DEPARTMENT OF HEALTH AND HUMAN SERVICES

Administration for Community Living

Availability of Program Application Instructions for the University Centers for Excellence in Developmental Disabilities Network To Expand COVID-19 Vaccine Access for People With Disabilities

Title: Expanding Disabilities Network's (UCEDDs) Access to COVID 19 Vaccines.

Announcement Type: Initial.

Statutory Authority: Subtitle D of the Developmental Disabilities Assistance and Bill of Rights Act of 2000 (DD Act).

Catalog of Federal Domestic Assistance (CFDA) Number: 93.632.

DATES: The deadline date for the submission of the Expanding Disabilities Network's (UCEDDs) Access to COVID 19 Vaccines is 11:59PM April 21, 2021.

SUPPLEMENTARY INFORMATION:

I. Funding Opportunity Description

The Administration for Community Living (ACL) announced a new funding opportunity to increase vaccine access for people with disabilities. With funding and partnership support from the Centers for Disease Control and Prevention (CDC), ACL is providing grants to disability networks to provide critical services to help communities combat COVID-19. A leading priority of this joint effort is to ensure vaccines are equally accessible to the disability population.

Approximately 61 million adults living with in the US have a disability, representing approximately 26 percent of the adult population. People with disabilities may have an increased risk for contracting COVID-19 based on where they live or the services they receive. Some people with disabilities live in group settings which places them at higher risk for acquiring COVID-19 in comparison to people without disabilities. People with disabilities may also require close contact with direct service providers, including personal care attendants or other care providers, who help with activities of daily living. Moreover, many people with disabilities have underlying health conditions (e.g. diabetes, heart disease, and obesity) that increases the risk of severe illness due to COVID-19. In addition, research also found that people with Down Syndrome are significantly more likely to be hospitalized from COVID-19 than the general population.

There are increasing reports of barriers of unequal access in
