SUPPLEMENTARY INFORMATION: On June 9, 2022, the Bureau issued a request for information seeking information from the public on how employer-driven debt has impacted consumers. The CFPB is particularly interested in hearing from consumers, worker organizations and labor unions, employers (including employers trying to compete with other employers using employer-driven debt), social services organizations, consumer rights and advocacy organizations, legal aid attorneys, academics and researchers, small businesses, financial institutions, and state and local government officials.

The CFPB welcomes the submission of descriptive information about experiences faced by people participating in the market, as well as quantitative data about employer-driven debt. The CFPB is interested in receiving comments relating to debt incurred to an employer or an associated entity, taken on in pursuit or in the course of employment. Commenters need not answer all or any of the specific questions posed. The CFPB anticipates analyzing this information in the service of better understanding the relationship between labor practices and the market for consumer financial products or services and identifying priority areas for future action.

The Bureau has determined that it is appropriate to extend until September 23, 2022, the comment period on this request for information. This extension will allow interested persons more time to pull together the requested information for submission. The

comment period will now close on September 23, 2022.
