Reimbursement of Duties

This notice also serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this POR. Failure to comply with this requirement could result in the Department's presumption that reimbursement of antidumping duties has occurred and the subsequent assessment of doubled antidumping duties.

Administrative Protective Orders

This notice also serves as a reminder to parties subject to administrative protective orders ("APO") of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305, which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

We are issuing and publishing this administrative review and notice in accordance with sections 751(a)(1) and 777(i) of the Act and 19 CFR 351.213(d)(4).

Dated: May 9, 2011.

SUPPLEMENTARY INFORMATION:

Background

The National Fish, Wildlife, and Plants Climate Adaptation Strategy (Strategy) is an integrated, coordinated, and comprehensive response to the threats of climate change. This multi-partner effort will outline a unified approach to maintaining the key terrestrial, freshwater and marine ecosystems needed to sustain fish, wildlife and plant resources and the services they provide in the face of accelerating climate change.

The Strategy will be guided by input and participation from a diverse group of agencies from across the country. For this reason, Federal, State and tribal agencies have been asked to participate as members of an intergovernmental Steering Committee to provide advice and support for development of the Strategy by 2012.

The Steering Committee consists of representatives from 16 Federal agencies with management authorities for fish, wildlife, plants, or their habitat, as well as representatives from five state fish and wildlife agencies and two tribal commissions. The purpose of the Steering Committee is to exchange views, information, and advice relating to the management and implementation of the Strategy. The Committee will oversee the Technical (writing) Teams, ensure a robust engagement process with a diverse group of stakeholders, and facilitate coordination and communication across agencies and departments.

COMMITTEE FOR PURCHASE FROM PEOPLE WHO ARE BLIND OR SEVERELY DISABLED

Procurement List; Addition and Deletion

AGENCY: Committee for Purchase From People Who Are Blind or Severely Disabled.

ACTION: Addition to and Deletion from the Procurement List.

SUMMARY: This action adds a service to the Procurement List that will be provided by a nonprofit agency employing persons who are blind or have other severe disabilities, and deletes a service from the Procurement List previously provided by such agency.

DATES: *Effective Date:* June 13, 2011.

SUPPLEMENTARY INFORMATION:

Addition

On 3/11/2011 (76 FR 13362-13363), the Committee for Purchase From People Who Are Blind or Severely Disabled published notice of proposed addition to the Procurement List.

Following the publication in the **Federal Register** of the initial notice containing this and other projects, the Committee received a comment from a self-identified small business owner objecting to the addition of the proposed list of product or service requirements to the Procurement List. While the comment did not specify a particular project, the commenter stated that adding these items would deny small business the opportunity to compete for these projects in the future.

The Javits-Wagner-O'Day Act and its legislative history unmistakably show that Congress understood the importance of job creation for people who are blind or have severe disabilities that would take place when products or services are added to the Procurement List. Through the Act, Congress directed the Committee to make appropriate determinations that would benefit people who are blind or severely disabled. Congress also realized that the decisions could impact other groups. Therefore, when the Committee makes appropriate determinations to add items to the Procurement List, it is meeting its statutory responsibility. In this case, the Committee has determined that this project is suitable for procurement by the government and will be added to the Procurement List.

After consideration of the material presented to it concerning capability of qualified nonprofit agency to provide the service and impact of the addition on the current or most recent contractors, the Committee has determined that the service listed below is suitable for procurement by the Federal Government under 41 U.S.C. 46-48c and 41 CFR 51-2.4.

Regulatory Flexibility Act Certification

I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

1. The action will not result in any additional reporting, recordkeeping or other compliance requirements for small entities other than the small organizations that will provide the service to the Government.

2. The action will result in authorizing small entities to provide the service to the Government.

3. There are no known regulatory alternatives which would accomplish the objectives of the Javits-Wagner-O'Day Act (41 U.S.C. 46-48c) in connection with the service proposed for addition to the Procurement List.

End of Certification

Accordingly, the following service is added to the Procurement List:
