#### Extension of Comment Period on the Draft Proposed 5-Year Outer Continental Shelf (OCS) Oil and Gas Leasing Program for 2010-2015 (DPP) and Notice of Intent To Prepare an Environmental Impact Statement (EIS) for the Proposed 5-Year Program

**AGENCY:** Minerals Management Service, Interior.

**ACTION:** Extension of Time for Request for Comments.

**SUMMARY:** On February 10, 2009, the Secretary of the Interior announced a new comprehensive approach to the Nation's offshore energy plan, which includes four parts and affects the Draft Proposed 5-year OCS Oil and Gas Leasing Program for 2010-2015 (DPP), published on January 16, 2009, by the previous Administration. The Secretary's four steps are—

- An additional 180 days for public comment on the DPP and the Notice of Intent to Prepare an EIS for the proposed 5-year program to September 21, 2009;

- Preparation by MMS and the U.S. Geological Survey of a report setting forth all the information available on our offshore energy resources, with the report to be completed within 45 days of the Secretary's announcement;

- Regional meetings to be convened by the Secretary on each coast and in Alaska to gather the best ideas for how to move forward with a comprehensive offshore energy plan, with the meetings to occur in the 30 days following completion of the report; and

- Commitment by the Secretary to issuing a final rulemaking on offshore renewable energy resources in the coming months.

This **Federal Register** Notice announces the 180-day extension of time for receipt of comments on the DPP and the Notice of Intent to Prepare an EIS for the proposed 5-year program. The original comment period was announced in the **Federal Register** on January 21, 2009 (74 FR 3631) with a closing date of March 23, 2009. The new closing date is September 21, 2009. The additional time will give states, stakeholders, and affected communities the opportunity to provide input on

how, whether, and where the Nation's offshore areas should be considered as part of the Nation's energy strategy.

Section 18 of the OCS Lands Act (43 U.S.C. 1344) specifies a multi-step process of consultation and analysis that must be completed before the Secretary of the Interior may approve a new 5-year program. The required steps following this notice include the development of a proposed program, a proposed final program, and Secretarial approval. Pursuant to the National Environmental Policy Act (NEPA), the MMS also will prepare an EIS for the new 5-year program. The notice in the **Federal Register** on January 21, 2009 (74 FR 3631) started the formal scoping process for the EIS under 40 CFR 1501.7, and solicited information regarding issues and alternatives that should be evaluated in the EIS. The EIS will analyze the potential impacts of the adoption of the proposed 5-year program.

**DATES:** Please submit comments and information to the MMS no later than September 21, 2009.
