

and the proposed approval decision. EPA will accept public comment on this notice and supplemental information as described in Section 1.B. above. The EPA will not make a determination of compliance before the 45-day comment period ends. At the end of the public comment period, EPA will evaluate all relevant public comment and revise the inspection report as necessary. The Agency will then issue an approval letter and the final inspection report, both of which will be posted on the WIPP Web site. The letter of approval will allow CCP to use the approved TRU waste characterization processes to characterize TRU waste at SRS.

Information on the certification decision is filed in the official EPA Air Docket, Docket No. A-93-02 and is available for review in Washington, DC, and at the three EPA WIPP informational docket locations in New Mexico (as listed in **ADDRESSES**). The dockets in New Mexico contain only major items from the official Air Docket in Washington, DC, plus those documents added to the official Air Docket since the October 1992 enactment of the WIPP LWA.

Dated: March 9, 2006.

BILLING CODE 6560-50-P

FEDERAL MARITIME COMMISSION

[Docket No. 06-04]

Revocation of Licenses for Failure To Comply With the Financial Responsibility Requirements of the Shipping Act of 1984; Order To Show Cause

Since enactment of the Shipping Act of 1984 ("1984 Act"), 46 U.S.C. app. §§ 1701-1721, section 19¹ of the statute set forth the licensing and bonding requirements applicable to ocean freight forwarders, while section 23 of the 1984 Act established separate bonding requirements for non-vessel-operating common carriers ("NVOCCs"). Effective May 1, 1999, the 1984 Act was modified and updated by the passage of the Ocean Shipping Reform Act of 1998 ("OSRA"), Public Law 105-258, 112 Stat. 1902. OSRA delineated a new category of regulated entities called an ocean transportation intermediary ("OTI"), defined to include both freight forwarders and NVOCCs. While continuing the statutory requirements of

the 1984 Act that all OTIs submit a surety bond as proof of financial responsibility, a revised section 19 for the first time required that NVOCCs operating in the United States be licensed by the Federal Maritime Commission ("Commission").

Concurrent with the effective date of OSRA, the Commission prescribed new regulations at 46 CFR Part 515 (*Licensing, Financial Responsibility Requirements, and General Duties for Ocean Transportation Intermediaries*), implementing those revisions to the 1984 Act with respect to OTI licensing and financial responsibility (64 FR 11156, March 8, 1999). The Commission's OTI regulations specify that each OTI must establish its financial responsibility by furnishing the Commission a surety bond, evidence of insurance or evidence of guaranty to provide coverage for damages, reparations or penalties arising from the OTI's transportation-related activities. See 46 CFR 515.22. In the case of surety bonds, the regulations specify that such bonds must be issued by a surety company found acceptable by the Secretary of the Treasury. 46 CFR 515.22(a).²

By notice issued June 23, 2003, the Department of Treasury terminated the Certificate of Authority issued to American Motorists Insurance Company, which had qualified that company as an acceptable surety on Federal bonds. Under the Treasury program, bonds that are continuous in nature remain valid and effective for the purposes issued, but may no longer be renewed. Commencing with the anniversary date of such termination, OTIs holding surety bonds issued by American Motorists Insurance Company were obligated to replace their OTI bond with a valid bond issued by a surety company currently certified by Treasury.

Contacts by Commission staff over an extended period have resulted in licensees voluntarily furnishing replacement evidence of financial responsibility with respect to all but 21 of the licensees previously covered by American Motorists Insurance Company bonds. In October and November 2005, the Commission contacted the licensees by phone and by formal letter, notifying each remaining licensee that continued failure to comply with bonding requirements placed them at risk of license revocation or other action to suspend such OTI's right to continue

operations in the U.S. trades. Following direct notice to the affected parties and an extended period to bring themselves into compliance, it appears that the 8 OTIs listed in the attached Schedule A no longer meet the requirements for demonstrating financial responsibility imposed by section 19 of the 1984 Act.

Now therefore, it is ordered that pursuant to section 11 of the Shipping Act of 1984, 46 U.S.C. app. 1710, the entities listed in Schedule A to this Order are directed to show cause why the Commission should not revoke their licenses for failure to comply with section 19 of the Shipping Act of 1984, 46 U.S.C. app. 1718, as amended, and 46 CFR 515.22(a).

It is further ordered that pursuant to section 11 of the Shipping Act of 1984, the entities listed in Schedule A to this Order are directed to show cause why the Commission should not order each of them to cease and desist from operating as an ocean transportation intermediary in the foreign trade of the United States, for failure to comply with section 19 of the Shipping Act of 1984, as amended, and 46 CFR Part 515;

It is further ordered that this proceeding is limited to the submission of affidavits of facts and memoranda of law;

It is further ordered that any person having an interest and desiring to intervene in this proceeding shall file a petition for leave to intervene in accordance with Rule 72 of the Commission's Rules of Practice and Procedure, 46 CFR 502.72. Such petition shall be accompanied by the petitioner's memorandum of law and affidavits of fact, if any, and shall be filed no later than the day fixed below;

It is further ordered that the entities listed in Schedule A to this Order are named as Respondents in this proceeding. Affidavits of fact and memoranda of law shall be filed by Respondents and any intervenors in support of Respondents no later than April 17, 2006;

It is further ordered that the Commission's Bureau of Enforcement be made a party to this proceeding;

It is further ordered that reply affidavits and memoranda of law shall be filed by the Bureau of Enforcement and any intervenors in opposition to Respondents no later than May 17, 2006;

It is further ordered that rebuttal affidavits and memoranda of law shall be filed by Respondents and intervenors in support no later than June 1, 2006;

It is further ordered that:

(a) Should any party believe that an evidentiary hearing is required, that party must submit a request for such

hearing together with a statement setting forth in detail the facts to be proved, the relevance of those facts to the issues in this proceeding, a description of the evidence which would be adduced, and why such evidence cannot be submitted by affidavit;

(b) Should any party believe that an oral argument is required, that party must submit a request specifying the reasons therefore and why argument by memorandum is inadequate to present the party's case; and

(c) Any request for evidentiary hearing or oral argument shall be filed no later than May 17, 2006;

It is further ordered that notice of this Order to Show Cause be published in the **Federal Register**, and that a copy thereof be served upon each respondent at its last known address;

It is further ordered that all documents submitted by any party of record in this proceeding shall be filed in accordance with Rule 118 of the Commission's Rules of Practice and Procedure, 46 CFR 502.118, and be mailed directly to all parties of record;

Finally, it is ordered that pursuant to the terms of Rule 61 of the Commission's Rules of Practice and Procedure, 46 CFR 502.61, the final decision of the Commission in this proceeding shall be issued by October 31, 2006.

By the Commission.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

National Toxicology Program (NTP), NTP Interagency Center for the Evaluation of Alternative Toxicological Methods (NICEATM); Notice of Availability of a Revised List of Recommended Reference Substances for Validation of In Vitro Estrogen and Androgen Receptor Binding and Transcriptional Activation Assays: Request for Comments and Submission of In Vivo and In Vitro Data

AGENCY: National Institute of Environmental Health Sciences (NIEHS), National Institutes of Health (NIH).

ACTION: Request for Comments and Submission of Data.

SUMMARY: The National Toxicology Program (NTP) Interagency Center for the Evaluation of Alternative

Toxicological Methods (NICEATM) announces the availability of an addendum to the report entitled, "Interagency Coordinating Committee on the Validation of Alternative Methods (ICCVAM) Evaluation of In Vitro Test Methods for Detecting Potential Endocrine Disruptors: Estrogen Receptor and Androgen Receptor Binding and Transcriptional Activation Assays" [NIH Publication 03-4503]. The addendum describes the rationale for proposed revisions to the original list of recommended reference substances for validation of *in vitro* estrogen receptor (ER) and androgen receptor (AR) binding and transcriptional activation (TA) assays. The original list was made publicly available in June 2003 (**Federal Register**, Vol. 68, No. 106, pp. 33171-33172, June 3, 2003). NICEATM requests public comments on the substances proposed as substitutes for six of the 78 substances in the original list. Data are also requested from *in vitro* and *in vivo* studies evaluating the estrogenic and androgenic activity of the 78 substances in the revised list of reference substances.

DATES: Comments and data submissions should be received by May 1, 2006.

ADDRESSES: Correspondence should be sent by mail, fax, or e-mail to Dr. William S. Stokes, NICEATM Director, NIEHS, P. O. Box 12233, MD EC-17, Research Triangle Park, NC, 27709, (phone) 919-541-2384, (fax) 919-541-0947, (e-mail) niceatm@niehs.nih.gov.

SUPPLEMENTARY INFORMATION:

Background

In April 2000, the Environmental Protection Agency (EPA) asked ICCVAM to evaluate the validation status of *in vitro* ER and AR binding and TA assays that were proposed as possible components of the EPA Endocrine Disruptor Screening Program Tier 1 screening battery. ICCVAM agreed to evaluate these test methods based on their potential interagency applicability and public health significance. NICEATM, which administers and provides scientific support for ICCVAM, subsequently compiled available data and information on *in vitro* ER and AR binding and TA assays in four draft Background Review Documents (BRDs) (available at <http://iccvam.niehs.nih.gov/methods/endocrine.htm>).

In collaboration with the ICCVAM Endocrine Disruptor Working Group, NICEATM organized an independent scientific evaluation of the validation status of the four types of *in vitro* endocrine disruptor screening test
