FOR FURTHER INFORMATION CONTACT:

Aleta Best, Office of the Assistant Secretary for Aviation and International Affairs, Office of the Secretary, U.S. Department of Transportation, 1200 New Jersey Avenue, SE., Washington, DC 20590, (202) 493-0797.

SUPPLEMENTARY INFORMATION:

Title: Passenger Manifest Information.
OMB Control Number: 2105-0534.

Expiration Date: March 31, 2009.

Type of Request: Extension of a previously approved collection.

Abstract: Public Law 101-604 (entitled the Aviation Security Improvement Act of 1990, or "ASIA 90", and later codified as 49 U.S.C. 44909) requires that certificated air carriers and large foreign air carriers collect the full name of each U.S. citizen traveling on flight segments to or from the United States and solicit a contact name and telephone number. In case of an aviation disaster, airlines would be required to provide the information to the Department of State and, in certain circumstances, to the National

Transportation Safety Board. Each carrier has developed its own collection system. The Passenger Manifest Information, Final Rule (14 CFR 243) was published in the **Federal Register**, Vol. 63, No. 32 (February 18, 1998). The rule was effective March 20, 1998.

Respondents: All U.S. air carriers, foreign air carriers, and travel agents doing business in the United States, and the traveling public.

Estimated Total Annual Burden: Annual reporting burden for this data collection is estimated at 259,000 hours for all travel agents and airline ticket agents and 259,000 hours for air travelers, based on 45 seconds for non-frequent fliers and 15 seconds for frequent fliers, for the approximately 33% of international itineraries that involve personal contact. Most of this data collection (third party notification) is accomplished through highly automated computerized systems.

Estimated Number of Respondents: 16,000, excluding air travelers.

Estimated Time per Response: At 45 seconds for non-frequent fliers and 15 seconds for frequent fliers, for the approximately 33% of international itineraries that involve personal contact.

Comments are invited on: (a) Whether this collection of information (third party notification) is necessary for the proper performance of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including through the use of automated techniques or other forms of information technology.

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Issued in Washington, DC.

Todd M. Homan,

Director, Office of Aviation Analysis.
