Public comments on the ICR are invited.

DATES: The OMB will consider all written comments that agency receives on or before May 27, 2016.

Authority: 44 U.S.C. 3507(a)(1)(D).

SUPPLEMENTARY INFORMATION: This ICR seeks PRA authority for the ETA Workforce Innovation and Opportunity Act (WIOA) Performance Accountability, Information, and Reporting System information collection. The following programs will be required to report through this system: WIOA Adult, Dislocated Worker and Youth, Wagner Peyser Employment Service, National Farmworker Jobs, Trade Adjustment Assistance, YouthBuild, Indian and Native American, Job Corps, and Jobs for Veterans' State Grants. Requiring these programs to use a standard set of data elements, definitions, and specifications at all levels of the workforce system helps improve the quality of the performance information that is received by the DOL. While H1–B grants, the Reintegration of Ex-Offenders program, and the Trade Adjustment Assistance program are not authorized under the WIOA, these programs will be utilizing the data element definitions and reporting templates proposed in this ICR. The accuracy, reliability, and

comparability of program reports submitted by states and grantees using Federal funds are fundamental elements of good public administration, and are necessary tools for maintaining and demonstrating system integrity. This ICR includes several information collection instruments—Program Performance Report, WIOA Pay-for-Performance Report, Participant Individual Record Layout, WIOA Data Element Specifications, and Job Openings Report. WIOA section 185 authorizes this information collection. See 29 U.S.C. 3245.

This proposed information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information if the collection of information does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. For additional information, see the related notices published in the **Federal Register** on April 16, 2015 (80 FR 20573), and September 1, 2015 (80 FR 52798).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section within thirty (30) days of publication of this notice in the **Federal Register**. In order to help ensure appropriate consideration, comments should mention OMB ICR Reference Number 201604–1205–003. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology,

e.g., permitting electronic submission of responses.

SUPPLEMENTARY INFORMATION: This ICR seeks to extend PRA authority for the Occupational Safety and Health State Plans information collection. Occupational Safety and Health Act of 1970 section 18 encourages States to assume responsibility for the development and enforcement of State occupational safety and health standards through the mechanism of an approved State plan. Absent a plan approved by the OSHA, a State is preempted from asserting authority over any occupational safety and health issue with respect to which a Federal standard has been promulgated. Section 18 establishes the basic criteria for State plan approval; provides for the discretionary exercise of concurrent Federal enforcement jurisdiction for a period of time following initial approval; provides that State standards and enforcement must be, and continue to be, at least as effective as the Federal program, including any change thereto; and requires the OSHA to make a continuing evaluation of the State plan to take action to withdraw plan approval should there be a failure to substantially comply with any provision of the State Plan. A State choosing to operate an OSHA-approved plan must provide information to document the State program is at least as effective as the Federal OSHA program. In order to obtain and maintain State Plan approval, a State must submit various documents to the OSHA describing the Plan program structure and operation, including any modification thereto as it
