#### SUPPLEMENTARY INFORMATION:

##### A. Background

On March 22, 2004, the EPA issued final regulations allowing RD&D permits to be issued at certain municipal solid waste landfills (69 FR 13242). This new

provision may only be implemented by an approved State. While States are not required to seek approval for this new provision, those States that are interested in providing RD&D permits to municipal solid waste landfills must seek approval from EPA before issuing such permits. Kansas received final approval for 40 CFR part 258 provisions on June 24, 1996 (61 FR 32434). This request incorporates the November 27, 1996, final rule (61 FR 60328) for financial assurance mechanisms for local governments; the July 29, 1997, final rule (62 FR 40708) for revisions to criteria for small municipal solid waste landfills; and the April 10, 1998, final rule (63 FR 17706) for financial test and corporate guarantee to financial assurance mechanisms. Approval procedures for new provisions of 40 CFR part 258 are outlined in 40 CFR 239.12. On December 11, 2008, Kansas submitted an application for approval of its RD&D permit provisions and update of the approved MSWLP program.

##### B. Decision

After a thorough review, EPA determined that Kansas' RD&D permit provisions and its updated rules for its Municipal Solid Waste Landfill Permit Program, as defined under Kansas Statutes Annotated (KSA) Chapter 65—Public Health, Article 34—Solid Waste, Kansas Administrative Regulations (KAR), Agency 28—Kansas Department of Health and Environment, Article 29—Solid Waste Management are adequate to ensure compliance with the Federal criteria as defined at 40 CFR 258.4.

##### C. Statutory and Executive Order Reviews

This action approves State solid waste requirements pursuant to Resource Conservation and Recovery Act (RCRA) Section 4005 and imposes no Federal requirements. Therefore, this rule complies with applicable executive orders and statutory provisions as follows:

1. *Executive Order 12866*: Regulatory Planning Review—The Office of Management and Budget has exempted this action from its review under Executive Order (EO) 12866;

2. *Paperwork Reduction Act*: This action does not impose an information collection burden under the Paperwork Reduction Act;

3. *Regulatory Flexibility Act*: After considering the economic impacts of today's action on small entities under the Regulatory Flexibility Act, I certify that this action will not have a significant economic impact on a substantial number of small entities;

4. *Unfunded Mandates Reform Act*: Because this action approves pre-existing requirements under State law and does not impose any additional enforceable duty beyond that required by State law, this action does not contain any unfunded mandate, or significantly or uniquely affect small governments, as described in the Unfunded Mandates Act;

5. *Executive Order 13132*: Federalism—EO 13132 does not apply to this action because this action will not have federalism implications (*i.e.*, there are no substantial direct effects on States, on the relationship between the national government and States, or on the distribution of power and responsibilities between Federal and State governments);

6. *Executive Order 13175*: Consultation and Coordination with Indian Tribal Governments—EO 13175 does not apply to this action because it will not have Tribal implications (*i.e.*, there are no substantial direct effects on one or more Indian Tribes, on the relationship between the Federal government and Indian Tribes, or on the distribution of power and responsibilities between the Federal government and Indian Tribes);

7. *Executive Order 13045*: Protection of Children from Environmental Health and Safety Risks—This action is not subject to EO 13045 because it is not economically significant and is not based on health or safety risks;

8. *Executive Order 13211*: Actions that Significantly Affect Energy Supply, Distribution, or Use—This action is not subject to EO 13211 because it is not a significant regulatory action as defined in EO 12866;

9. *National Technology Transfer Advancement Act*: This provision directs EPA to use voluntary consensus standards in its regulatory activities unless to do so would be inconsistent with applicable law or otherwise impracticable. Voluntary consensus standards are technical standards (*e.g.*, materials specifications, test methods, sampling procedures, and business practices) that are developed or adopted by voluntary consensus standards and bodies. EPA approves State programs so long as the State programs meet the criteria delineated in 40 CFR part 258. It would be inconsistent with applicable law for EPA, in its review of a State program, to require the use of any particular voluntary consensus standard in place of another standard that meets 40 CFR part 258 requirements. Thus, the National Technology Transfer Advancement Act does not apply to this action;

10. *Congressional Review Act*: EPA will submit a report containing this action and other information required by the Congressional Review Act (5 U.S.C. 801 *et seq.*) to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication in the **Federal Register**.
