The National Institute for Occupational Safety and Health (NIOSH) is requesting approval of a new draft data collection for a period of two years under the project titled Field Pilot to Inform the Development of a NIOSH Training Product, the Safety Skills at Work Curriculum. The goal of the proposed field pilot is to inform the development of a draft foundational occupational safety and health (OSH) training intervention, the *Safety Skills at Work* curriculum, as well as the development of the methods and data collection instruments for the evaluation of the intervention. The proposed field pilot will be conducted through a collaborative partnership with the Pacific Mountain Workforce Development Council (PacMtn WDC), a workforce development organization in Washington State. PacMtn WDC will recruit 72 participants split into 4-6 cohorts with 12-18 participants per cohort. For each cohort, the draft curriculum will be administered to 6-9 participants (training group) and an online survey will be administered to the training group as well as a group of 6-9 participants who do not receive the training (comparison group) at three
