Administration for Children and Families

Administration on Children, Youth and Families, Head Start; Funding Opportunity Title: Head Start Historically Black Colleges and Universities

Announcement Type: Competitive
Grant—Initial.

Funding Opportunity Number: HHS–
2004–ACF–HS–YH–0002.

CFDA Number: 93.600.

DATES: Applications are due May 13,
2004. Letters of intent are due April 15,
2004.

I. Funding Opportunity Description

The Head Start Bureau is announcing the availability of funds and request for applications for professional development and training grants for Historically Black Colleges and Universities (HBCUs) in partnership with Head Start and Early Head Start programs to improve staff training and to thereby enhance services to Head Start and Early Head Start children and families.

Purpose: Through this announcement, the Administration on Children, Youth and Families (ACYF) is making available up to \$1,500,000 annually for each of five years to support Head Start Historically Black Colleges and Universities (HBCUs) Partnerships. These partnerships are designed to improve the quality and long-term effectiveness of Head Start and Early Head Start grantees by developing academic and other training models to increase the number of Head Start teachers with degrees in early childhood education.

A. Background

The overall goal of Head Start is to ensure that children of low-income families acquire the skills and knowledge necessary to allow them to enter school ready for success. In order to accomplish this goal, Head Start provides comprehensive services to these children and their families. Head Start enhances children's physical, cognitive, social, and emotional development. It supports parents in

their efforts to fulfill their parental roles as their child's primary educator, helps support them while they work towards employment and self-sufficiency, and provides for their involvement in administering the Head Start program.

In an attempt to ensure that highly qualified and well trained staff provides high quality services to enrolled children and their families, Head Start has supported many demonstration projects. For example, Head Start supported the creation of the Child Development Associate (CDA) credential designed for early childhood development teaching staff, implemented the Head Start Teaching Centers, and developed other related innovative projects. The Head Start Bureau also implemented partnerships with Tribally Controlled Land Grant Colleges and Universities (TCUs) and Higher Education Hispanic/Latino Service Partnerships (HS–HEHLSs) in addition to key innovative training and staff development projects.

The 1998 reauthorization of the Head Start Act contains provisions to improve Head Start program quality and accountability. These include new education performance standards and measures, the expansion of program monitoring to incorporate evidence of progress on outcomes-based measures, funding to upgrade program quality and staff compensation, and higher education standards for Head Start teachers. In January 2001, the President signed into law the "No Child Left Behind Act" to make the education of every child in America one of the country's top priorities. The Act seeks to ensure that public schools teach children what they need to know to be successful in life and that they also set high education standards in the classroom. In his 2002 State of the Union address, the President indicated the need to prepare our children to read and succeed in school, including the improvement of Head Start and early childhood development programs. In response to these goals, the White House has developed an early childhood initiative, which is built on raising the bar for Head Start education methods to create a better learning environment and improved outcomes for children. In his announcement of the Good Start, Grow Smart Early Childhood Initiative in April 2002, the President identified children's early literacy as a key focus for Head Start program improvement. In this initiative, the President presented three areas of focus for Head Start: (1) Strengthening Head Start programs; (2) partnering with states to improve early childhood education, and (3) providing

information to teachers, caregivers, and parents.

The Head Start Act, as amended 42 U.S.C. 9801 *et seq.* is the authorizing legislation for the Head Start HBCU program. The key purpose in funding the HBCU program is to increase the number of Head Start staff with college degrees in early childhood education. To assure that selected colleges and universities will be able to fulfill this task it is important that HBCUs applying for funds under this announcement clearly demonstrate that they have established relationships with the Head Start programs in their community and that these Head Start programs have indicated that they are willing to work collaboratively with the institution.
