Frontseating Service Valves From the People's Republic of China: Preliminary Results of Antidumping Duty Administrative Review; Preliminary Determination of No Shipments; 2012–2013

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (“the Department”) is conducting an administrative review of the antidumping duty order on frontseating service valves from the People's Republic of China (“PRC”). The period of review (“POR”) is April 1, 2012, through March 31, 2013. The review covers two exporters of subject merchandise, Zhejiang DunAn Hetian Metal Co., Ltd. (“DunAn”) and Zhejiang Sanhua Co., Ltd. (“Sanhua”). The Department preliminarily finds that DunAn did not have reviewable transactions during the POR. In addition, we preliminarily determine that Sanhua made sales of subject merchandise at less than normal value during the POR. Interested parties are invited to comment on these preliminary results.

DATES: *Effective Date:* May 27, 2014.

FOR FURTHER INFORMATION CONTACT: Laurel LaCivita, Enforcement and Compliance, Office III, International Trade Administration, Department of Commerce, 1401 Constitution Avenue NW., Washington, DC 20230; telephone: (202) 482–4243.

SUPPLEMENTARY INFORMATION:**Scope of the Order**

The merchandise covered by this order is frontseating service valves, assembled or unassembled, complete or incomplete, and certain parts thereof of any size, configuration, material composition or connection type.¹ Frontseating service valves are classified under subheading 8481.80.1095, and also have been classified under subheading 8415.90.80.85, of the Harmonized Tariff Schedule of the United States (“HTSUS”). It is possible for frontseating service valves to be manufactured out of primary materials

other than copper and brass, in which case they would be classified under HTSUS subheadings 8481.80.3040, 8481.80.3090, or 8481.80.5090. In addition, if unassembled or incomplete frontseating service valves are imported, the various parts or components would be classified under HTSUS subheadings 8481.90.1000, 8481.90.3000, or 8481.90.5000. The HTSUS subheadings are provided for convenience and customs purposes, but the written description of the scope of this proceeding is dispositive.

Preliminary Determination of No Shipments for DunAn

DunAn submitted a timely-filed certification indicating that it had no shipments of subject merchandise to the United States during the POR.² Consistent with its practice, the Department asked U.S. Customs and Border Protection (“CBP”) to conduct a query on potential shipments made by DunAn during the POR; CBP did not provide any evidence that contradicts DunAn's claim of no shipments.³ Further, on December 23, 2013, the Department released to interested parties the results of the CBP query that it intended to use for corroboration of DunAn's no shipment claims.⁴ The Department received no comments from interested parties concerning the results of the CBP query.

Based on DunAn's certification and our analysis of CBP information, we preliminarily determine that DunAn did not have any reviewable transactions during the POR. In addition, the Department finds that, consistent with its assessment practice in non-market economy (“NME”) cases, it is appropriate not to rescind the review in part in this circumstance, but rather to complete the review with respect to DunAn and issue appropriate instructions to CBP based on the final results of the review.⁵

Methodology

The Department conducted this review in accordance with section

751(a)(1)(B) of the Tariff Act of 1930, as amended (“the Act”). Constructed export prices have been calculated in accordance with section 772(b) of the Act. Because the PRC is an NME within the meaning of section 771(18) of the Act, normal value has been calculated in accordance with section 773(c) of the Act.

For a full description of the methodology underlying our preliminary results, see the Preliminary Decision Memorandum. The Preliminary Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (“IA ACCESS”). IA ACCESS is available to registered users at <http://iaaccess.trade.gov> and in the Central Records Unit, room 7046 of the main Department of Commerce building. The signed Preliminary Decision Memorandum and the electronic versions of the Preliminary Decision Memorandum are identical in content.

Preliminary Results of Review

The Department preliminarily determines that the following weighted-average dumping margin exists for the POR April 1, 2012, through March 31, 2013:

Exporter	Weighted-Average Dumping Margin (Percent)
Zhejiang Sanhua Co., Ltd.	0.98

Disclosure and Public Comment

The Department intends to disclose to the parties the calculations performed for these preliminary results within five days of the date of publication of this notice in accordance with 19 CFR 351.224(b). As discussed in the Preliminary Decision Memorandum, the Department intends to place labor data from Bulgaria on the record of this review after issuing the preliminary results. Once this occurs, the Department will establish a schedule for the submission of written argument pursuant to 19 CFR 351.309(c) and (d) and a hearing pursuant to 19 CFR 351.310.

Unless otherwise extended, the Department intends to issue the final results of this administrative review, which will include the results of its

analysis of issues raised in any such comments, within 120 days of publication of these preliminary results, pursuant to section 751(a)(3)(A) of the Act.

Assessment Rate

Upon issuance of the final results of this review, the Department will determine, and CBP shall assess, antidumping duties on all appropriate entries covered by this review.⁶ The Department intends to issue appropriate assessment instructions to CBP 15 days after publication of the final results of this review.

For any individually examined respondent whose weighted-average dumping margin is above *de minimis*, we will calculate importer-specific *ad valorem* duty assessment rates based on the ratio of the total amount of dumping calculated for the importer's examined sales to the total entered value of those same sales in accordance with 19 CFR 351.212(b)(1).⁷ For duty assessment rates calculated on this basis, we will direct CBP to assess the resulting *ad valorem* rate against the entered customs values for the subject merchandise.

The Department announced a refinement to its assessment practice in NME cases. Pursuant to this refinement in practice, for entries that were not reported in the U.S. sales databases submitted by companies individually examined during this review, the Department will instruct CBP to liquidate such entries at the PRC-wide rate. In addition, if the Department determines that an exporter under review had no shipments of the subject merchandise, any suspended entries that entered under that exporter's case number (*i.e.*, at that exporter's rate) will be liquidated at the PRC-wide rate.⁸

The final results of this review shall be the basis for the assessment of antidumping duties on entries of merchandise covered by the final results of this review and for future deposits of estimated duties, where applicable.

Cash Deposit Requirements

The following cash deposit requirements, when imposed, will apply to all shipments of subject merchandise entered, or withdrawn from warehouse,

for consumption on or after the publication of the final results of this administrative review, as provided by section 751(a)(2)(C) of the Act: (1) For DunAn, which claimed no shipments, the cash deposit rate will remain unchanged from the rate assigned to DunAn in the most recently completed review of the company; (2) for Sanhua, which has a separate rate, the cash deposit rate will be the one established in the final results of this review (except, if the rate is zero or *de minimis*, then zero cash deposit will be required); (3) for any previously investigated or reviewed PRC and non-PRC exporter that is not under review in this segment of the proceeding but that received a separate rate in a previous segment, the cash deposit rate will continue to be the exporter-specific rate published for the most recent period; (4) for all PRC exporters of subject merchandise that have not been found to be entitled to a separate rate, the cash deposit rate will be the PRC-wide rate of 55.62 percent, which is rate assigned to the PRC-Wide Entity in the investigation;⁹ and (5) for all non-PRC exporters of subject merchandise which have not received their own rate, the cash deposit rate will be the rate applicable to the PRC exporter(s) that supplied that non-PRC exporter. These cash deposit requirements, when imposed, shall remain in effect until further notice.

Notification to Importers

This notice also serves as a preliminary reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Department's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

We are issuing and publishing notice of these results in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

Dated: May 16, 2014.

Ronald K. Lorentzen,

Acting Assistant Secretary for Enforcement and Compliance.
