ALLETE, Inc; Notice of Authorization for Continued Project Operation

The license for the Prairie River Hydroelectric Project No. 2361 was issued for a period ending December 31, 2023.

Section 15(a)(1) of the FPA, 16 U.S.C. 808(a)(1), requires the Commission, at the expiration of a license term, to issue from year-to-year an annual license to the then licensee(s) under the terms and conditions of the prior license until a new license is issued, or the project is otherwise disposed of as provided in section 15 or any other applicable section of the FPA. If the project is not subject to section 15 of the FPA, notice is hereby given that ALLETE, Inc. is authorized to continue operation of the Prairie River Hydroelectric Project under the terms and conditions of the prior license until the issuance of a subsequent license for the project or other disposition under the FPA, whichever comes first.

[Project No. 1494-405]

Grand River Dam Authority; Notice of Availability of Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission or FERC) regulations, 18 CFR part 380, Commission staff reviewed the Grand River Dam Authority's (GRDA) application for an amendment to the license of the Pensacola Hydroelectric Project No. 1494 and have prepared an Environmental Assessment (EA) for the proposed amendment. GRDA proposes to acquire, develop, and manage a 540-acre tract of land known as the Coal Creek Wildlife Management Area (WMA) and include these lands in the project boundary. This area is located along the south side of the Neosho River about three miles southwest of Miami, Oklahoma, immediately adjacent to the project boundary. Features of the Pensacola Project include: a concrete dam; auxiliary spillways; a reservoir known as Grand Lake O' the Cherokees (Grand Lake); six penstocks, turbines, and generators; a powerhouse; a tailrace; and appurtenant facilities. The project is located on the Neosho (Grand) River in Craig, Delaware, Mayes, and Ottawa counties, Oklahoma, and occupies

federal land administered by the Bureau of Indian Affairs.

The EA contains Commission staff's analysis of the potential environmental effects of developing and maintaining the Coal Creek WMA by GRDA and cooperatively with the Oklahoma Department of Wildlife Conservation to provide habitat for migratory birds and other wildlife through specific habitat restoration and management measures, and concludes that the proposed amendment, with appropriate environmental protective measures, would not constitute a major federal action that would significantly affect the quality of the human environment.
