DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[LLCON04000 L16100000.DP0000]

Notice of Availability of the Draft Resource Management Plan Amendment and Supplemental Environmental Impact Statement for the Roan Plateau Planning Area, Colorado

AGENCY: Bureau of Land Management,
 Interior.

ACTION: Notice.

SUMMARY: In accordance with the
 National Environmental Policy Act of
 1969, as amended (NEPA), and the

Federal Land Policy and Management
 Act of 1976, as amended, the Bureau of
 Land Management (BLM) has prepared
 a Draft Resource Management Plan
 (RMP) Amendment and Draft
 Supplemental Environmental Impact
 Statement (EIS) for the Roan Plateau
 planning area and by this notice is
 announcing the opening of a 90-day
 comment period.

DATES: To ensure that comments will be
 considered, the BLM must receive
 written comments on the Draft RMP
 Amendment/Draft Supplemental EIS
 within 90 days following the date the
 U.S. Environmental Protection Agency
 (EPA) publishes its notice of the Draft
 RMP Amendment/Draft Supplemental
 EIS in the **Federal Register**. The BLM
 will announce future meetings or
 hearings and any other public
 participation activities at least 15 days
 in advance through public notices,
 media releases, and/or mailings.

ADDRESSES: You may submit comments
 related to the Roan Plateau Draft RMP
 Amendment/Draft Supplemental EIS by
 any of the following methods:

 individual during normal business
 hours. The FIRS is available 24 hours a
 day, seven days a week, to leave a
 message or question with the above
 individual. You will receive a reply
 during normal business hours.

SUPPLEMENTARY INFORMATION: The BLM
 prepared the Roan Plateau Draft RMP
 Amendment/Supplemental EIS to
 evaluate a range of management
 decisions for resources, resource uses
 and special designations and to respond
 to a June 22, 2012, ruling by the United
 States District Court for the District of
 Colorado remanding the 2007 and 2008
 Roan Plateau Records of Decision. The
 Court set aside the 2007 Roan Plateau
 Plan amendment and remanded the
 matter to the BLM for further action in

accordance with the Court's decision. In
 particular, the Court found that the
 Final EIS was deficient insofar as it
 failed to sufficiently address: (i) The
 "Community Alternative" that various
 local governments, environmental
 organizations, and individual members
 of the public recommended; (ii) The
 cumulative air quality impacts of the
 Plan amendment decision in
 conjunction with anticipated oil and gas
 development on private lands outside
 the Roan Plateau Planning Area; and
 (iii) The issue of potential ozone
 impacts from proposed oil and gas
 development. In view of the Court's
 ruling and new information available
 since the BLM developed the Final EIS,
 the BLM determined that a new
 proposed Plan Amendment and a
 supplemental analysis under NEPA
 were warranted. Additionally, a
 settlement agreement was reached
 among the parties involved in the
 litigation in November 2014. The
 Supplemental EIS includes an
 alternative that was part of the
 November 2014 settlement.

The Planning Area, which is in west-
 central Colorado, includes
 approximately 73,602 acres of Federal
 land (Federal surface, Federal mineral
 estate, or both), and is located primarily
 in Garfield County with a small portion
 in southern Rio Blanco County. The
 Roan Plateau RMP Amendment
 proposes to amend the Glenwood
 Springs and White River RMPs for the
 resource management decisions within
 the Planning Area. The BLM began
 developing the Roan Plateau RMP
 Amendment with scoping in 2000. The
 Draft EIS was published in November
 2004. The Final EIS was published in
 August 2006. The BLM then issued two
 Records of Decision, one in June 2007
 and a second, pertaining to Areas of
 Critical Environmental Concern, in
 March 2008. Following the District
 Court ruling in 2012, the Notice of
 Intent to develop the Draft RMP
 Amendment/Supplemental EIS was
 published in January 2013, initiating a
 second scoping period. The BLM held
 two public scoping meetings in
 February 2013 and received
 approximately 25,000 comment
 submissions during the scoping period.
 The Colorado River Valley Field Office
 held eight Cooperating Agency meetings
 for the Supplemental EIS. Cooperating
 agencies included the EPA, the U.S.
 Fish and Wildlife Service, the Colorado
 Department of Natural Resources and
 Colorado Parks and Wildlife, the City of
 Rifle, the towns of Silt and Parachute,
 and Rio Blanco, Garfield, and Mesa
 Counties. No other Federal agencies

manage surface within the planning area. The closest non-BLM surface management unit to the Roan Plateau planning area is the White River National Forest to the northwest.

Major issues considered in the Draft RMP Amendment/Supplemental EIS include fluid minerals management, social and economic impacts, riparian habitat management; and air, water, and ecological resources. Due to the limited size of the Planning Area and the supplemental nature of this analysis, regional mitigation and landscape level analysis are not specifically considered in this document; however, the BLM Colorado River Valley and White River field offices have considered them in their broader planning areas. The RMP also addresses decisions regarding Wild and Scenic Rivers, Areas of Critical Environmental Concern (ACECs), and lands with wilderness characteristics. Greater Sage-Grouse decisions proposed in the Amendment are consistent with the Northwest Colorado Greater Sage-Grouse Amendment Record of Decision.

The Draft RMP Amendment/Supplemental EIS focuses on evaluating new information and new issues raised since the BLM developed the 2006 Roan Plateau Final EIS. This includes an evaluation of four alternatives including the No Action Alternative (Alternative I). Alternative II is based on the Proposed Plan from the 2006 Roan RMP Amendment/Final EIS and includes updated decisions and analysis based on new information, including refined mapping, and issues raised during scoping. Alternative III is based on the "Community Alternative" raised during the original EIS process by Rock the Earth, and augmented with input from Supplemental EIS scoping comments. This alternative allows oil and gas leasing throughout the planning area, but limits surface disturbance on BLM lands above the rim (i.e., on top of the plateau). Wilderness characteristics would be managed for protection in this alternative, and all eligible rivers in the planning area would be determined to be suitable for designation as Wild and Scenic Rivers. Target shooting would be prohibited within ¼ mile (610 acres) of a popular road that runs through an area designated as open to cross country off-highway vehicle travel in Alternative III. Alternative IV is the BLM's Preferred Alternative and is based on the terms of the Settlement Agreement. This alternative would allow for leasing at the base of the plateau (11,170 acres) and within several retained lease areas on the top of the plateau (1,830 acres), subject to development restrictions described in the Settlement Agreement. Specific management prescriptions

intended to protect lands with wilderness characteristics and Wild and Scenic Rivers are not proposed in this alternative as they were not addressed as part of the Settlement Agreement; however, they are analyzed within the range of alternatives for consideration. Other resource management decisions in this alternative would be similar to Alternative II.

Pursuant to 43 CFR 1610.7–2(b), this notice announces a concurrent public comment period on the proposed ACECs, as the previous ACEC decisions are also being revisited consistent with the Court's remand. The BLM analyzed potential ACECs meeting the relevance and importance criteria within the range of alternatives. All three action alternatives analyze the designation of four ACECs to protect key fisheries, botanical/ecological resources, and visual resources. The ACECs overlay areas with management prescriptions that include No Surface Occupancy stipulations and other restrictions specific to these resources. The proposed ACECs include:

- East Fork Parachute Creek: 6,990 acres (Alternatives II, III), 7,110 acres (Alternative IV)
- Trapper/Northwater Creek: 6,290 acres (Alternatives II, III, and IV)
- Magpie Gulch: 4,710 acres (Alternatives II, III, and IV); and
- Anvil Points: 6,900 acres (Alternatives II, III, and IV).

Please note that public comments and all information submitted with such comments will be available for public review and disclosure at the above address during regular business hours (8 a.m. to 4 p.m.), Monday through Friday, except holidays.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.
