New Hampshire: Final Authorization of State Hazardous Waste Management Program Revisions

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: New Hampshire has applied to the Environmental Protection Agency (EPA) for final authorization of revisions to its hazardous waste program under the Resource Conservation and Recovery Act (RCRA), as amended. The EPA proposes to grant final authorization to New Hampshire for these revisions by a direct final rule, which can be found in the “Rules and Regulations” section of this **Federal Register**. We have explained the reasons for this authorization in the preamble to the direct final rule. Unless EPA receives written comments that oppose this authorization during the comment period, the direct final rule will become effective on the date it establishes, and the EPA will not take further action on this proposed rule.

DATES: Send your written comments by September 14, 2023.

SUPPLEMENTARY INFORMATION: In the “Rules and Regulations” section of this **Federal Register**, the EPA is authorizing the revisions by a direct final rule. The EPA will then respond to public comments in a later final rule based on this proposal. You may not have another opportunity for comment.
