

The Commission is requesting review and approval of a new information collection requiring prepaid calling card providers to report quarterly the percentage of interstate, intrastate and international traffic and call volumes to carriers from which they purchase transport services. Prepaid calling card providers must also file certifications with the Commission quarterly that include the above information and a statement that they are contributing to the federal Universal Service Fund (USF) based on all interstate and international revenue, except for revenue from the sale of prepaid calling cards by, to, or pursuant to contract with Department of Defense (DoD) or a DoD entity.

The Commission has found that prepaid calling card providers are telecommunications service providers and therefore are subject to all of the regulations imposed on telecommunications service providers, including contributing to the USF. The new reporting requirements will allow the Commission to ensure that prepaid calling card providers are complying with the requirements of section 254(d) of the Telecommunications Act of 1996.
