

between Buffalo and East Texas, PA as currently published.

V-252 The segment between Toronto, ON, Canada and the intersection of the Toronto 116° and the Geneseo, NY 305° radials is removed. A new start point formed by the intersection of the Buffalo, NY 023°(T)/031°(M) and the Geneseo 305° radials is inserted. The remainder of the route to Dupont, DE, is unchanged,

In the regulatory text, below, only True degrees are listed when defining radials.

Since this action involves removing from the descriptions of VOR Federal airways V-31, V-36, V-98, V-164 and V-252, those route segments in Canada that have previously been cancelled, I find that notice and public procedures under 5 U.S.C. 553(b) are unnecessary.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that only affects air traffic procedures and air navigation, it is certified that this rule, when promulgated, does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Domestic VOR Federal Airways are published in paragraph 6010(a) of FAA Order 7400.9Y, dated August 6, 2014, and effective September 15, 2014, which is incorporated by reference in 14 CFR 71.1. The VOR Federal Airways listed in this document will be published subsequently in the Order.

Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1E, Environmental Impacts: Policies and Procedures, paragraph 311k. This airspace action consists of editorial changes only and is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment.

RIN 0648–BE25

Fisheries off West Coast States; Highly Migratory Fisheries; California Swordfish Drift Gillnet Fishery; Vessel Monitoring System Requirements

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Final rule; effectiveness of collection-of-information requirements.

SUMMARY: NMFS announces approval by the Office of Management and Budget (OMB) of collection-of-information requirements contained in regulations pertaining to the U.S. West Coast drift gillnet (DGN) fishery in a final rule that published on February 26, 2015, pursuant to the Paperwork Reduction Act of 1995 under OMB control number 0648–0498. The intent of this final rule is to publish the OMB control number for the collection-of-information requirements associated with the vessel monitoring system (VMS) regulations and to inform the public of their effectiveness.

DATES: This final rule is effective July 9, 2015. Amendments to paragraphs (l), (o), and (p) of § 660.705 and paragraphs (f)(2) through (g)(5) of § 660.713 published at 80 FR 10392 (February 26, 2015) are effective on July 9, 2015.

ADDRESSES: Written comments regarding burden-hour estimates or other aspects of the collection-of-information requirements contained in this final rule may be submitted to the Regional Administrator, NMFS, West Coast Regional Office, 7600 Sand Point Way, NE., Bldg. 1, Seattle, WA. 98115–0070, or RegionalAdministrator.WCRHMS@noaa.gov, and by email to OIRA_Submission@omb.eop.gov, or fax to (202) 395–7285.

FOR FURTHER INFORMATION CONTACT: Amber Rhodes, NMFS, (562) 980–3231, or Amber.Rhodes@noaa.gov.

SUPPLEMENTARY INFORMATION: The DGN fishery is managed under the Fishery Management Plan for U.S. West Coast Fisheries for Highly Migratory Species, which was prepared by the Pacific Fishery Management Council and is

implemented under the authority of the Magnuson-Stevens Fishery Conservation and Management Act (MSA), 16 U.S.C. 1801, *et seq.*, by regulations at 50 CFR part 660.

Background

A final rule to add regulations at 50 CFR part 660, subpart K, to require use of a NMFS-approved VMS and to institute a 48-hour pre-trip call-in notification requirement for DGN vessel owners and operators, was published in the **Federal Register** on February 26, 2015 (80 FR 10392). The requirements of that final rule, other than the collection-of-information requirements associated with VMS requirements, were effective on March 30, 2015. Because OMB approval of the collection-of-information requirements had not been received by the date that the final rule was published, the effective date of the VMS requirements was delayed.

OMB approved the collection-of-information requirements contained in the final rule on May 5, 2015. Accordingly, this final rule makes effective the collection-of-information requirements at § 660.705 and § 660.713, which were amended in the February 26, 2015, final rule.

Classification

This final rule has been determined to be not significant for purposes of Executive Order 12866.

This final rule contains a collection-of-information requirements subject to the Paperwork Reduction Act (PRA) under OMB Control Number 0648–0498. The public reporting burden for compliance with the these requirements is estimated to include a one-time, 4-hour response time for installing a VMS unit and a 1-hour response time annually to maintain and repair a unit. Activation and exemption reports are estimated to average 5 minutes per response, including time to review instructions for, and prepare and submit the reports.

Notwithstanding any other provision of the law, no person is required to respond to, and no person shall be subject to penalty for failure to comply with, a collection-of-information subject to the requirements of the PRA, unless that collection-of-information displays a currently valid OMB control number.

33 CFR Part 100

[Docket No. USCG–2015–0441]

Special Local Regulation; Annual Marine Events on the Colorado River, Between Davis Dam (Bullhead City, Arizona) and Headgate Dam (Parker, Arizona) Within the San Diego Captain of the Port Zone

AGENCY: Coast Guard, DHS.

ACTION: Notice of enforcement of regulation.

SUMMARY: The Coast Guard will enforce a marine event special local regulation on the navigable waters of the Colorado River between Davis Camp to Rotary Park in Bullhead City, AZ in support of the annual Bullhead City River Regatta on August 8, 2015, from 6 a.m. to 6 p.m. This action is necessary to provide for the safety of the participants, crew, spectators, safety vessels, and general users of the waterway. During the enforcement period, persons and vessels are prohibited from entering into, transiting through, or anchoring within this regulated area unless authorized by the Captain of the Port, or his designated representative.

DATES: The special local regulations listed in 33 CFR 100.1102, Table 1, Item 16, will be enforced from 6 a.m. to 6 p.m. on August 8, 2015.

FOR FURTHER INFORMATION CONTACT: If you have questions on this publication, call or email Petty Officer Nick Bateman, Waterways Management, U.S. Coast Guard Sector San Diego, CA; telephone (619) 278–7656, email D11-PF-MarineEventsSanDiego@uscg.mil.

SUPPLEMENTARY INFORMATION: The Coast Guard will enforce the marine event special local regulation for the annual Bullhead City River Regatta in 33 CFR 100.1102, Table 1, Item 16 on August 8, 2015, from 6 a.m. to 6 p.m.

Under the provisions of 33 CFR 100.1102, persons and vessels are prohibited from entering into, transiting through, or anchoring within this regulated area of the Colorado River unless authorized by the Captain of the Port, or his designated representative. The Coast Guard may be assisted by other Federal, State, or local law enforcement agencies in enforcing this regulation.

This document is issued under authority 33 CFR 100.1102 and 5 U.S.C. 552(a). In addition to this document in the **Federal Register**, the Coast Guard will provide the maritime community with advance notification of this enforcement period via the Local Notice to Mariners, Broadcast Notice to Mariners, and local advertising by the event sponsor.

If the Coast Guard determines that the regulated area need not be enforced for the full duration stated on this document, then a Broadcast Notice to Mariners or other communications coordinated with the event sponsor will grant general permission to enter the regulated area.
