Importer Certification

I hereby certify that I am an official of (insert name of company importing solar panels/modules), that I have knowledge of the facts regarding the importation of the solar panels/modules or other products containing solar panels/modules that entered under entry number(s) (insert entry number(s) covered by the certification), and that these solar panels/modules do not contain solar cells produced in Taiwan.

By signing this certificate, I also hereby certify that (insert name of company importing solar panels/modules) maintains sufficient documentation supporting this certification for all solar cells used to produce the solar panels/modules imported under the above-referenced entry number(s).

I understand that agents of the importer, such as brokers, are not permitted to make this certification. Also, I am aware that records pertaining to this certification may be requested by CBP. I understand that this certification must be completed at the time of the entry. I also understand that failure to maintain the required certification or failure to substantiate the claim that the panels/modules do not contain solar cells produced in Taiwan will result in suspension of all unliquidated entries for which these requirements were not met and the requirement that the importer post an AD cash deposit on those entries equal to the applicable rate in effect at the time of entry.¹

Exporter Certification

I hereby certify that I am an official of (insert name of company exporting solar panels/modules), that I have knowledge of the facts regarding the exportation of the solar panels/modules or other products containing the solar panels/modules identified below, and that these solar panels/modules do not contain solar cells produced in Taiwan.

By signing this certificate, I also hereby certify that (insert name of company exporting solar panels/modules) maintains sufficient documentation supporting this certification for all solar cells used to produce the solar panels/modules identified below. I am aware that records pertaining to this certification may be subject to verification by Department of Commerce officials and I consent to verification with respect to this certification and these records. I understand that this certification must be completed at the time of shipment. I also understand that failure to maintain the required certification or failure to substantiate the claim that the panels/modules do not contain solar cells produced in Taiwan will result in suspension of all unliquidated entries for which these requirements were not met and the requirement that the importer post an AD cash deposit on those entries equal to the applicable rate in effect at the time of entry.¹ The exports covered by this certification are (insert invoice numbers, purchase order numbers, export documentation, etc. to identify the exports covered by the certification).

Certain Crystalline Silicon Photovoltaic Products From the People's Republic of China: Final Determination of Sales at Less Than Fair Value

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

DATES: *Effective Date:* December 23, 2014.

SUMMARY: The Department of Commerce (the Department) determines that certain crystalline silicon photovoltaic products (certain solar products) from the People's Republic of China (PRC) are being, or are likely to be, sold in the United States at less than fair value (LTFV), as provided in section 735 of the Tariff Act of 1930, as amended (the Act). The final weighted-average dumping margins for this investigation are listed in the "Final Determination Margins" section below.

FOR FURTHER INFORMATION CONTACT: Jeffrey Pedersen or Thomas Martin, AD/CVD Operations, Office IV, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone: (202) 482–2769 or (202) 482–3936, respectively.

SUPPLEMENTARY INFORMATION:

Background

The Department published the preliminary determination in the LTFV investigation of certain solar products from the PRC on July 31, 2014.¹ The following events occurred since the preliminary determination. Between August 4 and 14, 2014, the Department conducted a verification of Changzhou Trina Solar Energy Co., Ltd. and Trina Solar (Changzhou) Science & Technology Co., Ltd. (collectively, Trina

Solar) in Changzhou, PRC, and conducted a verification of their U.S. sales affiliate, Trina Solar (U.S.) Inc., in San Jose, California. Between August 7 and 20, 2014, the Department conducted a verification of Renesola Jiangsu Ltd., Renesola America Inc., Jinko Solar Import and Export Co., Ltd., and Jinko Solar (U.S.) Inc., in Shanghai and Yixing, PRC, and in San Francisco, California.² The Department issued the verification reports regarding Trina Solar on September 26, 2014.³ The Department issued the verification reports regarding Renesola/Jinko on September 30 and October 2, 2014.⁴

On October 3, 2014, in response to interested parties' comments on the scope of this investigation, the Department announced that it was considering the possibility of a scope clarification, described the possible clarification, and provided interested

parties with an opportunity to submit comments on the potential clarification.⁵

On October 16, 2014, Trina Solar, Renesola/Jinko, SolarWorld Americas Inc. (Petitioner) (formerly SolarWorld Industries America, Inc.), the Government of the PRC, a U.S. importer, Suniva Inc., and certain separate rate applicants submitted case briefs.⁶ From October 22, 2014 to October 27, 2014, Trina Solar, Renesola/Jinko, Petitioner, and certain separate rate applicants submitted rebuttal briefs.⁷

⁵ See Letter to All Interested Parties "Re: Antidumping and Countervailing Duty Investigations of Certain Crystalline Silicon Photovoltaic Products from the People's Republic of China and the Antidumping Duty Investigation of Certain Crystalline Silicon Photovoltaic Products from Taiwan: Opportunity to Submit Scope Comments," dated October 3, 2014.

Although certain parties requested that a hearing be held, on October 24, 2014, all requests were subsequently withdrawn. Thus, the Department did not hold a hearing with respect to this investigation.

Period of Investigation

The period of investigation (POI) is April 1, 2013, through September 30, 2013. This period corresponds to the two most recent fiscal quarters prior to the month of the filing of the petition, which was December 2013.⁸

Scope Comments and Scope Clarification

As indicated in the "Background" section above, the Department received comments regarding the scope of this investigation from numerous interested parties. The Department summarized these comments and addressed them in the accompanying Issues and Decision Memorandum.⁹ As explained in the Issues and Decision Memorandum, we have clarified the scope language such that subject merchandise includes all modules, laminates and/or panels assembled in the PRC that contain crystalline silicon photovoltaic cells produced in a customs territory other than the PRC.¹⁰ The scope of the investigation for this final determination is below.

Certifications No Longer Required for This Proceeding

In the *Preliminary Determination*, the Department announced that (1) if an importer imports solar modules that were assembled in the PRC and (2) claims the solar modules do not contain solar cells manufactured in third countries using ingots, wafers, or partially produced solar cells manufactured in the PRC, the importer and PRC exporter of those solar modules are required to certify the claim and maintain documentation supporting the certifications.¹¹ However, given the clarification to the scope language, the Department is revoking the importer and exporter certification requirements announced in the *Preliminary Determination*. Importers and PRC exporters will not be required to maintain the certifications identified in the *Preliminary Determination* for merchandise entered, or withdrawn from warehouse, for consumption on or after July 31, 2014, the date of publication of the *Preliminary Determination* notice in the **Federal Register**. The revocation of the certification requirements previously established in this investigation does not change or rescind the certification requirements established in connection with the existing AD order on crystalline silicon photovoltaic cells, whether or not assembled into modules, from the PRC.¹²

Scope of the Investigation

The merchandise covered by this investigation is modules, laminates and/or panels consisting of crystalline silicon photovoltaic cells, whether or not partially or fully assembled into other products, including building integrated materials. For purposes of this investigation, subject merchandise includes modules, laminates and/or panels assembled in the PRC consisting of crystalline silicon photovoltaic cells produced in a customs territory other than the PRC.

Subject merchandise includes modules, laminates and/or panels

assembled in the PRC consisting of crystalline silicon photovoltaic cells of thickness equal to or greater than 20 micrometers, having a p/n junction formed by any means, whether or not the cell has undergone other processing, including, but not limited to, cleaning, etching, coating, and/or addition of materials (including, but not limited to, metallization and conductor patterns) to collect and forward the electricity that is generated by the cell.

Excluded from the scope of this investigation are thin film photovoltaic products produced from amorphous silicon (a-Si), cadmium telluride (CdTe), or copper indium gallium selenide (CIGS). Also excluded from the scope of this investigation are modules, laminates and/or panels assembled in the PRC, consisting of crystalline silicon photovoltaic cells, not exceeding 10,000mm² in surface area, that are permanently integrated into a consumer good whose function is other than power generation and that consumes the electricity generated by the integrated crystalline silicon photovoltaic cells. Where more than one module, laminate and/or panel is permanently integrated into a consumer good, the surface area for purposes of this exclusion shall be the total combined surface area of all modules, laminates and/or panels that are integrated into the consumer good. Further, also excluded from the scope of this investigation are any products covered by the existing antidumping and countervailing duty orders on crystalline silicon photovoltaic cells, whether or not assembled into modules, laminates and/or panels, from the PRC.¹³

Merchandise covered by this investigation is currently classified in the Harmonized Tariff Schedule of the United States (HTSUS) under subheadings 8501.61.0000, 8507.20.8030, 8507.20.8040, 8507.20.8060, 8507.20.8090, 8541.40.6020, 8541.40.6030 and 8501.31.8000. These HTSUS subheadings are provided for convenience and customs purposes; the

written description of the scope of this investigation is dispositive.

Analysis of Comments Received

All issues raised in the case and rebuttal briefs by parties to this investigation are addressed in the Issues and Decision Memorandum. A list of the issues which the parties raised and to which the Department responded in the Issues and Decision Memorandum is attached to this notice as an Appendix. The Issues and Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <http://access.trade.gov> and it is available to all parties in the Central Records Unit, room 7046 of the main Department of Commerce building. In addition, a complete version of the Issues and Decision Memorandum can be accessed directly at <http://enforcement.trade.gov/frn/>. The signed and electronic versions of the Issues and Decision Memorandum are identical in content.

Changes to the Margin Calculations Since the Preliminary Determination

Based on the Department's analysis of the comments received and our findings at verification, we made certain changes to the margin calculations. For a discussion of these changes, see the Issues and Decision Memorandum, the company-specific analysis and surrogate value memoranda, and the separate rate calculation memorandum, all dated concurrently with this notice.

Verification

As provided in section 782(i) of the Act and 19 CFR 351.307(b)(1)(i), in August 2014, the Department verified the information submitted by Trina Solar and Renesola/Jinko for use in the final determination. The Department used standard verification procedures, including examination of relevant accounting and production records and original source documents provided by Trina Solar and Renesola/Jinko.

Final Determination Margins

The Department determines that the following weighted-average dumping margins exist for the period April 1, 2013 through September 30, 2013.

PRC-Wide Entity

Consistent with the *Preliminary Determination*, the PRC-wide entity includes, among other companies, CSG PVTech Co., Ltd.; Lianyungang Shenzhou New Energy Co., Ltd.; Lightway Green New Energy Co., Ltd.;

SunEnergy (S.Z.) Co., Ltd.; SunPower Corporation (U.S.); Jiawei Solarchina (Shenzhen) Co., Ltd.; and Sumec Hardware & Tools Co., Ltd. We found these companies either have not demonstrated an absence of *de facto* government control, or did not have a

sales transaction during the POI that provided a basis for granting separate rate status.¹⁴

¹⁴ See the memorandum from Jeff Pedersen, Senior International Trade Analyst, Office IV, AD/CVD Operations to Abdelali Elouaradia, Director,

Continued

The PRC-wide entity also includes 35 PRC exporters and/or producers of the merchandise under consideration during the POI that did not respond to the Department's request for information.¹⁵ These companies withheld necessary information, failed to provide information by the established deadlines, and significantly impeded this proceeding by not submitting the requested quantity and value information within the meaning of sections 776(a)(1) and (a)(2)(A)–(C) of the Act, and further, failed to cooperate by not acting to the best of their ability to comply with the Department's requests for information within the meaning of section 776(b) of the Act. Therefore, we are continuing to apply adverse facts available to the PRC-wide entity. See Issues and Decision Memorandum for further discussion.

Disclosure

We intend to disclose to parties the calculations performed in this proceeding within five days of the date of publication of this notice in accordance with 19 CFR 351.224(b).

Separate Rate

The rate assigned to companies granted separate rate status that were not individually examined is normally determined based on the weighted-average of the estimated dumping margins calculated for exporters and producers individually investigated, excluding zero and *de minimis* margins or margins based entirely on facts available (FA).¹⁶ In this investigation,

we calculated above *de minimis* estimated weighted-average dumping margins that are not based on total FA for the two mandatory respondents, Trina Solar and Renesola/Jinko. Because we individually examined two companies in this investigation, basing the estimated dumping margin for the companies not individually examined on a weighted-average of the dumping margins for the two individually examined companies risks disclosure of business proprietary information (BPI). Therefore, we calculated both a weighted-average of the dumping margins calculated for the two mandatory respondents using public values for their sales of subject merchandise and a simple average of these two dumping margins, and selected, as the separate rate, the average that provides a more accurate proxy for the weighted-average margin of both companies calculated using BPI.¹⁷

Continuation of Suspension of Liquidation

In accordance with section 735(c)(1)(B) of the Act, the Department will instruct U.S. Customs and Border Protection (CBP) to continue to suspend liquidation of all appropriate entries of certain solar products from the PRC as described in the "Scope of the Investigation" section, which were entered, or withdrawn from warehouse, for consumption on or after July 31, 2014, the date of publication in the **Federal Register** of the notice of an affirmative preliminary determination that certain solar products are being, or are likely to be, sold in the United States at LTFV. Further, consistent with our practice, where the product from the PRC under investigation is also subject to a concurrent countervailing duty (CVD) investigation, the Department will instruct CBP to require a cash deposit¹⁸ equal to the weighted-average amount by which the normal value exceeds U.S. price, adjusted where appropriate for export subsidies and estimated domestic subsidy pass-through.¹⁹ The cash deposit rates, before any adjustments for export subsidies and estimated domestic subsidy pass-through,²⁰ are as follows: (1) For each

exporter/producer combination listed in the table above, the cash deposit rate will be equal to the dumping margin listed for that exporter/producer combination in the table; (2) for all other combinations of PRC exporters/producers of the merchandise under consideration, the cash deposit rate will be equal to the dumping margin established for the PRC-wide entity; and (3) for all non-PRC exporters of the merchandise under consideration which have not received their own separate rate above, the cash deposit rate will be equal to the cash deposit rate applicable to the PRC exporter/producer combination that supplied that non-PRC exporter. These suspension-of-liquidation instructions will remain in effect until further notice.

ITC Notification

In accordance with section 735(d) of the Act, we notified the International Trade Commission (ITC) of the final affirmative determination of sales at LTFV. As the Department's final determination is affirmative, in accordance with section 735(b)(2) of the Act, the ITC will determine, within 45 days, whether the domestic industry in the United States is materially injured, or threatened with material injury, by reason of imports of subject merchandise, or sales (or the likelihood of sales) for importation, of the subject merchandise. If the ITC determines that such injury does not exist, this proceeding will be terminated and all estimated duties deposited as a result of the suspension of liquidation will be refunded. If the ITC determines that such injury does exist, the Department will issue an antidumping duty order directing CBP to assess, upon further instructions by the Department, antidumping duties on all imports of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the effective date of the suspension of liquidation.

Takes of Marine Mammals Incidental to Specified Activities; Seabird and Pinniped Research Activities in Central California, 2015–2016

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; proposed incidental harassment authorization; request for comments.

SUMMARY: We, NMFS, have received an application from Point Blue Conservation Science (Point Blue) requesting an Incidental Harassment Authorization (Authorization) to take marine mammals, by harassment, incidental to conducting proposed seabird research activities on Southeast Farallon Island, Año Nuevo Island, and Point Reyes National Seashore in central California from January 2015 through January 2016. Per the Marine Mammal Protection Act, we are requesting comments on our proposal to issue an Authorization to Point Blue to incidentally harass, by Level B harassment only, four species of marine mammals during the year-long monitoring project.

ADDRESSES: Address comments on the application to Jolie Harrison, Chief, Permits and Conservation Division, Office of Protected Resources, National Marine Fisheries Service, 1315 East-West Highway, Silver Spring, MD 20910. The mailbox address for providing email comments is ITP.Cody@noaa.gov. You must include 0648-XD660 in the subject line. We are not responsible for email comments sent to addresses other than the one provided here. Comments sent via email, including all attachments, must not exceed a 25-megabyte file size. NMFS is not responsible for email comments sent to addresses other than the one provided here.

Instructions: All submitted comments are a part of the public record and NMFS will post them to <http://www.nmfs.noaa.gov/pr/permits/incidental/military.htm> without change. All Personal Identifying Information (for

example, name, address, etc.) voluntarily submitted by the commenter may be publicly accessible. Do not submit confidential business information or otherwise sensitive or protected information.

To obtain an electronic copy of the application, a list of the references used in this document, and Point Blue's Authorization request, visit the Internet at: <http://www.nmfs.noaa.gov/pr/permits/incidental/military.htm>.

NMFS prepared an Environmental Assessment (EA) in 2014 titled "Issuance of an Incidental Harassment Authorization to Point Blue Conservation Science and Partners to Take Marine Mammals by Harassment Incidental to Seabird and Pinniped Research Conducted in Central California." We provided relevant environmental information to the public through a notice for a previous proposed authorization (78 FR 66686, November 6, 2013) and considered public comments received in response prior to finalizing our EA.

At that time, NMFS concluded that issuance of an annual Authorization would not significantly affect the quality of the human environment and issued a Finding of No Significant Impact (FONSI) regarding issuing an Authorization for Point Blue's 2014–2015 seabird research activities. In conjunction with Point Blue's 2015–2016 application, NMFS will review the 2014 EA to determine whether supplementation is necessary. Information from Point Blue's application, NMFS' 2014 EA, and this notice collectively provide the environmental information related to a proposed issuance of the Authorization for public review and comment. An electronic copy of the EA for this activity is available upon request (see **ADDRESSES**).

SUPPLEMENTARY INFORMATION: Section 101(a)(5)(D) of the Marine Mammal Protection Act of 1972, as amended (MMPA; 16 U.S.C. 1361 *et seq.*) directs the Secretary of Commerce to allow, upon request, the incidental, but not intentional, taking of small numbers of marine mammals of a species or population stock, by U.S. citizens who engage in a specified activity (other than commercial fishing) within a specified geographical region if, after NMFS provides a notice of a proposed authorization to the public for review and comment: (1) NMFS makes certain findings; and (2) the taking is limited to harassment.
