

the proposed supplementary material to clarify what sort of materials are prohibited or provide an alternative example of prohibited pitch materials. SIFMA also asked that FINRA confirm that members may disclose in pitch materials the fact that research coverage will be provided for a particular issuer.

FINRA believes the principle is clear and has included examples to illustrate FINRA's view of its application. Whether other information included in pitch materials violate the principle will depend on the facts and circumstances.

Effective Date

SIFMA requested that FINRA provide a 120-day grace period between the adoption of the proposal and the implementation of the proposed rules because some of the proposals will require major systems changes to firms' information technology systems, research report templates, and policies and procedures. FINRA is sensitive to the time firms will require to update their policies and procedures and systems to comply with the proposed rule change and will take those factors into consideration when establishing an implementation date.

Other Comments

Kolber supported the proposed change to exempt from FINRA's research analyst registration and qualification requirements those individuals who produce "research reports" but whose primary job function is something other than to provide investment research. The remainder of Kolber's comments with respect to the research registration and qualification requirements addressed more generally the scope and difficulty of the Series 86 examination, which is not the subject of the proposal. Kolber also stated that the definition of "research report" can be difficult to apply because it sets forth a standard and then lists several exceptions from the definition. FINRA notes that the structure is very similar to the definition of research report in Regulation AC and is not an uncommon drafting method. Kolber's other comments are directed to the difficulty of distinguishing between the definitions of "sales literature" and "advertisement" in former NASD Rule 2210. That rule has since been replaced by consolidated FINRA Rule 2210, where those definitions no longer exist.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 45 days of the date of publication of this notice in the **Federal Register** or within such longer period (i)

- (A) By order approve or disapprove such proposed rule change, or
- (B) institute proceedings to determine whether the proposed rule change should be disapproved.

[Release No. 34-73621; File No. SR-NASDAQ-2014-095]

Self-Regulatory Organizations; The NASDAQ Stock Market LLC; Notice of Designation of Longer Period for Commission Action on Proposed Rule Change To Provide a New Optional Functionality to Minimum Quantity Orders

November 18, 2014.

On September 18, 2014, The NASDAQ Stock Market LLC ("NASDAQ" or "Exchange") filed with the Securities and Exchange Commission ("Commission"), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")¹ and Rule 19b-4 thereunder,² a proposed rule change to amend NASDAQ Rule 4751(f)(5) to provide a new optional functionality for Minimum Quantity Orders. The proposed rule change was published for comment in the **Federal Register** on October 6, 2014.³ The Commission received no comment letters regarding the proposed rule change.

Section 19(b)(2) of the Act⁴ provides that within 45 days of the publication of notice of the filing of a proposed rule change, or within such longer period up to 90 days as the Commission may designate if it finds such longer period to be appropriate and publishes its reasons for so finding or as to which the self-regulatory organization consents, the Commission shall either approve the proposed rule change, disapprove the proposed rule change, or institute proceedings to determine whether these proposed rule changes should be disapproved. The 45th day for this filing is November 20, 2014.

³ See Securities Exchange Act Release No. 73266 (September 30, 2014), 79 FR 60207 ("Notice").

⁴ 15 U.S.C. 78s(b)(2).

The Commission is extending the 45-day time period for Commission action on the proposed rule change. The Commission finds that it is appropriate to designate a longer period within which to take action on the proposed rule change so that it has sufficient time to consider the proposed rule change. The proposed rule change would, among other things, provide new optional functionality for minimum quantity orders.

Accordingly, pursuant to Section 19(b)(2) of the Act⁵ and for the reasons stated above, the Commission designates January 4, 2015, as the date by which the Commission should either approve or disapprove, or institute proceedings to determine whether to disapprove, the proposed rule change.
