLS Grants to States Program State Reporting System, Including Site Visit Checklist.

OMB Number: 3137-0071.

Agency Number: 3137.

Affected Public: State Library Administrative Agencies.

Total Number of Respondents: 59.

Frequency of Response: Annually for the State Program Report, once every five years for the Site Visit Checklist.

Average Hours per Response: 47.83 hours for the State Program Report (annually), 20 hours for the Site Visit Checklist (once every five years).

Total Burden Hours: 2,822.

Total Annualized capital/startup costs: n/a.

Total Annual Cost Burden: \$87,086.

Total Annual Federal Costs: \$40,377.

Dated: July 29, 2022.

Suzanne Mbollo,

Grants Management Specialist, Institute of Museum and Library Services.

BILLING CODE 7036-01-P

NATIONAL SCIENCE FOUNDATION

Notice of Permit Modification Received Under the Antarctic Conservation Act of 1978

AGENCY: National Science Foundation.

ACTION: Notice of permit modification request received and permit issued.

SUMMARY: The National Science Foundation (NSF) is required to publish a notice of requests to modify permits issued to conduct activities regulated under the Antarctic Conservation Act of 1978. NSF has published regulations under the Antarctic Conservation Act in the Code of Federal Regulations. This is the required notice of a requested permit modification issued.

DATES: July 27, 2022 to September 30, 2023.

FOR FURTHER INFORMATION CONTACT:

Andrew Titmus, ACA Permit Officer, Office of Polar Programs, National Science Foundation, 2415 Eisenhower Avenue, Alexandria, VA 22314; 703-292-4479; email: ACAPermits@nsf.gov.

SUPPLEMENTARY INFORMATION: The National Science Foundation (NSF), as directed by the Antarctic Conservation Act of 1978 (Pub. L. 95-541, 45 CFR 671), as amended by the Antarctic Science, Tourism and Conservation Act of 1996, has developed regulations for the establishment of a permit system for various activities in Antarctica and designation of certain animals and certain geographic areas as requiring special protection.

Description of Permit Modification Requested: The Foundation issued a permit (ACA 2021-002) to Megan Cimino on August 12, 2020. The issued permit allows the permit holder and agents to enter Antarctic Specially Protected Areas (ASPAs), as well as engage in research activities that would

result in Take, Harmful Interference, and Import into the USA. The permit holder and agents may conduct activities associated with long-term studies of seabird ecology including diets, breeding success, growth rates, survival, recruitment, behavior, population trends, foraging success, and seasonal dispersal. Study species include Adelie, Chinstrap, and Gentoo Penguins; Brown and South Polar Skua; Southern Giant Petrel; Blue-eyed Shag; Kelp Gull; and Snowy Sheathbill. Specimens from these and other species may be salvaged from birds that have died of natural causes.

A recent modification to this permit, dated April 21, 2021, permitted the permit holder to deploy three time-lapse cameras, two on Torgersen Island and one on Humble Island (Restricted Zones within ASMA 7, Southwest Anvers Island and Palmer Basin), to monitor Adelie penguin occupation patterns in relation to the Palmer Station pier construction. The two islands of interest are where Adelie penguin foraging behavior, diet, and phenology have been routinely studied and are the largest Adelie colonies near Palmer Station. The equipment consists of a small camera attached to a steel pole with a square base that is anchored under rocks. The cameras would be deployed at the end of May 2021 by permit agents (if there are any delays, the cameras would be installed during October 2021). The equipment would be hand carried in pieces to the sites of interest and assembled in the field. The cameras would remain in place for at least two years to obtain information during the pier construction and the year after construction.

Now the permit holder proposes a modification to deploy seven acoustic recorders, four on Humble Island and three on Torgersen Island (Restricted Zones within ASMA 7, Southwest Anvers Island and Palmer Basin), to record Adelie penguin vocalizations throughout the breeding season for assessing the validity of a new approach for high resolution population censusing and metapopulation modeling. The equipment consists of small battery powered acoustic recorders attached to a PVC pole with PVC pole bases that would be anchored under rocks. The recorders would be deployed in November 2022 by permit agents and retrieved in March 2023. Recorders will be visited weekly to replace batteries and memory cards.

The ACA Permit Officer has reviewed the modification request and has determined that the amendment is not a material change to the permit, and it
