

awarded a grant under this competition, you will be required to openly license to the public grant deliverables created in whole, or in part, with Department grant funds. When the deliverable consists of modifications to pre-existing works, the license extends only to those modifications that can be separately identified and only to the extent that open licensing is permitted under the terms of any licenses or other legal restrictions on the use of pre-existing works. Additionally, a grantee that is awarded competitive grant funds must have a plan to disseminate these public grant deliverables. This dissemination plan can be developed and submitted after your application has been reviewed and selected for funding. For additional information on the open licensing requirements please refer to 2 CFR 3474.20.

4. *Reporting:* (a) If you apply for a grant under this competition, you must ensure that you have in place the necessary processes and systems to comply with the reporting requirements in 2 CFR part 170 should you receive funding under the competition. This does not apply if you have an exception under 2 CFR 170.110(b).

(b) At the end of your project period, you must submit a final performance report, including financial information, as directed by the Secretary. If you receive a multiyear award, you must submit an annual performance report that provides the most current performance and financial expenditure information as directed by the Secretary under 34 CFR 75.118. The Secretary may also require more frequent performance reports under 34 CFR 75.720(c). For specific requirements on reporting, please go to www.ed.gov/fund/grant/apply/appforms/appforms.html.

5. *Performance Measures:* For the purposes of Department reporting under 34 CFR 75.110, the Department has established a set of performance measures including long-term measures that are designed to yield information on various aspects of the effectiveness and quality of the Technical Assistance and Dissemination to Improve Services and Results for Children with Disabilities program. These measures are:

- *Program Performance Measure #1:* The percentage of Technical Assistance and Dissemination products and services deemed to be of high quality by an independent review panel of experts qualified to review the substantive content of the products and services.

- *Program Performance Measure #2:* The percentage of Technical Assistance and Dissemination products and

services deemed by an independent review panel of qualified experts to be of high relevance to educational and early intervention policy or practice.

- *Program Performance Measure #3:* The percentage of all Technical Assistance and Dissemination products and services deemed by an independent review panel of qualified experts to be useful in improving educational or early intervention policy or practice.

- *Program Performance Measure #4:* The cost efficiency of the Technical Assistance and Dissemination Program includes the percentage of milestones achieved in the current annual performance report period and the percentage of funds spent during the current fiscal year.

- *Long-term Program Performance Measure (applies to absolute priority 1 only):* The percentage of States receiving Special Education Technical Assistance and Dissemination services regarding scientifically or evidence-based practices for infants, toddlers, children, and youth with disabilities that successfully promote the implementation of those practices in school districts and service agencies.

The measures apply to projects funded under this competition, and grantees are required to submit data on these measures as directed by OSEP and RSA.

Grantees will be required to report information on their project's performance in annual and final performance reports to the Department (34 CFR 75.590).

The Department will also closely monitor the extent to which the products and services provided by the project meet needs identified by stakeholders and may require the project to report on such alignment in its annual and final performance reports.

6. *Continuation Awards:* In making a continuation award, the Secretary considers, among other things: whether a grantee has made substantial progress in achieving the goals and objectives of the project; whether the grantee has expended funds in a manner that is consistent with its approved application and budget; if the Secretary has established performance measurement requirements, whether the grantee has made substantial progress in achieving the performance targets in the grantee's approved application; and whether the continuation of the project is in the best interest of the Federal Government.

In making a continuation award, the Secretary also considers whether the grantee is operating in compliance with the assurances in its approved application, including those applicable

to Federal civil rights laws that prohibit discrimination in programs or activities receiving Federal financial assistance from the Department (34 CFR 100.4, 104.5, 106.4, 108.8, and 110.23).

DEPARTMENT OF ENERGY

National Coal Council

AGENCY: Office of Fossil Energy & Carbon Management, Department of Energy.

ACTION: Notice of reestablishment.

SUMMARY: Pursuant to the Federal Advisory Committee Act and following consultation with the Committee Management Secretariat of the General Services Administration, notice is hereby given that the National Coal Council (NCC) will be reestablished for a two-year period. The Committee will provide advice, information, and recommendations to the Secretary of Energy on a continuing basis regarding

general policy matters relating to coal and the coal industry.

DATES: The NCC was reestablished on June 16, 2025.

FOR FURTHER INFORMATION CONTACT: Tom Sarkus at (412) 386-5981; *email:* Thomas.sarkus@netl.doe.gov.

SUPPLEMENTARY INFORMATION: The charter NCC lapsed on November 20, 2021. The NCC was replaced by a National Advisory Committee on Coal (NACC) which was chartered on February 16, 2022. The charter for the NACC lapsed on February 16, 2024, without any members ever being appointed or any meetings ever being held.

Committee members will be chosen to assure a well-balanced representation from all sections of the country, all segments of the coal industry including large and small companies, and coal consumers; coal transportation providers, technology suppliers, and organizations engaged in environmental remediation related to coal; coal mining and coal user host communities; and service providers and regional development experts. Membership and representation of all interests will be determined in accordance with the requirements of the Federal Advisory Committee Act and implementing regulations.

The reestablishment of the Committee has been deemed essential to the Department of Energy's (DOE's) business and in the public interest in conjunction with the performance of duties imposed upon the DOE, by law and agreement.

Signing Authority

This document was signed on June 16, 2025, by David Borak, Committee Management Officer, pursuant to delegated authority from the Secretary of Energy. That document with the original signature and date is maintained by the DOE. For administrative purposes only, and in compliance with requirements of the Office of the Federal Register, the undersigned DOE Federal Register Liaison Officer has been authorized to sign and submit the document in electronic format for publication, as an official document of the DOE. This administrative process in no way alters the legal effect of this document upon publication in the **Federal Register**.

Signed in Washington, DC, on June 16, 2025.

Jennifer Hartzell,

*Alternate Federal Register Liaison Officer,
U.S. Department of Energy.*
