The Working Group will begin with review of agenda for Day 2, and a recap key element of Working Groups 1, 2 & 3 for consensus recommendations questions and discussion, followed by a report-out of each breakout. The Group is tasked with identifying commonalities identified by Working Group members on developing trusted data; establishing trust with the recreational community; developing predictable and reliable recreational access; allowing for regional flexibility in management; increasing recreational community engagement in the management process; maximizing angler satisfaction and accommodating growth.

Following the lunch, consultants will guide the Working Group by pulling it all together: consensus recommendations on goals and objectives for recreational fisheries management in the Gulf of Mexico *Reef Fish* Fisheries for future management approaches that: prevent overfishing; address discards and/or discard mortality; address uncertainty in recreational data; and provide innovative new management approaches. The meeting will end with a wrapping up and Finalize Consensus Recommendations. Lastly, Council staff will offer closing remarks and logistics.
