3. *Environmental justice.* EPA seeks to achieve environmental justice, the fair treatment and meaningful involvement of any group, including minority and/or low-income populations, in the development, implementation, and enforcement of environmental laws, regulations, and policies. To help address potential environmental justice issues, the Agency seeks information on any groups or segments of the population who, as a result of their location, cultural practices, or other factors, may have atypical or disproportionately high and adverse human health impacts or environmental effects from exposure to the pesticides discussed in this document, compared to the general population.

II. What Action is the Agency Taking?

EPA is announcing its receipt of several pesticide petitions filed under section 408 of the Federal Food, Drug, and Cosmetic Act (FFDCA), 21 U.S.C. 346a, proposing the establishment or modification of regulations in 40 CFR part 174 or part 180 for residues of pesticide chemicals in or on various food commodities. EPA has determined that the pesticide petitions described in this notice contain the data or information prescribed in FFDCA section 408(d)(2); however, EPA has not fully evaluated the sufficiency of the submitted data at this time or whether the data support granting of the pesticide petitions. Additional data may be needed before EPA can make a final determination on these pesticide petitions.

Pursuant to 40 CFR 180.7(f), a summary of each of the petitions that are the subject of this notice, prepared by the petitioner, is included in a docket EPA has created for each rulemaking. The docket for each of the petitions is available on-line at <http://www.regulations.gov>.

As specified in FFDCA section 408(d)(3), (21 U.S.C. 346a(d)(3)), EPA is publishing notice of the petition so that the public has an opportunity to comment on this request for the establishment or modification of regulations for residues of pesticides in or on food commodities. Further information on the petition may be obtained through the petition summary referenced in this unit.

Rhodia, Inc., 8 Cedar Brook Dr., Cranbury, NJ 08512, proposes to establish an exemption from the requirement of a tolerance for residues of alkyl (C₁₂-C₁₆) dimethyl ammonio acetate (ADAA) when used as a pesticide inert ingredient in pesticide formulations applied to growing crops and when applied to animals, under 40 CFR 180.920 and 180.930, with a limit of up to 20 percent of pesticide formulations. This tolerance expression includes: alkyl (C₁₂) dimethyl ammonio acetate (C₁₂-ADAA), CAS No. 683-10-3; alkyl (C₁₄) dimethyl ammonio acetate (C₁₄-ADAA), CAS No. 2601-33-4; and alkyl (C₁₆) dimethyl ammonio acetate (C₁₆-ADAA), CAS No. 693-33-4. SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this Action Apply to Me?

This action is directed to the general public to provide an opportunity for review and comment on proposed AEGLs and their Technical Support Documents. This action may be of particular interest to anyone who may be affected if the AEGLs are adopted by government agencies for emergency planning, prevention, or response programs, such as EPAs Risk Management Program under the Clean Air Act and Amendments Section 112r. It is possible that other Federal agencies besides EPA, as well as State and local agencies and private organizations, may adopt the AEGLs for their programs. As such, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the applicability of this action to a particular entity, consult the DFO listed under **FOR FURTHER INFORMATION CONTACT**.

B. What Should I Consider as I Prepare My Comments for EPA?

1. **Submitting CBI.** Do not submit this information to EPA through regulations.gov or e-mail. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. **Tips for preparing your comments.** When submitting comments, remember to:

- i. Identify the document by docket ID number and other identifying information (subject heading, **Federal Register** date and page number).
- ii. Follow directions. The Agency may ask you to respond to specific questions or organize comments by referencing a Code of Federal Regulations (CFR) part or section number.
- iii. Explain why you agree or disagree; suggest alternatives and substitute language for your requested changes.
- iv. Describe any assumptions and provide any technical information and/or data that you used.
- v. If you estimate potential costs or burdens, explain how you arrived at your estimate in sufficient detail to allow for it to be reproduced.
- vi. Provide specific examples to illustrate your concerns and suggest alternatives.
- vii. Explain your views as clearly as possible, avoiding the use of profanity or personal threats.
- viii. Make sure to submit your comments by the comment period deadline identified.

II. What Action is the Agency Taking?

EPAs Office of Prevention, Pesticides and Toxic Substances (OPPTS) provided notice on October 31, 1995 (60 FR 55376) (FRL-4987-3) of the establishment of the NAC/AEGL Committee with the stated charter objective as "the efficient and effective development of AEGLs and the preparation of supplementary qualitative information on the hazardous substances for Federal, State, and Local agencies and organizations in the private sector concerned with [chemical] emergency planning, prevention, and response." The NAC/AEGL Committee is a discretionary Federal advisory committee formed with the intent to develop AEGLs for hazardous substances through the combined efforts of stakeholder members from both the public and private sectors in a cost-effective approach that avoids duplication of efforts and provides uniform values, while employing the most scientifically sound methods available.

This action provides notice of availability for public review and comment, of proposed AEGLs and underlying supporting documents for 19 hazardous substances. These AEGLs represent the 12th set of exposure levels proposed and published by the NAC/AEGL Committee. These 12 sets of AEGLs cover 259 hazardous substances. Background information on the AEGL Program may be found in these earlier **Federal Register** notices, in the regulations.gov, or on the AEGL

webpage (<http://www.epa.gov/oppt/aegl/>).

Following public review and comment, the NAC/AEGL Committee will reconvene to consider relevant comments, data, and information that may have an impact on the NAC/AEGL Committees position and will again seek consensus for the establishment of Interim AEGLs. Although the Interim AEGLs will be available to Federal, State and local agencies and to organizations in the private sector as biological reference values, it is intended to have them reviewed by a subcommittee of the National Academies (NAS). The NAS subcommittee will serve as a peer review of the Interim AEGLs and as the final arbiter in the resolution of issues regarding the AEGLs, and the data and basic methodology used for setting AEGLs. Following concurrence, Final AEGLs will be published under the auspices of the NAS.

III. List of Hazardous Substances

On behalf of the NAC/AEGL Committee, EPA is providing an opportunity for public comment on the proposed AEGLs for the 19 hazardous substances identified in the table in this unit. Technical Support Documents are available in the docket for this notice. See **ADDRESSES** for docket information.
