

goal and develop a refrigerant management plan reflecting the company's implementation objectives. Implementation of the Partners' refrigeration management plan to reduce refrigerant emissions enhances the protection of the environment and may save Partners money and improve operational efficiency. The GreenChill Program offers the opportunity for any individual store to earn GreenChill Certification at the silver, gold, platinum, or other level when it demonstrates that the amount of refrigerant used is below a specified limit, based on the store's million British Thermal Units per hour (MBTU/hr) cooling load, and that the refrigerant emitted from the store in the prior 12 months is below a specified percentage depending on each GreenChill Store Certification level. Information submitted for the certification of individual stores is compared to these set criteria for each certification level. The certification of a store provides the opportunity for broad recognition within the food retail industry and with the store's customers.

Form numbers: 5900–213, 5900–214, 5900–586, 5900–587, 5900–588, 5900–589, 5900–590, 5900–591, 5900–592.

Respondents/affected entities: Entities potentially affected by this action listed under the North American Industry Classification System (NAICS) code for 445110, Supermarkets.

Respondent's obligation to respond: Voluntary.

Estimated number of respondents: 774 (per year).

Frequency of response: Annual, and when desired

Total estimated burden: 5,863 hours (per year). Burden is defined at 5 CFR 1320.03(b)

Total estimated cost: \$490,358 (per year), includes \$0 annualized capital or operation & maintenance costs.

Changes in the estimates: There is increase of 3,255 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This increase is primarily due to growth, by a factor of almost four, in the number of stores participating in the Store Certification Program.
