AGENCY: Office of Government-wide Policy (OGP), General Services Administration (GSA).

ACTION: Notice of GSA Per Diem Bulletin FTR 26–01, Fiscal Year (FY) 2026 CONUS per diem reimbursement rates.

SUMMARY: For FY 2026, GSA is maintaining the FY 2025 per diem rates to provide for reimbursement of Federal employees' subsistence expenses while on official travel.

DATES:

Applicability Date: This notice applies to travel performed on or after October 1, 2025, through September 30, 2026.

FOR FURTHER INFORMATION CONTACT: For clarification of content, contact Mr. Alexander Kurien, Deputy Associate Administrator, Office of Government-wide Policy, at 202–495–9628 or by email at travelpolicy@gsa.gov. Please cite Notice of GSA Per Diem Bulletin FTR 26–01.

SUPPLEMENTARY INFORMATION: The CONUS per diem reimbursement rates prescribed in Federal Travel Regulation (FTR) Bulletin 26–01 may be found at <https://www.gsa.gov/perdiem>. If a maximum lodging allowance rate and/or a meals and incidental expenses (M&IE) per diem reimbursement rate is insufficient to meet necessary expenses in any given CONUS location, agencies can request that GSA review that location per 41 CFR 301–11.26. Additional information on the special review process is available at <https://www.gsa.gov/perdiem> under the “FAQs” tab. Further, the FTR allows for actual expense reimbursement as provided in §§ 301–11.300 through 301–11.306.

For FY 2026, no new non-standard area (NSA) locations are added. The maximum lodging allowance rates in existing per diem localities remain at FY 2025 levels, and the standard lodging rate also remains unchanged at \$110.

The M&IE reimbursement rate tiers for FY 2026 are unchanged at \$68–\$92, and the standard M&IE rate is unchanged at \$68.

Other than the changes posted on the GSA website, notices published periodically in the **Federal Register** now constitute the only notification of revisions in CONUS per diem reimbursement rates to agencies.

Associate Administrator, Office of Government-wide Policy.

In accordance with the Paperwork Reduction Act of 1995, the Centers for Disease Control and Prevention (CDC) has submitted the information collection request titled “National Outbreak Reporting System (NORS)” to the Office of Management and Budget (OMB) for review and approval. CDC previously published a “Proposed Data Collection Submitted for Public Comment and Recommendations” notice on June 16, 2025 to obtain comments from the public and affected agencies. CDC received one comment related to the previous notice. This notice serves to allow an additional 30 days for public and affected agency comments.

CDC will accept all comments for this proposed information collection project. The Office of Management and Budget is particularly interested in comments that:

- (a) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- (b) Evaluate the accuracy of the agencies estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- (c) Enhance the quality, utility, and clarity of the information to be collected;
- (d) Minimize the burden of the collection of information on those who are to respond, including, through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses; and

Proposed Project

National Outbreak Reporting System (OMB Control No. 0920–1304, Exp. 8/

31/2025)—Revision—National Center for Emerging and Zoonotic Infectious Diseases (NCEZID), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

The National Outbreak Reporting System (NORS) is a web-based platform that is used by local, state, and territorial health departments in the United States to report all waterborne and foodborne disease outbreaks, certain fungal disease outbreaks, and enteric disease outbreaks transmitted by contact with environmental sources, infected persons or animals, or unknown modes of transmission to the Centers for Disease Control and Prevention. CDC analyzes outbreak data to determine trends and develop and refine recommendations for prevention and control of foodborne, waterborne, and enteric disease outbreaks, as well as certain fungal disease outbreaks.

NORS data are currently transmitted to CDC through a secure, web-based reporting system hosted by CDC (ITSO/AHB). Starting approximately October 2025, NORS will become a module housed in the One CDC Data Platform (1CDP), which is a secure, cloud-based platform. Though a paper form for NORS (attached) is available as a reference tool, no paper forms are collected by CDC; all data must be submitted electronically to CDC via the cloud-based platform. No changes have been made to the data elements collected. Minor clarifications have been made to the description of select fields to ensure compliance with Executive Order 14168: Defending Women From Gender Ideology Extremism And Restoring Biological Truth To The Federal Government.

CDC requests OMB approval for an estimated 1,160 annual burden hours. There is no cost to respondents other than their time to participate.
