Overview of This Information Collection

1. *Type of Information Collection:* Reinstatement, without change, of a previously approved collection for which approval has expired.

2. *Title of the Form/Collection:* 2022 Police Public Contact Survey (PPCS).

3. *Agency form number, if any, and the applicable component of the Department of Justice sponsoring the collection:* The form number for the questionnaire is PPCS–1. The applicable component within the Department of Justice is the Bureau of Justice Statistics (BJS), in the Office of Justice Programs.

4. *Affected public who will be asked or required to respond, as well as a brief abstract:* Respondents will be persons 16 years or older living in households located throughout the United States sampled for the National Crime Victimization Survey (NCVS). The PPCS will be conducted as a supplement to the NCVS in all sample households for a six (6) month period. The PPCS is typically conducted periodically with the last administration occurring in 2020. The PPCS is one component of the BJS effort to fulfill the mandate set forth by the Violent Crime Control and Law Enforcement Act of 1994 to collect, evaluate, and publish data on the use of

excessive force by law enforcement personnel. The goal of the collection is to report national statistics that provide a better understanding of the types, frequency, and outcomes of contacts between the police and the public, public perceptions of police behavior during the contact, and the conditions under which police force may be threatened or used. BJS plans to publish this information in reports and reference it when responding to queries from the U.S. Congress, Executive Office of the President, the U.S. Supreme Court, state officials, international organizations, researchers, students, the media, and others interested in criminal justice statistics.

5. *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* An estimate of the total number of respondents is 119,880 persons ages 16 and older. About 81.2% of PPCS respondents (97,343) will have no police contact and will complete the short interview with an average burden of four minutes. Among the 18.8% of respondents (22,537) who experienced police contact, the time to ask the detailed questions regarding the nature of the contact is estimated to take an average of 8 minutes. Respondents will be asked to respond to this survey only once during the six-month period. The burden estimates are based on data from the prior administration of the PPCS.

6. *An estimate of the total public burden (in hours) associated with the collection:* There are an estimated 9,495 total burden hours associated with this information collection.
