GENERAL SERVICES ADMINISTRATION

[OMB Control No. 3090-0204]

Submission for OMB Review; Comment Request Entitled Commercial Delivery Schedule Clause and Notice of Shipment

AGENCY: Office of Acquisition Policy, GSA.

ACTION: Notice of a request for extension of the reinstated collection (3090-0204).

SUMMARY: Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the General Services Administration (GSA) has submitted to the Office of Management and Budget (OMB) a request to review and approve an information collection requirement concerning the Commercial Delivery Schedule (Multiple Award Schedule) clause and the Notice of Shipment clause. OMB reinstated the collection on July 20, 2001. Information collected under this authority is not otherwise required by regulation. A request for public comments was published at 66 FR 42864, August 15, 2001. No comments were received.

DATES: Comments may be submitted on or before December 10, 2001.

FOR FURTHER INFORMATION CONTACT: Beverly Cromer, Office of GSA Acquisition Policy (202) 501-1224.

ADDRESSES: Comments regarding this burden estimate or any other aspect of this collection of information, including

suggestions for reducing this burden, should be submitted to: Ed Springer, GSA Desk Officer, OMB, Room 10236, NEOB, Washington, DC 20503, and a copy to Stephanie Morris, General Services Administration, Acquisition Policy Division, 1800 F Street, NW, Room 4035, Washington, DC 20405.

SUPPLEMENTARY INFORMATION:**A. Purpose**

The GSA is requesting the Office of Management and Budget (OMB) to review and approve information collection, 3090-0204, concerning the Commercial Delivery Schedule (Multiple Award Schedule) clause. The Commercial Delivery Schedule (Multiple Award Schedule) clause required offerors to provide their commercial delivery terms and conditions. FSS awards contracts to commercial firms under terms and conditions that mirror commercial practices for the supplies and services. In order to ensure the Government obtains the supplies within the offeror's commercial delivery timeframe, the offeror must provide the information requested in the clause, Commercial Delivery Schedule (Multiple Award Schedule).

The GSA is requesting the Office of Management and Budget (OMB) to review and approve information collection, 3090-0204, concerning the Notice of Shipment clause. A Notice of Shipment clause is used when it is in the Government's interest to have a supply contractor furnish a notice of shipment. Such a notice is necessary when preparations need to be made for docking arrangements, storage, transshipment of materials handling equipment of supplies and equipment open delivery, labor and inside delivery at destination.

[Program Announcement 02006]

Epidemiologic Studies of Reproductive and Developmental Outcomes—Denmark; Notice of Availability of Funds**A. Purpose**

The Centers for Disease Control and Prevention (CDC) announces the availability of fiscal year (FY) 2002 funds for a cooperative agreement program for Epidemiologic Studies of Reproductive and Developmental Outcomes. This program addresses the "Healthy People 2010" focus area Maternal, Infant, and Child Health.

The purpose of the program is to investigate risk factors for poor reproductive and developmental outcomes including, but not limited to, autism, cerebral palsy, and fetal alcohol effects. Important risk factors include, but may not be limited to, adverse intrauterine exposures such as infection, alcohol and genetic conditions.

B. Eligible Applicants

Assistance will be provided only to the Danish Medical Research Council (DMRC), in the Danish Ministry of Information Technology and Research. No other applications are solicited.

Denmark has a singular combination of national public health data systems currently in place that are not found elsewhere in the U.S. or abroad. These data systems are developed and maintained by the Danish government/DMRC which is solely responsible for granting access to them. In the Danish government, the DMRC represents the most comprehensive scientific knowledge in Danish medical research and is responsible for providing financial and advisory support for medical research in Denmark. Among its supportive functions, the DMRC is responsible for promoting significant research tasks, especially in areas where the Danish research environment has special qualifications (such as the national data systems), and international research cooperation. This program falls within the jurisdiction of the DMRC.

The unique combination of Danish data systems includes nearly 200 long-established national disease and administrative registries and a long-established national biobank of archived newborn blood samples. Many of these data systems have been established for
