

Archivist of the United States. The Archivist grants this approval only after thoroughly considering the administrative use needs of the agency that originated the records, the rights of the Government and of private people directly affected by the Government's activities, and whether or not the records have historical or other value. Public notice, review, and comment on proposed records schedules is part of the Archivist's consideration process.

Currently, we publish notice in the **Federal Register** of records schedules open for comment, but people who wish to review and comment on the schedules must request copies of the actual documents, submit comments, and receive responses via mail or email. The new process will allow people to review and comment on open records schedules and accompanying appraisal memoranda at the Federal eRulemaking Portal, <https://www.regulations.gov>. We will also post consolidated responses to comments at the same location.

Under the new process, we will post batches of records schedules to [regulations.gov](https://www.regulations.gov) as "other" documents in the same docket as the notice. The schedules and related memoranda will remain open for comment for a period of 45 days. You will be able to comment on individual schedules at [regulations.gov](https://www.regulations.gov) on or before the deadline stated in the notice. We will not accept late comments.

Comments you submit on [regulations.gov](https://www.regulations.gov), including any personal information and attachments, will be posted to the public docket unchanged. Because comments are public, commenters are responsible for ensuring that you do not include any confidential or other information that you or a third party may not wish to be publicly posted. If you want to submit a comment with confidential information or cannot otherwise use the [regulations.gov](https://www.regulations.gov) portal, you should contact [request.schedule@nara.gov](mailto:request.schedule@nara.gov) for instructions on submitting your comment.

We will consider all comments received by the posted deadline and consult as needed with the Federal agency seeking the disposition authority. After considering comments, we will post on [regulations.gov](https://www.regulations.gov) a "Consolidated Response" summarizing the comments, responding to them, and noting any changes we have made to the proposed records schedule. We will then send the schedule for final approval by the Archivist of the United States. You may elect at [regulations.gov](https://www.regulations.gov) to receive updates on the docket, including an alert when we post the

Consolidated Response, whether or not you submit a comment.

Copies of schedules and consolidated responses will remain on the [regulations.gov](https://www.regulations.gov) website after the comment period has passed, although all commenting features will be disabled when the comment period ends.

We will post schedules on our website in the Records Control Schedule (RCS) Repository, at <https://www.archives.gov/records-mgmt/rcs>, within two or three weeks after the Archivist approves them. The RCS contains all schedules approved since 1973.

This new process eliminates the need to request copies of the schedules and appraisal memoranda, as has been the process since 1985. You will also no longer need to email or send comments on proposed records schedules, but will instead be able to provide comments directly on [regulations.gov](https://www.regulations.gov). The comment period is also being extended from 30 days to 45 days.

We are making this change as a result of clear, widespread interest from the public in a web-based platform for a more modern, transparent, and efficient review and comment process. We are interested in receiving feedback on this new process and will continuously strive to improve the experience for public review of proposed records schedules. You may send feedback to us any time at [request.schedule@nara.gov](mailto:request.schedule@nara.gov).

**Laurence Brewer,**

*Chief Records Officer for the U.S. Government.*

## NATIONAL SCIENCE FOUNDATION

### Astronomy and Astrophysics Advisory Committee; Notice of Meeting

In accordance with the Federal Advisory Committee Act (Pub. L. 92-463, as amended), the National Science Foundation (NSF) announces the following meeting:

**Name and Committee Code:** Astronomy and Astrophysics Advisory Committee (#13883) (Teleconference).

**Date and Time:** March 28, 2019; 12:00 p.m.–3:00 p.m. EDT.

**Place:** National Science Foundation, 2415 Eisenhower Avenue, Alexandria, VA 22314 (Teleconference).

**Type of Meeting:** Open.

Attendance information for the meeting will be forthcoming on the website: <https://www.nsf.gov/mps/ast/aac.jsp>.

**Contact Person:** Dr. Christopher Davis, Program Director, Division of

Astronomical Sciences, Suite W 9136, National Science Foundation, 2415 Eisenhower Avenue, Alexandria, VA 22314; Telephone: 703-292-4910.

**Purpose of Meeting:** To provide advice and recommendations to the National Science Foundation (NSF), the National Aeronautics and Space Administration (NASA) and the U.S. Department of Energy (DOE) on issues within the field of astronomy and astrophysics that are of mutual interest and concern to the agencies.

**Agenda:** To provide updates on Agency activities and to discuss the Committee's draft annual report.

Dated: February 26, 2019.

**Crystal Robinson,**

*Committee Management Officer.*

## NATIONAL SCIENCE FOUNDATION

### Agency Information Collection

#### Activities: Comment Request; Presidential Awards for Excellence in Mathematics and Science Teaching (PAEMST), State Coordinator (SC) Survey

**AGENCY:** National Science Foundation.

**ACTION:** Notice.

**SUMMARY:** The National Science Foundation (NSF) is announcing plans to renew this collection. In accordance with the requirements of the Paperwork Reduction Act of 1995, we are providing opportunity for public comment on this action. After obtaining and considering public comment, NSF will prepare the submission requesting Office of Management and Budget (OMB) clearance of this collection for no longer than 3 years.

**DATES:** Written comments on this notice must be received by May 3, 2019 to be assured consideration. Comments received after that date will be considered to the extent practicable. Send comments to address below.

**FOR FURTHER INFORMATION CONTACT:** Suzanne H. Plimpton, Reports Clearance Officer, National Science Foundation, 2415 Eisenhower Avenue, Suite W18200, Alexandria, Virginia 22314; telephone (703) 292-7556; or send email to [splimpto@nsf.gov](mailto:splimpto@nsf.gov). Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339, which is accessible 24 hours a day, 7 days a week, 365 days a year (including Federal holidays).

#### SUPPLEMENTARY INFORMATION:

**Title of Collection:** Presidential Awards for Excellence in Mathematics

and Science Teaching (PAEMST), State Coordinator (SC) Survey.

OMB Number: 3145–0241.

Expiration Date of Approval: September 30, 2019.

Type of Request: Renewal.

**Abstract:** The PAEMST is a White House program established by Congress in 1983 authorizing the President to bestow up to 108 awards each year to teachers of mathematics and science at the elementary and secondary levels. The NSF is the designated federal agency for administration of this Presidential program. Awards are given to mathematics and science (including computer science) teachers from each of the 50 states and four U.S. jurisdictions. The jurisdictions are Washington DC; Puerto Rico; Department of Defense Education Activity schools; and the U.S. territories as a group (American Samoa, Guam, the Commonwealth of the Northern Mariana Islands, and the U.S. Virgin Islands). The award recognizes those teachers who develop and implement a high-quality instructional program that is informed by content knowledge and enhances student learning. Since the program's inception, more than 4,300 teachers have been recognized for their contributions in the classroom and to their profession. Awardees serve as models for their colleagues, inspiration to their communities, and leaders in the improvement of mathematics and science (including computer science) education.

The State Coordinator (SC) manages the PAEMST program within his or her state or jurisdiction. SCs recruit eligible nominees, select and assign mentors to nominees, coordinate the selection committee, and plan local recognition events within their State. They also carry out the responsibilities as noted in the "Operational Handbook for State-Level Science and Mathematics Coordinators."

The purpose of this survey is to seek feedback from the 120 SCs regarding PAEMST management within their state or jurisdiction. The NSF, PAEMST support team will ask directed questions using the survey to gather information that may specifically address the methods and recruitment efforts that SCs use to support the attracting of prospective award nominees. Additional survey areas may also include:

- Applicant Mentoring
- Mentor Training
- State selection Committee
- State selection Process
- Applicant and State Finalist Notification and Recognition

#### • In-kind contributions

The survey will evaluate the impact SCs have on attracting prospective award nominees to PAEMST. This will be conducted as a web-based survey.

**Estimate of Burden:** Public reporting burden for this collection of information is estimated to average 30–40 minutes for State Coordinators.

**Respondents:** Individuals.

**Estimated Number of Responses per Form:** 120 Coordinators.

**Estimated Total Annual Burden on Respondents:** 80 hours. (120 Coordinators at 40 minutes per survey = 80 hours).

**Frequency of Response:** One per application cycle.

**Comments:** Comments are invited on (a) whether the proposed collection of information is necessary for the proper performance of the PAEMST functions, including whether the information shall have practical utility; (b) the accuracy of the NSF's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information on respondents, including through the use of automated collection techniques or other forms of information technology; (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical or other technological collection techniques or other forms of information technology.

Dated: February 26, 2019.

#### SUPPLEMENTARY INFORMATION:

**Title of Collection:** Grantee Reporting Requirements for Materials Research Science and Engineering Centers (MRSECs).

OMB Number: 3145–0230.

Expiration Date of Approval: September 30, 2019.

Type of Request: Intent to seek approval to renew an information collection.

### Overview of This Information Collection

The Materials Research Science and Engineering Centers (MRSECs) Program supports innovation in interdisciplinary research, education, and knowledge transfer. MRSECs build intellectual and physical infrastructure within and between disciplines, weaving together knowledge creation, knowledge integration, and knowledge transfer. MRSECs conduct world-class research through partnerships of academic institutions, national laboratories, industrial organizations, and/or other public/private entities. New knowledge thus created is meaningfully linked to society.

MRSECs enable and foster excellent education, integrate research and education, and create bonds between learning and inquiry so that discovery and creativity more fully support the learning process. MRSECs capitalize on diversity through participation in center activities and demonstrate leadership in the involvement of groups underrepresented in science and engineering.

MRSECs are required to submit annual reports on progress and plans, which are used as a basis for performance review and determining the level of continued funding. To support this review and the management of a Center, MRSECs will be required to develop a set of
