Any person desiring to intervene or to protest in any of the above proceedings must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) on or before 5 p.m. Eastern time on the specified comment date. It is not necessary to separately intervene again in a subdocket related to a compliance filing if you have previously intervened in the same docket. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant. In reference to filings initiating a new proceeding, interventions or protests submitted on or before the comment deadline need not be served on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper, using the FERC Online links at <http://www.ferc.gov>. To facilitate electronic service, persons with Internet access who will eFile a document and/or be listed as a contact for an intervenor must create and validate an eRegistration account using the eRegistration link. Select the eFiling link to log on and submit the intervention or protests.

Persons unable to file electronically should submit an original and 14 copies of the intervention or protest to the Federal Energy Regulatory Commission, 888 First St., NE., Washington, DC 20426.

The filings in the above proceedings are accessible in the Commission's eLibrary system by clicking on the appropriate link in the above list. They are also available for review in the Commission's Public Reference Room in Washington, DC. There is an eSubscription link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed dockets(s). What Information is EPA Particularly Interested in?

Pursuant to section 3506(c)(2)(A) of the PRA, EPA specifically solicits comments and information to enable it to:

- (i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;
- (ii) evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- (iii) enhance the quality, utility, and clarity of the information to be collected; and

- (iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. In particular, EPA is requesting comments from very small businesses (those that employ less than 25) on examples of specific additional efforts that EPA could make to reduce the paperwork burden for very small businesses affected by this collection.

What Should I Consider When I Prepare My Comments for EPA?

You may find the following suggestions helpful for preparing your comments:

- 1. Explain your views as clearly as possible and provide specific examples.
- 2. Describe any assumptions that you used.
- 3. Provide copies of any technical information and/or data you used that support your views.
- 4. If you estimate potential burden or costs, explain how you arrived at the estimate that you provide.
- 5. Offer alternative ways to improve the collection activity.
- 6. Make sure to submit your comments by the deadline identified under **DATES**.
- 7. To ensure proper receipt by EPA, be sure to identify the docket ID number assigned to this action in the subject line on the first page of your response. You may also provide the name, date, and **Federal Register** citation.

What Information Collection Activity or ICR Does this Apply to?

Affected entities: Entities potentially affected by this action are State, local,

and Tribal air permitting agencies; regional planning organizations; certain facilities built between 1962 and 1977.

Title: Regional haze regulations, ICR No. 1813.06, and OMB Control Number 2060-0421, expiration date: July 31, 2006. This is a request for extension of a currently approved collection.

ICR numbers: EPA ICR No. 1813.06, OMB Control No. 2060-0421.

ICR status: This ICR is currently scheduled to expire on July 31, 2006. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: This ICR is for activities related to the implementation of EPA's 1999 regional haze rule, for the time period between August 1, 2006 and July 31, 2009. This ICR renews the previous ICR, which addressed the second three year time period after the rule was promulgated. The regional haze rule, as authorized by sections 169A and 169B of the Clean Air Act, requires States to develop implementation plans to protect visibility in 156 federally-protected Class I areas. Tribes may choose to develop implementation plans. For this time period, States will be conducting technical analyses in support of development of reasonable progress goals and strategies for regional haze, as required by the rule. EPA has encouraged States to work together in regional planning organizations to develop and implement multi-state strategies.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR Chapter 15.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 219 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions;

develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The ICR provides a detailed explanation of the Agency's estimate, which is only briefly summarized here:

Estimated total number of potential respondents: 205.

Frequency of response: Annual.

Estimated total average number of responses for each respondent: 3.

Estimated total annual burden hours: 44,917 hours.

Estimated total annual costs: \$1,862,383.

This represents an estimated burden cost. It does not include capital investment or maintenance and operational costs, as these types of costs will not be incurred during the 2006 to 2009 time period.

Are There Changes in the Estimates From the Last Approval?

For the 2006 to 2009 time period, there will be an increase in the total estimated respondent burden compared with that identified in the ICR currently approved by OMB. This increase will reflect EPA's new estimates covering the time period from 2006 until 2009, during which time State and local air permitting agencies will be finalizing and submitting to EPA their Regional Haze State Implementation Plans (SIPs). As these estimates are updated, an annotated ICR will be placed into the docket.

What Is the Next Step in the Process for This ICR?

The EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. At that time, EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

Dated: February 28, 2006.

*Associate Director, Air Quality Policy
Division, Office of Air Quality Planning and
Standards.*

I. Licenses To Be Offered and Limitations on Participation

1. In Auction No. 67, the licenses to be auctioned are the subject of pending

mutually exclusive applications for the referenced Air-Ground service that were filed on FCC Form 601. Participation in Auction No. 67 is limited to the parties that filed these pending mutually exclusive applications. These applicants, and the filing groups of which they are part, are identified in Attachment A of the *Auction No. 67 Comment Public Notice*. The applicants identified in Attachment A of the *Auction No. 67 Comment Public Notice* that wish to participate in the auction are required to file a short-form application (FCC Form 175) by the short-form deadline, which will be announced in a subsequent public notice. Applicants may seek eligibility to bid only on those licenses for which they have previously submitted an application on FCC Form 601 as set forth in Attachment A of the *Auction No. 67 Comment Public Notice*.

II. Supplemental Information Required

2. Each entity identified in Attachment A of the *Auction No. 67 Comment Public Notice* that wishes to be eligible for competitive bidding in Auction No. 67 must provide its FCC Registration Number (FRN) to the Commission for association with its pending application prior to 6 p.m. Eastern Time (ET) on April 5, 2006. Submission of an FRN for association with a pending FCC Form 601 application is required so that the FCC Auction System will display the appropriate license selection list for each short-form application. If no FRN is submitted in the prescribed manner by the specified deadline, the applicant will not be able to select its appropriate license(s) in its electronic short-form application (FCC Form 175) and will be ineligible to bid in Auction No. 67. If an applicant fails to provide this information in the prescribed manner and before the deadline specified, its pending FCC Form 601 application will be dismissed and it will not be eligible for competitive bidding for any of the licenses identified in Attachment A of the *Auction No. 67 Comment Public Notice* for which it has previously applied.

3. To submit an FRN, each listed applicant in Attachment A of the *Auction No. 67 Comment Public Notice* must provide, by 6 p.m. ET on April 5, 2006, its precise applicant name and FRN in an e-mail to auction67@fcc.gov or by facsimile to Kathryn Garland at (717) 338-2850. Any applicant that does not have an FRN must obtain one by registering using the FCC's Commission Registration system (CORES).
