

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104–13. Comments are requested regarding; whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments regarding this information collection received by June 12, 2024 will be considered. Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function. An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Food and Nutrition Service

Title: Special Supplemental Nutrition Program for Women, Infants, and Children (WIC) Program Regulations—Reporting and Recordkeeping Burden.

OMB Control Number: 0584–0043.

Summary of Collection: The Special Supplemental Nutrition Program for Women, Infants, and Children (WIC) provides supplemental foods, nutrition education, including breastfeeding promotion and support, and health care referrals to low income, nutritionally at-risk pregnant, breastfeeding and postpartum women, infants, and children up to age five. Currently, WIC operates through State health departments in 50 States, 33 Indian Tribal Organizations, American Samoa, District of Columbia, Guam, Commonwealth of the Northern Mariana Islands, Puerto Rico, and the Virgin Islands. The Federal regulations governing the WIC Program (7 CFR part 246) require that certain program-related information be collected and that full and complete records concerning WIC operations are maintained. The WIC Program is authorized by the Child Nutrition Act of 1966, as amended.

Access to Baby Formula Act (ABFA) of 2022 Implementation (RIN 0584–AE94) and amends the Special Supplemental Nutrition Program for Women, Infants, and Children (WIC) program regulations by incorporating provisions of the Access to Baby Formula Act of 2022.

ABFA established waiver authority for the Secretary of Agriculture to address certain emergencies, disasters, and supply chain disruptions impacting WIC, and adds requirements to State agency infant formula cost containment contracts to protect against disruptions to the program in the event of a recall. The amended provision focuses on improving State agencies' ability to ensure continuity of program operations during emergencies, public health emergencies, and major disasters (emergency periods) and supply chain disruptions, while ensuring access to program benefits among low-income infants, children, and pregnant, postpartum, and breastfeeding applicants and participants.

Need and Use of the Information: The Food and Nutrition Service (FNS) collects information from state and local agencies, applicants, and retail vendors to determine eligibility in the WIC

Program. This ongoing information collection is mandatory for state agencies and required to obtain or retain benefits for the WIC participants. This information includes participant certification information (e.g., income and nutrition risk); nutrition education documentation; local agency and vendor application and agreement information; vendor sales and shelf price data; data related to vendor monitoring and training; financial and food delivery system records, and Electronic Benefits Transfer (EBT) delivery, alternate operating procedures in the event of an emergency period or supply-chain disruption, and remedies for infant formula cost containment contracts related to the changes in the rule. State Plans are the principal source of information about how each State agency operates its WIC Program. The information is needed for the general operation of the Program, including regulatory compliance, and for ongoing program integrity and cost-saving efforts. The information is also used by FNS to manage, plan, evaluate, make decisions, and report on WIC Program operations. If the information were not collected, the efficiency and effectiveness of the Program would be jeopardized, improper use of Federal funds would increase, and FNS' ability to detect violations would diminish greatly.

Description of Respondents: Individuals or Households; Businesses or Other for Profit; Not-for profit institutions; and State, Local, or Tribal Government.

Number of Respondents: 6,283,276.

Frequency of Responses: Recordkeeping; Reporting: Quarterly; Semi-annually; Monthly; Annually; and as Needed.

Total Burden Hours: 15,693,814.

Rachelle Ragland-Greene,

Departmental Information Collection Clearance Officer.

Submission for OMB Review; Comment Request

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the

Paperwork Reduction Act of 1995, Public Law 104–13. Comments are requested regarding; whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments regarding this information collection received by June 12, 2024 will be considered. Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function. An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Title: 2024–2025 National School Foods Study.

OMB Control Number: 0584–NEW.

Summary of Collection: This new information collection request is for the 2024–2025 National School Foods Study, which consists of three components: School Nutrition and Meal Cost Study–II (SNMCS–II) (OMB Control Number 0584–0648, expired 9/30/2022), School Food Purchase Study (SFPS–IV) (OMB Control Number 0584–0471, expired 3/31/2012). Later, a reinstatement with changes of a previously approved collection was submitted for SFPS–IV but withdrawn on 6/11/2021, and an evaluation of the Fresh Fruit and Vegetable Program (FFVP) (OMB Control Number 0584–0556, expired 06/30/2013).

The school meal programs administered by the Food and Nutrition Service (FNS) of the United States Department of Agriculture (USDA) are a cornerstone of the nation's nutrition safety net for low-income children. The

2024–2025 National School Foods Study continues the long-standing commitment of FNS to periodically assess the NSLP and SBP as well as the FFVP. It will provide a comprehensive picture of these programs in SY 2024–2025.

The Healthy, Hunger-Free Kids Act of 2010 (HHFKA) mandated substantial changes to the nutrition standards for school meals. These changes were implemented beginning in SY 2012–2013. The goal of the updated standards was to increase the alignment of school meals with the Dietary Guidelines for Americans and current information about the nutrient requirements of school-age children (Institute of Medicine 2010). Key reforms stemming from this legislation included new, more stringent meal pattern and nutrient requirements for school meals, new offer-versus-serve rules, gradually increased prices for paid meals, and the introduction of standards for competitive foods, called the Smart Snacks in School nutrition standards.

Need and Use of the Information: The study will collect a broad range of data from nationally representative samples of public SFAs and their State Distributing Agencies (SDA), schools, students, and parents/guardians during SY 2024–2025 in the 48 contiguous States and DC. These data will provide needed information about how federally sponsored school meal programs are operating over the 10 years following implementation of major reforms, including new nutrition standards that went into effect in SY 2012–2013 and more recent changes that will be in effect during SY 2024–2025.

Description of Respondents: State, Local and Tribal Governments, Businesses, Individuals and Households.

Number of Respondents: 22,571.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 36,653.62.

DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104–13. Comments are

requested regarding; whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments regarding this information collection received by June 12, 2024 will be considered. Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function. An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Food and Nutrition Service

Title: Report of Commodity Distribution for Disaster Relief (FNS–292A) And Report Of Disaster Supplemental Nutrition Assistance Program Benefit Issuance (FNS–292B).

OMB Control Number: 0584–0037.

Summary of Collection: State distributing agencies may release commodity or donated foods procured by the United States Department of Agriculture (USDA) to disaster organizations to provide nutritional assistance to disaster victims. Under the Code of Federal Regulations (CFR) at 7 CFR 250.69(f), a State distributing agency, including an Indian Tribal Organization (ITO) administering FNS programs, must submit its final FNS–292A to FNS within 45 days of terminating disaster operations, and under 7 CFR 250.19 (a)(b), must maintain a record of this form for three years.

State agencies may operate a Disaster Supplemental Nutrition Assistance Program (D–SNAP), a separate program
