Balanced Membership Plans

TSA is seeking applications for the membership categories scheduled to expire in May 2021, which are marked with an asterisk in this section below. Individuals are appointed by the TSA Administrator to represent 19 key constituencies affected by aviation security requirements, as defined at 49 U.S.C. 44946(c)(1)(C). The following list provides the 19 key constituencies and identifies with an asterisk (*) the constituencies for whom the current representative's term is expiring:

1. Air carriers
2. All-cargo air transportation *
3. Labor organizations representing air carrier employees *
4. Aircraft manufacturers *
5. Airport operators *
6. General aviation *
7. Travel industry *
8. Victims of terrorist acts against aviation *

Members will serve as representatives and speak on behalf of their respective constituency group, and will not be appointed as Special Government Employees as defined in 18 U.S.C. 202(a). Membership on ASAC is personal to the appointee and a member may not send an alternate to a Committee meeting. Pursuant to 49 U.S.C. 44946(c)(3), members shall not

receive pay, allowances, or benefits from the Government by reason of their service on ASAC.

Committee Meetings

The ASAC typically convenes four times per year. Additional meetings may be held with the approval of the Designated Federal Official. While at least one meeting per year is open to the public, due to the sensitive nature of the material discussed, the other meetings are typically closed to the public. In addition, members are expected to participate on ASAC subcommittees that typically meet more frequently to deliberate and discuss specific aviation matters.

Committee Membership

Committee members are appointed by and serve at the pleasure of the TSA Administrator for a 2-year term or until a successor is appointed. Members who are currently serving on the Committee are eligible to reapply for membership. A new application is required.

Application for Advisory Committee Appointment

SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act of 1995 (PRA, 44 U.S.C. 3501 *et seq.*) and 5 CFR 1320.8(d)(1), we provide the general public and other Federal agencies with an opportunity to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection

requirements and minimize the public's reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

On October 9, 2020, we published in the **Federal Register** (85 FR 64157) a notice of our intent to request that OMB approve this information collection. In that notice, we solicited comments for 60 days, ending on December 8, 2020. We did not receive any comments in response to that notice.

As part of our continuing effort to reduce paperwork and respondent burdens, we are again soliciting comments from the public and other Federal agencies on the proposed ICR that is described below. We are especially interested in public comment addressing the following:

- (1) Whether or not the collection of information is necessary for the proper performance of the functions of the agency, including whether or not the information will have practical utility;
- (2) The accuracy of our estimate of the burden for this collection of information, including the validity of the methodology and assumptions used;
- (3) Ways to enhance the quality, utility, and clarity of the information to be collected; and
- (4) How might the agency minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of response.

Comments that you submit in response to this notice are a matter of public record. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Abstract: The Branch of Training and Inspection (BTI) in the Service's Office of Law Enforcement coordinates and conducts training for Service special agents, wildlife inspectors, and administrative staff, as well as for State, Native American, and foreign individuals responsible for wildlife and habitat protection. Over the past decade, there have been substantial increases in the numbers of programs and

individuals trained, hours of training provided, and numbers of training sites.

There is a critical need for a comprehensive, reliable, and secure internet-based system capable of enhancing the Service's ability to plan, coordinate, and track the increased training-associated information and workflow, as well as the associated equipment, materials, and supplies required to successfully accomplish and sustain our vital training environments.

The BTI purchased the Acadis Readiness Suite, by Envisage Technologies. This software suite provides the Service with the opportunity to enhance the standardization of many of the internal processes associated with training and also provides us with an improved ability to respond to inquiries from Congress, the Department of the Interior, and other external agencies. The software suite will enhance the ability of the BTI to:

- Schedule/track internal and external training events;
- Improve the ability to register/track both our internal and external student population;
- To maintain training records throughout the career of Service personnel;
- To improve the ability to test and survey Service student populations;
- To establish a robust lesson plan repository; and
- To respond to inquiries from internal and external agencies.

In order to administer this proposed collection of information, the Service (in consultation with trainee recommendations provided to the Service by U.S. Embassies and the State Department) will collect the following information from prospective trainees as part of the registration process:

- Applicant's full legal name;
- Photograph;
- Biography;
- Gender;
- Date of birth;
- Last four digits of Social Security Number;
- Email address;
- Home address and telephone number;
- Years of law enforcement officer experience;
- Highest education level;
- Agency name and address, title/rank, and level in agency;
- Emergency contact name and phone number; and
- Supervisor's name, email address, and phone number.

In addition to the required information above, international course participants will also be required to

provide the following, which would be used only in the event of an emergency:

- Passport number and country of issue;
- Passport expiration date;
- National ID number; and
- Languages spoken.

We will use two separate registration forms, one for U.S. citizens attending the domestic training programs and the other for international students who will attend training programs here in the United States. The U.S. citizens do not need a current passport or international identification number, because they will not be entering into the United States. Our international partners will be entering the United States and thus will need to ensure their documentation is valid for entry into the country.

Participants will each automatically receive the post-course evaluation form, which asks them to provide feedback on the following:

- Length of experience;
- Program length;
- Overall ratings;
- Content, presentation, and course materials;
- Labs, practical exercises, and written exams;
- Program outcomes; and
- General comments.

The Service will use the information collected to record, track, and manage training records of domestic and foreign students affiliated with law enforcement agencies who attend training offered by the Service. The information will provide us with the capability to search the records of previous attendees (upon official inquiry only) by name, country of origin, or specific identifying number. We will only use students' information in the Acadis Readiness Suite for administrative functions such as signing up/registering for training, training history, and training requirements. In the international survey, we also ask specific questions about language proficiency to determine what type and how many interpreters will be needed in the program; this information assists us in creating breakout groups.

The authorities for the Service to collect the required information necessary to administer training programs utilizing the Acadis Readiness Suite include:

- Bald and Golden Eagle Protection Act (16 U.S.C. 668–668c);
- Lacey Act (18 U.S.C. 42–43; 16 U.S.C. 3371–3378);
- National Wildlife Refuge System Administration Act (16 U.S.C 668dd–668ee);
