BILLING CODE 4312-50-S

DEPARTMENT OF THE INTERIOR

National Park Service

Notice of Inventory Completion: Arkansas Highway and Transportation Department, Little Rock, AR

AGENCY: National Park Service, Interior.

ACTION: Notice.

Notice is here given in accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3003, of the completion of an inventory of human remains and associated funerary objects in the possession of the Arkansas Highway and Transportation Department, Little Rock, AR. The human remains and associated funerary objects were removed from Poinsett County, AR.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 25 U.S.C. 3003 (d)(3). The determinations in this notice are the sole responsibility of the museum, institution, or Federal agency that has control of the Native American human remains. The National Park Service is not responsible for the determinations in this notice.

A detailed assessment of the human remains was made by the Arkansas Highway and Transportation Department professional staff with assistance from the University of Missouri in Columbia, MO, and in consultation with representatives of the Quapaw Tribe of Indians, Oklahoma.

In 1988, human remains representing a minimum of 15 individuals were removed from the Priestly site (3PO490) in Poinsett County, AR, by the Center for Archaeological Research, Southwest Missouri State University, Springfield, MO. The human remains were sent to the University of Missouri, Columbia for analysis and curation. The human remains were transferred to the Arkansas Highway and Transportation in June 2004. No known individuals were identified. The 46 associated funerary objects are 2 Lander points, 1 Gary point, 42 plain shell-tempered body sherds, and 1 plain shell-tempered sherd from the rim of a bowl.

Archeological evidence indicates the human remains are Native American

and are considered to be from an Emergent Mississippian culture. Judging from the context and radio-carbon dates obtained from various features at the site, the main component at the site and the human remains are thought to date between A.D. 750 to 1100.

Oral history evidence presented by representatives of the Quapaw Tribe of Indians, Oklahoma indicates that the region has long been included in the traditional and hunting territory of the Quapaw. French colonial records from the 1700s also indicate that at that time, the Quapaw were the only Native American group present in the St. Frances River valley where the Priestly site is located. Based on geographical location, historical documents, and oral history, the human remains are most likely associated with the Quapaw Tribe of Indians, Oklahoma.

Officials of the Arkansas Highway and Transportation have determined that, pursuant to 25 U.S.C. 3001 (9-10), the human remains described above represent the physical remains of at least 15 individuals of Native American ancestry. Officials of the Arkansas Highway and Transportation also have determined that, pursuant to 25 U.S.C. 3001 (3)(A), the 46 objects described above are reasonably believed to have been placed with or near individual human remains at the time of death or later as part of the death rite or ceremony. Lastly, officials of the Arkansas Highway and Transportation have determined that, pursuant to 25 U.S.C. 3001 (2), there is a relationship of shared group identity that can be reasonably traced between the Native American human remains and associated funerary objects and the Quapaw Tribe of Indians, Oklahoma.

Representatives of any other Indian tribe that believes itself to be culturally affiliated with the human remains and associated funerary objects should contact Diana Wilks, Arkansas Highway and Transportation Department, P.O. Box 2261, Little Rock, AR 72203, telephone (501) 569-2038, before September 22, 2008. Repatriation of the human remains and associated funerary objects to the Quapaw Tribe of Indians, Oklahoma may proceed after that date if no additional claimants come forward.

Arkansas Highway and Transportation Department is responsible for notifying the Quapaw Tribe of Indians, Oklahoma that this notice has been published.

Dated: July 28, 2008

BILLING CODE 4312-50-S

DEPARTMENT OF THE INTERIOR

National Park Service

Notice of Inventory Completion: Horner Collection, Oregon State University, Corvallis, OR

AGENCY: National Park Service, Interior.

ACTION: Notice.

Notice is here given in accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3003, of the completion of an inventory of human remains in the Horner Collection, Oregon State University, Corvallis, OR. The human remains were removed from an unknown location in Hawai'i.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 25 U.S.C. 3003 (d)(3). The determinations in this notice are the sole responsibility of the museum, institution, or Federal agency that has control of the Native American human remains. The National Park Service is not responsible for the determinations in this notice.

A detailed assessment of the human remains was made by Horner Collection, Oregon State University professional staff in consultation with representatives of the Office of Hawaiian Affairs, Hawai'i. The Alapa 'I Hanapi, Hawai'i Island Burial Council, Hui Malama I Na Kupuna O Hawai'i Nei, Kauai/Niihau Island Burial Council, Maui/Lanai Island Burial Council, Molokai Island Burial Council, O'ahu Burial Committee, and Van Horn Diamond 'Ohana were notified, but did not participate in consultations concerning the human remains.

At an unknown time by an unknown donor, human remains representing a minimum of one individual were accessioned into the Horner Collection. This skull came into the Horner Collection at an unknown time, but is accounted for in an inventory report of the Oregon State University's Osteology Collection, located in the Anthropology Department, in 1976. Notations taken at the time identify the skull as "Hawaii." No additional information on provenience is available. No known individual was identified. No associated funerary objects are present.

Osteologist professionals of the Anthropology Department at Oregon State University have determined that the skull is possibly of Native Hawaiian ancestry.

Officials of the Horner Collection, Oregon State University have determined that, pursuant to 25 U.S.C. 3001 (9-10), the human remains

described above represent the physical remains of one individual of Native Hawaiian ancestry. Officials of the Horner Collection, Oregon State University have determined that, pursuant to 25 U.S.C. 3001 (2), there is a relationship of shared group identity that can be reasonably traced between the Native Hawaiian human remains and the Office of Hawaiian Affairs.

Representatives of any other Indian tribe or Native Hawaiian Organization that believes itself to be culturally affiliated with the human remains should contact Sabah Randhawa, Executive Vice President and Provost, President's Office, Oregon State University, 600 Kerr Administration Building, Corvallis, OR 97331, telephone (541) 737-8260, before September 22, 2008. Repatriation of the human remains to the Office of Hawaiian Affairs may proceed after that date if no additional claimants come forward.

Horner Collection, Oregon State University is responsible for notifying the Alapa 'I Hanapi, Hawai'i Island Burial Council, Hui Malama I Na Kupuna O Hawai'i Nei, Kauai/Niihau Island Burial Council, Maui/Lanai Island Burial Council, O'ahu Burial Committee, Office of Hawaiian Affairs, and Van Horn Diamond 'Ohana that this notice has been published.

BILLING CODE 4312-50-S

DEPARTMENT OF THE INTERIOR

National Park Service

Notice of Inventory Completion: McWane Science Center, Birmingham, AL

AGENCY: National Park Service, Interior.

ACTION: Notice.

Notice is here given in accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3003, of the completion of an inventory of human remains and associated funerary objects in the possession of the McWane Science Center, Birmingham, AL. The human remains and associated funerary objects were removed from Yell County, AR.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 25 U.S.C. 3003 (d)(3). The determinations

in this notice are the sole responsibility of the museum, institution, or Federal agency that has control of the human remains and associated funerary objects. The National Park Service is not responsible for the determinations in this notice.

A detailed assessment of the human remains was made by the McWane Science Center's professional staff in consultation with representatives of the Quapaw Tribe of Indians, Oklahoma.

In the early 1900s, human remain representing the minimum of one individual were removed from the Carden Bottoms site (3YE14) in Yell County, AR. Sometime between 1979 and 1985, G.E. Pilquist, a collector from Dardanelle, AR, donated the human remains to the Red Mountain Museum, Birmingham, AL. In 1994, the Red Mountain Museum merged with the Discovery Place under the name Discovery 2000 Inc., and now operates as McWane Science Center. No known individual was identified. The five associated funerary objects are three stone beads, one small copper bracelet, and one metal cone.

Museum records state that the human remains were recovered from a grave. Diagnostic artifacts indicate that the human remains were probably buried after European contact. Physical examination reveals the skeletal remains to be those of a child, and burial context associates the human remains with Native American populations. Archeological evidence indicates a continuity of the site from A.D. 1350 into the early historic period. The human remains and associated funerary objects may be a late component of the Carden Bottoms complex, common along the Lower Arkansas River, including Yell County. The Quapaw Tribe dominated that area when sustained European occupation of the lower Arkansas River began in the mid to late 1600s. In 1818, the Quapaw ceded the area south of the Arkansas River, including what is now Yell County, to the United States. Based on the geographic evidence and the date attributed to the human remains, the human remains are most likely culturally affiliated to the Quapaw Tribe of Indians, Oklahoma. In addition, the Quapaw Tribe of Oklahoma has previously repatriated human remains from the Carden Bottoms site (3YE14). Unassociated funerary objects removed from the Carden Bottoms site are described in an accompanying Notice of Intent to Repatriate Cultural Items.

Officials of McWane Science Center have determined that, pursuant to 25 U.S.C. 3001 (9-10), the human remains described above represent the physical

remains of one individual of Native American ancestry. Officials of McWane Science Center also have determined that, pursuant to 25 U.S.C. 3001 (3)(A), the five objects described above are reasonably believed to have been placed with or near individual human remains at the time of death or later as part of the death rite or ceremony and are believed, by a preponderance of the evidence, to have been removed from a specific burial site of a Native American individual. Lastly, officials of McWane Science Center have determined that, pursuant to 25 U.S.C. 3001 (2), there is a relationship of shared group identity that can be reasonably traced between the Native American human remains and associated funerary objects and the Quapaw Tribe of Indians, Oklahoma.

Representatives of any other Indian tribe that believes itself to be culturally affiliated with the human remains and associated funerary objects should contact Jun Ebersole, Collections Manager, McWane Science Center, 200 19th St. N, Birmingham, AL 35203, telephone (205) 714-8347, before September 22, 2008. Repatriation of the human remains and associated funerary objects to the Quapaw Tribe of Indians, Oklahoma may proceed after that date if no additional claimants come forward.

The McWane Science Center is responsible for notifying the Quapaw Tribe of Indians, Oklahoma that this notice has been published.
