

that the draw need not open for vessels, to accommodate annual races. Most waterway traffic for both bridges consists of recreational boats with a few barges and tugs in the daytime.

Vessels able to pass under these bridges in the closed position may do so at any time and are advised to proceed with caution. The bridges will be able to open for emergencies as soon as safely possible. There are no alternate routes available to vessels transiting these waterways. These races have been an annual event; therefore, local waterway users should be familiar with these closures. The Coast Guard will also inform additional waterway users through our Local and Broadcast Notices to Mariners of the closure periods for the bridge so that vessels can arrange their transits to minimize any impacts caused by the temporary deviation.

In accordance with 33 CFR 117.35(e), the drawbridges must return to their regular operating schedules immediately at the end of the effective period of this temporary deviation. This deviation from the operating regulations is authorized under 33 CFR 117.35.
