[Project No. 14797–001]

California Department of Water Resources; Notice of Intent To Prepare an Environmental Assessment

On November 20, 2019, the California Department of Water Resources (California DWR) filed an application for a new major license for the existing 279.7-megawatt Devil Canyon Project (FERC No. 14797).¹ The Devil Canyon Project is part of a larger water storage and delivery system, the State Water Project (SWP). The Devil Canyon Project is located along the East Branch of the SWP Aqueduct, in San Bernardino County, California. The project occupies 220.98 acres of federal lands administered by the U.S. Forest Service, as part of the San Bernardino National Forest.

In accordance with the Commission's regulations, on June 15, 2021, Commission staff issued a notice that the project was ready for environmental analysis (REA Notice). Based on the information in the record, including comments filed on the REA Notice, staff does not anticipate that licensing the project would constitute a major federal action significantly affecting the quality of the human environment. Therefore,

¹ The proposed Devil Canyon Project is currently licensed as part of the South SWP Hydropower Project (FERC No. 2426). California DWR proposes to relicense the Devil Canyon Project separately.

staff intends to prepare a draft and final Environmental Assessment (EA) on the application to license the Devil Canyon Project.

The EA will be issued and circulated for review by all interested parties. All comments filed on the EA will be analyzed by staff and considered in the Commission's final licensing decision.

The application will be processed according to the following schedule. Revisions to the schedule may be made as appropriate.

Milestone	Target Date
Commission issues draft EA	April 2023.
Comments on draft EA	May 2023.
Commission issues final EA	July 2023. ²

Any questions regarding this notice may be directed to Quinn Emmering, the Commission's project coordinator for licensing the Devil Canyon Project, at (202) 502–6382 or at quinn.emmering@ferc.gov.
