

CPSC staff drafted proposed guidance clarifying staff's informational requirements and process for evaluating NAMs and IATAs. As described in the proposed guidance, the types of information CPSC staff would use to evaluate NAMs or IATAs submitted to CPSC would include (but not be limited to): Concordance and reproducibility data; false positive and false negative rates; applicability domain; test endpoint; validation studies; or any other pertinent information needed to make a determination. The proposed guidance also includes an optional NAM nomination form, which can be used to organize information about a NAM or IATA for CPSC staff evaluation. Such non-animal alternative test methods, if accepted by CPSC, would be considered reliable test methods for determining compliance with the labeling requirements under the FHSA. Additionally, CPSC would continue to list CPSC-accepted alternative test methods on CPSC's website.

The proposed guidance is not a rule and does not establish legal requirements. The proposed guidance is intended to inform stakeholders about what information CPSC staff uses to evaluate NAMs or IATAs for FHSA labeling determinations. The proposed guidance also informs stakeholders of CPSC staff's process for evaluating that information. Depending on the complexity of specific NAMs or IATAs, the information discussed in the guidance may or may not apply; and in some instances, staff may need additional information not specifically described in the guidance document to make an evaluation. The proposed guidance is available at: <https://www.regulations.gov> under docket number, CPSC-2021-0006, under "Supporting and Related Material", on the Commission's website at: <https://cpsc.gov/s3fs-public/NOA-Proposed-Guidance-on-Alternative-Test-Methods-and-Integrated-Testing-Approaches.pdf?NDYVpNRIAMpOPJDPzlt770dvxnvPJHh6>, and from the CPSC's Division of the Secretariat, as provided in the ADDRESSES section of this notice.

B. Request for Comments

The Commission invites comments on the "Proposed Guidance for Industry and Test Method Developers: CPSC Staff Evaluation of Alternative Test Methods and Integrated Testing Approaches and Data Generated from Such Methods to Support FHSA Labeling Requirements." The CPSC will consider all timely comments before finalizing the guidance. Comments should be submitted by June 14, 2021. Information on how to submit comments can be

found in the ADDRESSES section of this notice.
