Animal and Plant Health Inspection Service

Title: National Animal Health Monitoring System; Goat 2019 Study.

OMB Control Number: 0579–0354.

Summary of Collection: Under the Animal Health Protection Act (7 U.S.C. 8301 *et seq.*), the Animal and Plant Health Inspection Service (APHIS) is authorized to protect the health of the livestock, poultry, and aquaculture populations in the United States by preventing the introduction and interstate spread of serious diseases and pests of livestock and for eradicating such diseases from the United States when feasible. In connection with this mission, APHIS operates the National Animal Health Monitoring System (NAHMS), which collects, on a national basis, statistically valid and scientifically sound data on the prevalence and economic importance of livestock, poultry, and aquaculture disease risk factors. APHIS plans to conduct the Goat 2019 Study as part of an ongoing series of NAHMS studies on the U.S. livestock population.

Need and Use of the Information: The purpose of the study is to collect information through questionnaires and biologic sampling which will be analyzed and organized into descriptive reports. Several information sheets will be derived from these reports and disseminated by APHIS to producers, stakeholders, academia, veterinarians, and other interested parties. The collected data will be used to: (1) Establish national and regional production measures for producer, veterinary, and industry references; (2) predict or detect national and regional trends in disease emergence and movement; (3) address emerging issues; (4) examine the economic impact of health management practices; (5) provide estimates of both outcome (disease or other parameters) and exposure (risks and components) variables that can be used in analytic studies in the future by APHIS; (6) provide input into the design of surveillance system for specific diseases; and (7) provide parameters for animal disease spread models.

Description of Respondents: Businesses or Other For-Profit Entities.
Number of Respondents: 4,770.
Frequency of Responses: Reporting; On occasion.
