

DEPARTMENT OF THE INTERIOR**Geological Survey**

[GX24GA00EZ50300; OMB Control Number 1028–NEW]

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval: Comment Request; U.S. Geological Survey, Generic Clearance for Natural Hazard Disaster-Related Data Collection

AGENCY: U.S. Geological Survey, Interior.

ACTION: Notice of information collection; request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act (PRA) of 1995, the U.S. Geological Survey (USGS) is proposing a new information collection.

DATES: Interested persons are invited to submit comments on or before September 30, 2024.

ADDRESSES: Send your comments on this information collection request (ICR) by mail to USGS, Information Collections Clearance Officer, 12201 Sunrise Valley Drive, MS 159, Reston, VA 20192; or by email to gs-info_collections@usgs.gov. Please reference OMB Control Number 1028–NEW in the subject line of your comments.

FOR FURTHER INFORMATION CONTACT: To request additional information about this ICR, contact Jack Friedman by email at jfriedman@usgs.gov, or by telephone at 608–636–0796. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION: In accordance with the PRA (44 U.S.C. 3501 *et seq.*) and 5 CFR 1320.8(d)(1), all information collections require approval by the Office of Management and Budget (OMB). As part of our continuing effort to reduce paperwork and respondent burdens, we invite the public and other Federal agencies to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public's reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

We are especially interested in public comment addressing the following:

(1) Whether or not the collection of information is necessary for the proper performance of the functions of the agency, including whether or not the information will have practical utility;

(2) The accuracy of our estimate of the burden for this collection of information, including the validity of the methodology and assumptions used;

(3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) How the agency might minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of response.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personally identifiable information (PII) in your comment, you should be aware that your entire comment—including your PII—may be made publicly available at any time. While you can ask us in your comment to withhold your PII from public review, we cannot guarantee that we will be able to do so.

Abstract: The mission of the U.S. Geological Survey is to serve the Nation by providing reliable scientific information to describe and understand the Earth; minimize loss of life and property from natural disasters; manage water, biological, energy, and mineral resources; and enhance and protect our quality of life (USGS, SM 120.1.2). Regarding hazard events, the USGS provides information needed by its customers before, during, and after hazard events to minimize the loss of life and property. Hazards include, but are not limited to, earthquakes, volcanoes, landslides, geomagnetic (solar) storms, floods, drought, coastal erosion, tsunamis, wildland fire, wildlife disease, and other biological and chemical threats (USGS, SM 120.1.3.A). Part of the USGS's function is to communicate with emergency managers, public safety officials, and others during hazard events and to conduct post-crisis analysis (USGS, SM 120.1.3.A.6–7). With this in mind, the USGS proposes to conduct a number of data collection efforts within the topic areas of hazards preparedness, response, and recovery studies and community resilience and sustainability. These

efforts include studies of specific disaster events (*e.g.*, wildfire, hurricane, earthquake, volcano, landslide, tsunami, geomagnetic (*i.e.*, space weather), and flood); assessments of the effectiveness of USGS science to meet the needs of emergency managers, public safety officials, and others; and evaluations of the usability and utility of USGS natural hazard-related guidance or other products.

These data collection efforts may be either qualitative or quantitative in nature or may consist of mixed methods. Additionally, data may be collected via a variety of means, including but not limited to electronic or social media, direct or indirect observation (*i.e.*, in person video and audio collections), interviews, questionnaires, and focus groups. The USGS will limit its inquiries to data collections that solicit strictly voluntary opinions or responses. The data collected will be used to decrease negative impacts of hazard events on society, improve the flow of actionable information to emergency managers and public safety officers, and, in turn, increase community resilience within the United States. Steps will be taken to protect confidentiality of respondents in each activity covered by this request.

The USGS utilizes this clearance to conduct research in support of topic areas of natural hazard-related disaster studies and community resilience. This type of research is directly related to a range of hazards that are unpredictable in their number and scale during a given year. Additionally, some hazard events may require multiple studies resulting in multiple collections. Therefore, in light of the uncertainties regarding the frequency and extent of severe hazard events, the USGS is requesting the ICR annual response allotment be set at 4,500 responses and the ICR annual hours allotment at 2,000 hours.

The USGS will collect this information by electronic means when possible, as well as by mail, fax, telephone, technical discussions, and in-person interviews. The USGS may also utilize observational techniques to collect this information.

Title of Collection: Generic Clearance for Hazard Event-Related Data Collection.

OMB Control Number: 1028–NEW.

Form Number: None.

Type of Review: New.

Respondents/Affected Public:

Individuals or households; emergency managers; first responders; weather forecasters; members of the media; water, power, transportation, and communications infrastructure operators; businesses or other for-profit

organizations; not-for-profit institutions; State, local or Tribal government; Federal government; standards-making bodies; universities.

Total Estimated Number of Annual Respondents: 2,500.

Total Estimated Number of Annual Responses: 4,500 (2,500 15-minute surveys; 1,500 15-minute follow-up surveys; 500 2-hour follow-up interviews).

Estimated Completion Time per Response: Varied, dependent upon the data collection method used. The possible response time to complete a questionnaire may be 15 minutes or 2 hours to participate in an interview.

Total Estimated Number of Annual Burden Hours: 2,000.

Respondent's Obligation: Voluntary.

Frequency of Collection: The vast majority will be one-time data collection. It is possible that follow-up data collection (pre-/post-conditions) could occur if data are collected from respondents who are impacted by more than one hazard-related incident or a prolonged incident, but we expect this to be very rare.

Total Estimated Annual Non-hour Burden Cost: None.

An agency may not conduct or sponsor, nor is a person is required to respond to a collection of information unless it displays a currently valid OMB control number.

The authority for this action is the PRA of 1995 (44 U.S.C. 3501 *et seq.*).

Michael Grimm,

Associate Director for Natural Hazards, USGS.

Tribal Tourism Grant Program; Solicitation of Proposals

AGENCY: Bureau of Indian Affairs, Interior.

ACTION: Notice.

SUMMARY: Through this notice, the Office of the Assistant Secretary—Indian Affairs, through the Office of Indian Economic Development (OIED), announces a forthcoming FY 2024 Tribal Tourism Grant Program (TTGP) Notice of Funding Opportunity (NOFO) for Tribal tourism projects.

DATES: Proposals must be submitted to no later than 5 p.m. eastern time by the

deadline indicated in the NOFO and posting on *Grants.gov*.

ADDRESSES: Proposals must be submitted to <https://www.Grants.gov>.

FOR FURTHER INFORMATION CONTACT: Mr. Dennis Wilson, Grant Management Specialist, Office of Indian Economic Development, telephone (505) 917-3235; email: dennis.wilson@bia.gov. If you have questions regarding the application process, please contact Ms. Jo Ann Metcalfe, Grant Officer, telephone (410) 703-3390; email: jo.metcalfe@bia.gov. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Additional Program information can be found at: <https://www.bia.gov/service/grants/ttgp>.

SUPPLEMENTARY INFORMATION: This Office of Indian Economic Development (OIED) announcement for the forthcoming FY 2024 Tribal Tourism Grant Program (TTGP) Notice of Funding Opportunity (NOFO) provides interested applicants time to prepare their applications prior to the opening of the application period. The OIED expects the official NOFO solicitation to run for approximately 90 days on *Grants.gov* to receive applications. Additional information for the FY 2024 TTGP NOFO, as well as a link to the final NOFO posting on *Grants.gov*, will be available on OIED's website at the following URL: <https://www.bia.gov/service/grants/ttgp>. Eligible applicants include:

- Native American Tribal Governments (federally recognized);
- Native American Tribal Organizations (other than federally recognized); and
- Indian Tribes and Tribal Organizations, as defined in section 4 of the Indian Self-Determination and Education Assistance Act (ISDEAA) (25 U.S.C. 5304), including Tribal Consortia.

The FY 2024 TTGP cohort anticipates awarding \$1.4 million in total funding. The OIED estimates awarding 10 to 15 grants, ranging in value from \$75,000 to \$150,000 in total funding for a 24-month period of performance. The FY 2024 TTGP is to fund implementation projects for tribal tourism which will be achieved within the period of performance. The forthcoming NOFO will provide the structure by which the applications will be reviewed and evaluated as they implement their tourism project.

While the OIED will not accept applications until the open solicitation

period, interested applicants may submit questions to the grant program contacts. OIED will not fund an implementation project that has comparable activities previously carried out under other Federal assistance programs or has construction or construction related components. Applicants are encouraged to conduct the required registration activities for the System for Award Management (SAM), Unique Entity Identifier (UEI), the Automated Standard Application for Payment (ASAP), as well as acquire Tribal authorizations.

The required method of submitting proposals during the open solicitation period is through *Grants.gov*. For additional information on how to apply, see the grant instructions available at: <https://apply07.grants.gov/help/html/help/Applicants/HowToApplyForGrants.htm>.

Bryan Newland,

Assistant Secretary—Indian Affairs.

BILLING CODE 4337-15-P

INTERNATIONAL TRADE COMMISSION

[Investigation Nos. 701-TA-608 and 731-TA-1420 (Review)]

Steel Racks From China; Institution of Five-Year Reviews

AGENCY: International Trade Commission.

ACTION: Notice.

SUMMARY: The Commission hereby gives notice that it has instituted reviews pursuant to the Tariff Act of 1930 ("the Act"), as amended, to determine whether revocation of the antidumping and countervailing duty orders on steel racks from China would be likely to lead to continuation or recurrence of material injury. Pursuant to the Act, interested parties are requested to respond to this notice by submitting the information specified below to the Commission.

DATES: Instituted August 1, 2024. To be assured of consideration, the deadline for responses is September 3, 2024. Comments on the adequacy of responses may be filed with the Commission by October 10, 2024.

FOR FURTHER INFORMATION CONTACT: Peter Stebbins (202-205-2039), Office of Investigations, U.S. International Trade Commission, 500 E Street SW, Washington, DC 20436. Hearing-impaired persons can obtain information on this matter by contacting the Commission's TDD terminal on 202-
