## DEPARTMENT OF JUSTICE

### Notice of Lodging of Consent Decree Under the Clean Air Act

In accordance with Departmental  
policy, 28 CFR 50.7, notice is hereby  
given that on September 8, 2008, a  
proposed consent decree ("Consent  
Decree") in *United States v. St. Marys  
Cement Inc. (U.S.) and St. Barbara  
Cement Inc.*, Civil Action No. 3:08-CV-  
50199, was lodged with the United  
States District Court for the Northern  
District of Illinois, Western Division.

In this action, brought against St.  
Marys Cement Inc. (U.S.) and St.  
Barbara Cement Inc. ("collectively  
"Defendants") pursuant to sections  
113(b) and 167 of the Clean Air Act  
("the Act"), 42 U.S.C. 7413(b) and 7477,

the United States has sought injunctive  
relief and the assessment of civil  
penalties for violations of the  
Prevention of Significant Deterioration  
("PSD") provisions of the Act, 42 U.S.C.  
7470-92, and the PSD regulations  
incorporated into the federally approved  
and enforceable Illinois State  
Implementation Plan ("the SIP") at a  
Portland cement plant located in or near  
Dixon, Illinois ("Facility"). The United  
States' complaint alleges, among other  
things, that the Facility's prior owner  
and/or operator, CEMEX Central Plains  
Cement LLC ("CEMEX"), conducted a  
major modification of the Facility and  
that thereafter CEMEX and the  
Defendants, after they became the owner  
(St. Barbara Cement Inc.) and operator  
(St. Marys Cement Inc. (U.S.)) of the  
Facility, operated the Facility as  
modified without obtaining a PSD  
permit authorizing the major  
modification and without installing the  
best available technology to control  
emissions of nitrogen oxides ("NO<sub>x</sub>"),  
as required by the Act and the SIP.

The proposed consent decree would  
resolve the civil claims of the United  
States alleged in the complaint and in  
a Notice of Violation and Finding of  
Violation and a Notice of Violation  
issued by the U.S. Environmental  
Protection Agency, as well as any civil  
liability of CEMEX's successor for these  
same violations. The proposed consent  
decree would require, among other  
things, that the Defendants: Have  
installed emission controls (selective  
non-catalytic reduction) at three of the  
Facility's kilns and achieve specified  
NO<sub>x</sub> emission limits by April 30, 2009;  
permanently retire a fourth kiln; install  
NO<sub>x</sub> continuous emissions monitoring  
systems to measure NO<sub>x</sub> emissions at  
the Facility's kilns; apply for  
appropriate permits or permit  
modifications to incorporate various  
requirements of the consent decree; and  
pay a civil penalty to the United States  
in the amount of \$800,000.00. If the  
Defendants elect to build a new kiln to  
replace the retired kiln, the proposed  
consent decree establishes specific  
limitations and conditions governing  
the use of any NO<sub>x</sub> emission credits  
from the shutdown of the kiln,  
including specific requirements that  
would apply to any new kiln.

The Department of Justice will  
receive, for a period of thirty (30) days  
from the date of this publication,  
comments relating to the consent  
decree. Comments should be addressed  
to the Assistant Attorney General,  
Environment and Natural Resources  
Division, and either e-mailed to  
[pubcomment-ees@usdoj.gov](mailto:pubcomment-ees@usdoj.gov) or mailed  
to P.O. Box 7611, United States

Department of Justice, Washington, DC

States v. St. Marys Cement Inc. and St.  
Barbara Cement Inc.*, D.J. Ref. 90-5-2-  
1-08782.

The consent decree may be examined  
at the Office of the United States  
Attorney, 308 West State Street, Suite  
300, Rockford, Illinois 61101. During  
the public comment period, the consent
