Abstract of Proposed Collection

The DS-160 and DS-156 collect biographical and other information from individuals seeking a nonimmigrant visa or individuals seeking a boarding foil for purposes of traveling to the United States to seek parole from the Department of Homeland Security. The consular officer uses the information collected to elicit information necessary to determine an applicant's eligibility for a nonimmigrant visa. The consular officer uses the information collected on the form to screen individuals seeking a boarding foil for purposes of obtaining parole pursuant to an agreement

between the Department of State and the Department of Homeland Security. Most respondents use the DS-160; however, posts may authorize an individual to use the paper-based DS-156 in limited circumstances as outlined below.

Methodology

Respondents submit the DS-160 electronically over an encrypted connection to the Department via the internet. The respondent will be instructed to print the confirmation page containing bar code record locators, which the consular officer will use to locate the form during processing.

The DS-156 is the paper-based version of the DS-160. In order to obtain a copy of the DS-156, an individual must contact the Embassy or consulate at which they are applying and request a copy. A consular officer may allow an individual to submit the DS-156 in the following limited circumstances when the DS-160 cannot be accessed and the:

- Respondent has an urgent medical or humanitarian travel need, and the consular officer has received explicit permission from the Visa Office to accept form DS-156;
- Respondent is a student or exchange visitor who must leave immediately in order to arrive on time for his/her course and the consular officer has explicit permission from the Visa Office to accept form DS-156;
- Respondent is a diplomatic or official traveler with urgent government business and form DS-160 has been unavailable for more than four hours; or
- Form DS-160 has been unavailable for more than three days and the officer receives explicit permission from the Visa Office.

Julie M. Stuft,

Deputy Assistant Secretary, Bureau of Consular Affairs, Department of State.

Abstract of Proposed Collection

The collection of the information requested on the DS-1838 and DS-7783 is necessary to comply with:

- *Homeland Security Presidential Directive 12 (HSPD-12)* was issued August 27, 2004 to set policy for a common, reliable, and secure identification standard for federal employees and contractors for accessing federally-controlled facilities and federal information systems. In order to keep Federal and other facilities where there is potential for terrorist attacks secure, wide variations in the quality and security of forms of identification need to be eliminated.

- *Federal Information Processing Standard Publication 201 (FIPS 201)* is a United States federal government standard that specifies Personal Identity Verification (PIV) requirements for Federal employees and contractors. The NIST (National Institute of Standards and Technology) Computer Security Division initiated a new program for improving the identification and authentication of Federal employees and contractors for access to Federal facilities and information systems.

All Department employees and contractors are required to submit application for a Personal Identification Card (DS-1838 domestically or DS-7783 overseas) at the time of hire.

Methodology

Information is collected by use of the DS-1838 (available through myData 2.0 and the Automated Badge Request) or DS-7783 (available through myData 2.0).
