BILLING CODE 6210-01-P

## DEPARTMENT OF DEFENSE

### GENERAL SERVICES ADMINISTRATION

### NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[OMB Control No. 9000-0198; Docket No. 2024-0053; Sequence No. 20]

#### Information Collection; Certain Federal Acquisition Regulation Part 9 Requirements

**AGENCY:** Department of Defense (DOD), General Services Administration (GSA), and National Aeronautics and Space Administration (NASA).

**ACTION:** Notice and request for comments.

**SUMMARY:** In accordance with the Paperwork Reduction Act of 1995, and the Office of Management and Budget (OMB) regulations, DoD, GSA, and NASA invite the public to comment on an extension concerning certain Federal Acquisition Regulation (FAR) part 9 requirements. DoD, GSA, and NASA invite comments on: whether the proposed collection of information is necessary for the proper performance of the functions of Federal Government acquisitions, including whether the information will have practical utility; the accuracy of the estimate of the burden of the proposed information collection; ways to enhance the quality, utility, and clarity of the information to be collected; and ways to minimize the burden of the information collection on respondents, including the use of automated collection techniques or other forms of information technology. OMB has approved this information collection for use through April 30, 2025. DoD, GSA, and NASA propose that OMB extend its approval for use for three additional years beyond the current expiration date.

**DATES:** DoD, GSA, and NASA will consider all comments received by February 18, 2025.

**ADDRESSES:** DoD, GSA, and NASA invite interested persons to submit comments on this collection through <https://www.regulations.gov> and follow the instructions on the site. This website provides the ability to type short comments directly into the comment field or attach a file for lengthier comments. If there are difficulties submitting comments, contact the GSA Regulatory Secretariat Division at 202-501-4755 or [GSARegSec@gsa.gov](mailto:GSARegSec@gsa.gov).

**Instructions:** All items submitted must cite OMB Control No. 9000-0198, Certain Federal Acquisition Regulation Part 9 Requirements. Comments received generally will be posted without change to <https://www.regulations.gov>, including any personal and/or business confidential information provided. To confirm receipt of your comment(s), please check [www.regulations.gov](https://www.regulations.gov), approximately two-to-three days after submission to verify posting.

**FOR FURTHER INFORMATION CONTACT:** Zenaida Delgado, Procurement Analyst, at telephone 202-969-7207, or [zenaida.delgado@gsa.gov](mailto:zenaida.delgado@gsa.gov).

#### SUPPLEMENTARY INFORMATION:

##### A. OMB Control Number, Title, and Any Associated Form(s)

9000-0198, Certain Federal Acquisition Regulation Part 9 Requirements.

##### B. Need and Uses

This clearance covers the information that offerors and contractors must submit to comply with the following FAR requirements:

1. FAR 52.209-1, Qualification Requirements. This clause requires offerors to provide with their proposal: Their name, the manufacturer's name, source's name, item's name, service identification, and test number (if known) for a proposed product or service that has already been determined to meet the qualification standards. If an offeror, manufacturer, source, product or service has met the qualification requirement but is not yet on a qualified products list, qualified manufacturers list, or qualified bidders list, this clause requires the offeror to submit evidence of qualification prior to award of a contract.

2. FAR 52.209-2, 52.209-10, and 52.212-3(n), Prohibition on Contracting with Inverted Domestic Corporations. FAR provision 52.209-2, Prohibition on Contracting with Inverted Domestic Corporations-Representation, and its

equivalent for commercial acquisitions at FAR 52.212-3(n), requires each offeror to represent whether it is, or is not, an inverted domestic corporation or a subsidiary of an inverted domestic corporation.

FAR clause 52.209-10, Prohibition on Contracting with Inverted Domestic Corporations, requires contractors to promptly notify the contracting officer in the event the contractor becomes an inverted domestic corporation or a subsidiary of an inverted domestic corporation during the period of performance of the contract.

3. FAR 52.209-5, 52.209-6, and 52.212-3(h), Debarment, Suspension, and other Responsibility Matters. FAR provision 52.209-5, Certification Regarding Responsibility Matters, and its equivalent for commercial acquisitions at FAR 52.212-3(h), require the disclosure of the following critical information by an offeror to be considered by the contracting officer in making a responsibility determination:

- Whether the offeror or any of its principals have been—
  - Debarred, suspended, proposed for debarment, declared ineligible for contract award;
  - Within a three-year period preceding their offer:
    - Convicted of or had a civil judgment rendered against them or indicted for commission of a fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State, or local) contract or subcontract, violation of Federal or State antitrust statutes relating to the submission of offers, or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property;
    - Notified of any delinquent Federal taxes in an amount that exceeds \$10,000 for which the liability remains unsatisfied;
    - Had one or more contracts terminated for default by any Federal agency; or
    - Are presently indicted for, or otherwise criminally or civilly charged by a governmental entity with commission of any of the offenses identified above.

If the offeror has responded affirmatively to the certifications in the FAR provisions at 52.209-5 or 52.212-3(h), the offeror shall provide additional information if requested by the contracting officer.

The offeror shall also provide immediate written notice to the contracting officer if, at any time prior

to contract award, the offeror learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

Paragraph (c) of the FAR clause at 52.209–6, Protecting the Government's Interest When Subcontracting with Contractor's Debarred, Suspended, or Proposed for Debarment, requires the contractor to require each proposed subcontractor whose subcontract will exceed \$35,000, other than a subcontractor providing a commercially available off-the-shelf (COTS) item, to disclose to the contractor in writing, whether as of the time of award of the subcontract, the subcontractor, or its principals, is or is not debarred, suspended, or proposed for debarment by the Government.

Paragraph (d) of the FAR clause at 52.209–6 requires a corporate officer or designee of the contractor to notify the contracting officer, in writing, before entering into a subcontract (for other than COTS items) with a party that is debarred, suspended, or proposed for debarment. The written notice must include: The name of the subcontractor; why the subcontractor is debarred, suspended, or ineligible; the compelling reason(s) for doing business with the subcontractor; and how the contractor will protect the Government's interests when dealing with such subcontractor. For any subcontract subject to Government consent, contracting officers shall not consent to such subcontracts unless the agency head or a designee states in writing the compelling reasons for approving such subcontract.

4. FAR 52.209–7 and 52.209–9, Information Regarding Responsibility Matters and Updates to that Publicly Available Information. FAR provision 52.209–7, Information Regarding Responsibility Matters, requires each offeror to represent whether it has current active Federal contracts and grants with a total value greater than \$10 million. The provision also requires each offeror to post in the Federal Awardee Performance and Integrity Information System (FAPIS), as required by maintaining an active registration in the System for Award Management (SAM), information on whether the offeror and/or any of its principals has, or has not, within the past five years, in connection with the award to or performance by the offeror of a federal contract or grant, been the subject of a proceeding, at the Federal or State level, that resulted in:

(a) A criminal conviction in the case of a criminal proceeding;

(b) The finding of fault and liability in a civil proceeding resulting in the

payment of \$5,000 or more in damages, restitution, reimbursement, fine or penalty;

(c) The finding of fault and liability in an administrative proceeding resulting in the payment of a monetary fine or penalty of \$5,000 or more, or the payment of a reimbursement, restitution, or damages in excess of \$100,000; or

(d) In a criminal, civil, or administrative proceeding, a disposition of the matter by consent or compromise with an acknowledgement of fault by the contractor if the proceeding could have led to any of the outcomes specified in (4)(a) through (c) above.

Paragraph (a) of the FAR clause 52.209–9, Updates of Publicly Available Information Regarding Responsibility Matters, requires contractors to update the information in FAPIS on a semiannual basis, throughout the life of the contract, by posting the information in SAM. Paragraph (c) of the FAR clause 52.209–9 informs contractors of their ability to provide feedback on information posted by the Government in FAPIS and the procedure to follow in the event information exempt from public disclosure is slated to become publicly available information in FAPIS.

5. FAR 52.209–11, 52.209–12, and 52.212–3(q), Prohibition on Contracting With Corporations with Delinquent Taxes or a Felony Conviction. FAR provision 52.209–11, Representation by Corporations Regarding Delinquent Tax Liability or a Felony Conviction under any Federal Law, and its equivalent for commercial acquisitions at FAR 52.212–3(q), require offerors to represent whether the offeror is a corporation that—

- Has any unpaid Federal tax liability that has been assessed, for which all judicial and administrative remedies have been exhausted or have lapsed, and that is not being paid in a timely manner pursuant to an agreement with the authority responsible for collecting the tax liability; and

- Was convicted of a felony criminal violation under a Federal law within the preceding 24 months.

FAR provision 52.209–12, Certification Regarding Tax Matters, require offerors proposing a total contract price that will exceed \$5.5 million (including options) to certify that, to the best of the offeror's knowledge and belief, it—

- Has filed all Federal tax returns required during the three years preceding the certification;

- Has not been convicted of a criminal offense under the Internal Revenue Code of 1986; and

- Has not, more than 90 days prior to certification, been notified of any unpaid Federal tax assessment for which the liability remains unsatisfied, unless the assessment is the subject of an installment agreement or offer in compromise that has been approved by the Internal Revenue Service and is not in default, or the assessment is the subject of a non-frivolous administrative or judicial proceeding.

6. FAR 52.209–13, Violations of Arms Control Treaties or Agreements with the United States. Unless the offeror is providing evidence of a waiver or determination in accordance with paragraph (b)(2) of the FAR provision at 52.209–13, Violation of Arms Control Treaties or Agreements—Certification, paragraph (b)(1) of the provision requires offerors to certify that—

- The offeror does not engage and has not engaged in any activity that contributed to or is a significant factor in the President's or Secretary of State's determination that a foreign country is in violation of its obligations undertaken in any arms control, nonproliferation, or disarmament agreement to which the United States is a party, or is not adhering to its arms control, nonproliferation, or disarmament commitments in which the United States is a participating state. The determinations are described in the most recent unclassified annual report provided to Congress pursuant to section 403 of the Arms Control and Disarmament Act (22 U.S.C. 2593a); and

- No entity owned or controlled by the offeror is an entity organized under the laws of such country, that engages or has engaged in any activity that contributed to or is a significant factor in the President's or Secretary of State's determination that a foreign country is in violation of its obligations undertaken in any arms control, nonproliferation, or disarmament agreement to which the United States is a party, or is not adhering to its arms control, nonproliferation, or disarmament commitments in which the United States is a participating state.

Contracting officers use the collected information described above to determine an offeror's responsibility for contract award.

### C. Annual Burden

*Respondents:* 1,973,803.

*Total Annual Responses:* 2,177,511.

*Total Burden Hours:* 1,125,803. (589,703 reporting hours + 536,100 recordkeeping hours).

*Obtaining Copies:* Requesters may obtain a copy of the information collection documents from the GSA Regulatory Secretariat Division by

calling 202-501-4755 or emailing [GSARegSec@gsa.gov](mailto:GSARegSec@gsa.gov). Please cite OMB Control No. 9000-0198, Certain Federal Acquisition Regulation Part 9 Requirements.

## DEPARTMENT OF HEALTH AND HUMAN SERVICES

### Centers for Disease Control and Prevention

[Docket No. CDC-2024-0103; NIOSH 355]

#### Expansion of NIOSH B Reader Certification Eligibility; Request for Information

**AGENCY:** Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).

**ACTION:** Request for information.

**SUMMARY:** The B Reader Program, administered by CDC's National Institute for Occupational Safety and Health (NIOSH), is seeking information from experts in occupational respiratory health surveillance and radiology, nurse practitioners, physician assistants, workers exposed to mineral dust and unions representing such workers, industry and other parties interested in allowing nurse practitioners and physician assistants to be eligible to take the NIOSH B Reader examination and become certified B Readers if they successfully pass the examination.

**DATES:** Comments must be received by March 17, 2025.

**ADDRESSES:** Submit comments by either of the following methods:

- *Federal eRulemaking Portal:* <https://www.regulations.gov>. Follow the instructions for submitting comments.

- *Mail:* NIOSH Docket Office, Robert A. Taft Laboratories, MS C-34, 1090 Tusculum Avenue, Cincinnati, Ohio 45226-1998.

*Instructions:* All written submissions received in response to this document must include the agency name and docket number (CDC-2024-0103; NIOSH-355) for this activity. All relevant comments, including any personal information provided, will be posted without change to <https://www.regulations.gov>. Do not submit comments by email.

**FOR FURTHER INFORMATION CONTACT:** Laura E. Reynolds, NIOSH B Reader

Program, Respiratory Health Division, 1095 Willowdale Road, MS HG900.2, Morgantown, WV 26505-2888; (304) 285-5853 (this is not a toll-free number); [lreynolds@cdc.gov](mailto:lreynolds@cdc.gov).

**SUPPLEMENTARY INFORMATION:** The NIOSH B Reader program, established in 42 CFR 37.52, certifies physicians as being able to apply the International Labour Organization (ILO) International Classification of Radiographs of Pneumoconioses in classifying posteroanterior chest radiographic images for the presence and severity of appearances of pneumoconiosis (a type of dust-induced lung disease). In the United States, B Readers classify chest radiographic images of workers participating in health surveillance programs.<sup>1</sup> These workers have jobs involving exposure to mineral dusts that can cause pneumoconiosis such as coal mine dust, crystalline silica, and asbestos.

B Readers participate in several types of activities involving classification of chest radiographs. Physicians who classify chest radiographs for certain Federal surveillance programs such as the NIOSH Coal Workers' Health Surveillance Program must be B Readers. Additionally, B Readers provide classifications for research purposes and for certain legal and administrative activities such as compensation programs.

Currently, only physicians licensed to practice medicine in the United States can serve as certified B Readers in the United States, and only after successfully completing the B Reader examination. The examination, developed by NIOSH in partnership with the American College of Radiology, is rigorous and tests physicians' ability to apply the ILO classification system. International physicians may also take the B Reader examination to document their ability to apply the ILO classification system, but those who pass the examination do not serve as certified B Readers in the United States.

As of October 2024, 184 U.S. physicians based in 35 States and 2 Territories are NIOSH-certified B Readers. NIOSH is interested in ensuring that B Readers are available to classify chest radiographs obtained in all states and territories. To meet this goal, NIOSH is requesting information from parties interested in allowing nurse practitioners and physician assistants to be eligible to take the NIOSH B Reader examination and become certified B Readers if they successfully pass the examination.

<sup>1</sup> See <https://www.cdc.gov/niosh/chestradiography/php/breader/>.

NIOSH is particularly interested in receiving information about the following questions:

1. What is the current demand for B Readers, and would expanding the program to include nurse practitioners and physician assistants help meet this demand?

2. Are there specific geographic areas or populations that might benefit from having nurse practitioners and physician assistants certified as B Readers?

3. Are there any potential risks associated with expanding the B Reader certification to nurse practitioners and physician assistants and, if so, how can those risks be mitigated?

4. ILO classification of chest radiographs is not the same as clinical interpretation. Are there states where scope of practice and standards of care allow nurse practitioners and physician assistants to perform clinical interpretation of chest radiographs without physician oversight? In states where physician oversight is required for clinical interpretation, is it also required for ILO classification? What would be the best approach to ensuring that appropriate clinical interpretations are obtained for all contemporary chest radiographs undergoing ILO classification by nurse practitioners and physician assistants?

5. How do you anticipate different interested parties (e.g., physicians, nurse practitioners and physician assistants, industry representatives, workers, health profession boards) would view the potential expansion of the B Reader program to include non-physicians?

6. What challenges might arise during the implementation of this expansion, and how could they be effectively managed?

7. Do you have any other information or comments relevant to whether nurse practitioners and physician assistants should be able to become B Readers and, if so, the best way to implement that expansion?

John J. Howard,

Director, National Institute for Occupational Safety and Health, Centers for Disease Control and Prevention, Department of Health and Human Services.
