Notice of Availability of the Draft Final Report: "Comparison of the Alternative Asbestos Control Method and the NESHAP Method for Demolition of Asbestos-Containing Buildings"

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of document availability and invitation for public comment.

SUMMARY: The U.S. Environmental Protection Agency is announcing a public comment period and independent, external peer review for the draft Final Report for the Alternative Asbestos Control Method (AACM) Demonstration Project. The external peer review is expected to include a face-to-face meeting in Cincinnati, OH. The time and location for the external peer review meeting have not yet been determined and will be specified in a separate **Federal Register** notice. EPA

expects to invite the public to attend the meeting and to provide an opportunity to the public to make comments at the meeting. The public comment period and the external peer review provide opportunities for all interested parties to comment on the report. In addition to consideration by EPA, all public comments submitted in accordance with this notice will also be forwarded to EPA's contractor for consideration by the external peer review panel prior to the meeting.

EPA is releasing this draft document solely for the purpose of pre-dissemination peer review under applicable information quality guidelines. This document has not been formally disseminated by EPA. This draft Final Report does not represent and should not be construed to represent any EPA policy, viewpoint, or determination.

The U.S. EPA conducted a controlled demonstration to evaluate the AACM alongside the current National Emissions Standards for Hazardous Air Pollutants (NESHAP) method in a remote, secure location at Fort Chaffee, Arkansas. To facilitate side-by-side comparison, the demonstration used two similar structures with asbestos-containing materials. Additional information about this research project, including a description of the AACM and the project schedule, is available at <http://epa.gov/region6/6xa/asbestos.htm>.
