Summary of Collection: The Federal Cave Resources Protection Act (FCRPA) [Pub. Need and Use of the Information: In accordance with FCRPA, the FS collects information from appropriate private sector interests, including “cavers,” to update a list of significant caves under USDA’s jurisdiction. FS will use form FS–2800–0023 “Significant Cave Nomination Worksheet” to collect name, address, telephone number of individual or organization submitting the nomination and the individual who is knowledgeable about the resources in the cave; name and location of the cave, a discussion of how the cave meets the criteria, studies, maps, research papers and other supporting documentation. If this information is not collected FS might not become aware of potentially significant caves’ existence or have insufficient information upon which to base a judgment as to their significance.

SUPPLEMENTARY INFORMATION: The Animal and Plant Health Inspection Service (APHIS) of the United States Department of Agriculture (USDA) is proposing to add a new system of records, titled APHIS Student Outreach Programs System, USDA/APHIS–26, that APHIS’ Office of Civil Rights, Diversity, and Inclusion (OCRDI) will use to facilitate the submission and review of information submitted by students and their parents or guardians as part of the application process for outreach programs such as AgDiscovery. (AgDiscovery is a summer outreach program designed to help teenagers explore careers in areas such as plant and animal science, wildlife management, and agribusiness (<https://www.aphis.usda.gov/careers/students-grads/agdiscovery>).) APHIS Student Outreach Programs challenge students to consider the importance of American agriculture, and the role USDA plays in this critical mission. Students participate in experiential learning activities on and off campus, attend workshops, lectures, laboratory, and field exercises, in addition to a variety of cultural and teambuilding activities. The maintenance of this system is conducted in a manner consistent with the guidelines established in 7 U.S.C. 2279 (Farming Opportunities Training and Outreach).

The application process for OCRDI’s outreach programs provides information needed to discover and explore a student’s interest in agriculture and provides recommendations from others who are familiar with the student’s character. That information, which is collected annually from applicants, will be used to evaluate and select the participants for APHIS Student Outreach Programs. The application process also provides the agency and participating educational institutions information required to evaluate and rate the applicants.

Individuals covered by the system include students who apply for APHIS Student Outreach Programs and their parent(s) or guardian(s).

APHIS will share information from the system pursuant to the requirements of the Privacy Act and, in the case of its routine uses, when the disclosure is compatible with the purpose for which

the information was compiled. A full list of routine uses is included in the routine uses section below.
