

groundfish trips taken under the EFP. Allowable discards will be discarded at-sea, while all other species will be retained, landed, and processed per normal commercial fishing procedures. Monitors will document all discards of

allocated sub-legal catch. NESSN and the participating vessel are responsible paying for the additional monitoring for the EFP trips.

All catch, including landings and discards, will be deducted from Sector

ACE as normal. Catch estimates for the project provided by NESSN are shown in Table 1, and based on previous catch by the participating vessel under normal fishing conditions.

If approved, the applicant may request minor modifications and extensions to the EFP throughout the year. EFP modifications and extensions may be granted without further notice if they are deemed essential to facilitate completion of the proposed research and have minimal impacts that do not change the scope or impact of the initially approved EFP request.
