

these discounts to NOM Market Makers does not impose an undue burden on competition because NOM Market Makers have obligations to the market and regulatory requirements which do not apply to other market participants.¹⁵ A NOM Market Maker has the obligation, for example, to make continuous markets, engage in a course of dealings reasonably calculated to contribute to the maintenance of a fair and orderly market, and not make bids or offers or enter into transactions that are inconsistent with a course of dealings. The proposed differentiation as between NOM Market Makers and other market participants recognizes the differing contributions of NOM Market Makers. For the above reasons, the Exchange believes that NOM Market Makers are entitled to discounted fees, provided they qualify for the discount. Offering the fee discount to Non-NOM Market Makers does not impose an undue burden on competition because the Exchange is offering Participants flexibility in the manner in which they are submitting their orders. Non-NOM Market Makers have obligations on other exchanges to qualify as a market maker. Also, the Exchange believes that market makers not registered on NOM will be encouraged to send orders to NOM as an away market maker (Non-NOM Market Maker) with this incentive. Because the incentive is being offered to both market makers registered on NOM and those not registered on NOM, the Exchange believes that the proposal does not impose an undue burden on competition because it encourages market makers to direct liquidity to NOM to the benefit of all Participants. This proposal recognizes the overall contributions made by market makers to a listed options market.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A) of the Act¹⁶ and paragraph (f)(2) of Rule 19b-4 thereunder.¹⁷ At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if

it appears to the Commission that such action is: (i) necessary or appropriate in the public interest; (ii) for the protection of investors; or (iii) otherwise in furtherance of the purposes of the Act.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-97473; File No. SR-BX-2023-009]

Self-Regulatory Organizations; Nasdaq BX, Inc.; Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Amend Its Pricing Schedule at BX Options 7, Section 2 To Increase the Taker Fee for Customer Orders in SPY

May 10, 2023.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),¹ and Rule 19b-4 thereunder,² notice is hereby given that on May 1, 2023, Nasdaq BX, Inc. ("BX" or "Exchange") filed with the Securities and Exchange Commission ("SEC" or "Commission") the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend its Pricing Schedule at BX Options 7, Section 2 to increase the taker fee for customer orders in SPY.

The text of the proposed rule change is available on the Exchange's website at <https://listingcenter.nasdaq.com/rulebook/bx/rules>, at the principal office of the Exchange, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set

forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of the proposed rule change is to amend the BX Pricing Schedule at Options 7, Section 2 to increase the Customer³ Taker Fee in SPY from \$0.31 to \$0.33 per contract.

Today, the Exchange charges Customer orders a Taker Fee of \$0.46 per contract in Penny Symbols. For Customer orders in SPY, the Exchange charges a reduced Taker Fee of \$0.31 per contract. The Exchange now proposes to increase the Customer Taker Fee in SPY from \$0.31 to \$0.33 per contract.

2. Statutory Basis

The Exchange believes that its proposal is consistent with Section 6(b) of the Act,⁴ in general, and furthers the objectives of Sections 6(b)(4) and 6(b)(5) of the Act,⁵ in particular, in that it provides for the equitable allocation of reasonable dues, fees and other charges among members and issuers and other persons using any facility, and is not designed to permit unfair discrimination between customers, issuers, brokers, or dealers.

The Exchange's proposed changes to its Pricing Schedule are reasonable in several respects. As a threshold matter, the Exchange is subject to significant competitive forces in the market for options securities transaction services that constrain its pricing determinations in that market. The fact that this market is competitive has long been recognized by the courts. In *NetCoalition v. Securities and Exchange Commission*, the D.C. Circuit stated as follows: "[n]o one disputes that competition for order flow is 'fierce.' . . . As the SEC explained, '[i]n the U.S. national market system, buyers and sellers of securities, and the broker-dealers that act as their order-routing agents, have a wide range of choices of where to route orders for execution'; [and] 'no exchange can afford to take its market share percentages for granted' because 'no exchange possesses a monopoly,

regulatory or otherwise, in the execution of order flow from broker dealers'. . . ."⁶

The Commission and the courts have repeatedly expressed their preference for competition over regulatory intervention in determining prices, products, and services in the securities markets. In Regulation NMS, while adopting a series of steps to improve the current market model, the Commission highlighted the importance of market forces in determining prices and SRO revenues and, also, recognized that current regulation of the market system "has been remarkably successful in promoting market competition in its broader forms that are most important to investors and listed companies."⁷

Numerous indicia demonstrate the competitive nature of this market. For example, clear substitutes to the Exchange exist in the market for options security transaction services. The Exchange is only one of sixteen options exchanges to which market participants may direct their order flow.

Within this environment, market participants can freely and often do shift their order flow among the Exchange and competing venues in response to changes in their respective pricing schedules. As such, the proposal represents a reasonable attempt by the Exchange to increase its liquidity and market share relative to its competitors.

The Exchange believes that its proposal to increase the Customer Taker Fee in SPY from \$0.31 to \$0.33 per contract is reasonable. While the Customer Taker Fee in SPY is increasing, Customers will continue to receive favorable pricing compared to all other market participants on BX. In particular, no other market participants except Customers are currently eligible to receive this reduced Taker Fee in SPY. These market participants are instead assessed the Penny Taker Fee of \$0.50 per contract today. Accordingly, the Exchange believes that its SPY Taker Fee will remain attractive for Customers, and will continue to attract such order flow to BX to the benefit of all market participants who may interact with this flow.

The Exchange believes that offering the reduced Taker Fee in SPY of \$0.33 per contract to Customers is equitable and not unfairly discriminatory because the proposed pricing will apply uniformly to all similarly situated

Participants. Customer liquidity benefits all market participants by providing more trading opportunities which attracts market makers. An increase in the activity of these market participants in turn facilitates tighter spreads and may cause an additional corresponding increase in order flow from other market participants.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act.

In terms of intra-market competition, all pricing would be uniformly assessed to similarly situated market participants. Customers will continue to receive favorable pricing as compared to other market participants because Customer liquidity enhances market quality on the Exchange by providing more trading opportunities, which benefits all market participants.

In terms of inter-market competition, the Exchange believes that with the proposed changes, its pricing remains competitive with other options markets and will offer market participants with another choice of where to transact options. The Exchange notes that it operates in a highly competitive market in which market participants can readily favor competing venues if they deem fee levels at a particular venue to be excessive, or rebate opportunities available at other venues to be more favorable. In such an environment, the Exchange must continually adjust its fees to remain competitive with other options exchanges. Because competitors are free to modify their own fees in response, and because market participants may readily adjust their order routing practices, the Exchange believes that the degree to which fee changes in this market may impose any burden on competition is extremely limited. In sum, if the changes proposed herein are unattractive to market participants, it is likely that the Exchange will lose market share as a result. Accordingly, the Exchange does not believe that the proposed changes will impair the ability of Participants or competing order execution venues to maintain their competitive standing in the financial markets.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were either solicited or received.

³ The term "Customer" or ("C") applies to any transaction that is identified by a Participant for clearing in the Customer range at The Options Clearing Corporation ("OCC") which is not for the account of broker or dealer or for the account of a "Professional" (as that term is defined in Options 1, Section 1(a)(48)).

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(ii) of the Act.⁸

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is: (i) necessary or appropriate in the public interest; (ii) for the protection of investors; or (iii) otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.
