[Project No. 4718-039]

Cocheco Falls Associates; Notice of Availability of Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR part 380, the Office of Energy Projects has reviewed the relicense application for the Cocheco Falls Dam Hydroelectric Project No. 4718 (project), located on the Cocheco River in the City of Dover, Strafford County, New Hampshire, and has prepared an Environmental Assessment (EA) for the project. No federal land would be occupied by the project.

The EA contains staff's analysis of the potential environmental effects of the project and concludes that licensing the project, with appropriate environmental protection measures, would not constitute a major federal action that would significantly affect the quality of the human environment.

The Commission provides all interested persons with an opportunity to view and/or print the EA via the internet through the Commission's Home Page (<https://www.ferc.gov>) using the "eLibrary" link. Enter the docket number, excluding the last three digits in the docket number field, to access the document.
